Actual results, performance or achievements could differ materially from those projected in the forward-looking statements as a result of a number of risks, uncertainties, and other factors. Guided by an entrepreneurial spirit, the Company combines a rich heritage of making great food with a sharpened focus on innovation. We began as a Midwestern flour-milling company and entered other commodity-based businesses throughout our history. We were initially incorporated as a Nebraska corporation in and reincorporated as a Delaware corporation in January . Over time, we transformed into the branded, pure-play consumer packaged goods food company we are today. Growing our food businesses has also been fueled by innovation, organic growth of our brands, and expansion into adjacent categories. We are focused on delivering sustainable, profitable growth with strong and improving returns on our invested capital. The transaction effecting this change was structured as a tax-free spinoff. In January , we acquired Ralcorp Holdings, Inc. Since the acquisition of Ralcorp, we focused on addressing executional shortfalls and customer service issues intended to improve operating performance for our Private Brands business. However, after further review of the Private Brands business, we changed our strategic direction and divested the Private Brands business in the third quarter of fiscal .

Financial Information about Reporting Segments We reflect our results of operations in five reporting segments: **Narrative Description of Business** We compete throughout the food industry and focus on adding value for our customers who operate in the retail food and foodservice channels. Our operations, including our reporting segments, are described below. **International** The International reporting segment principally includes branded food products, in various temperature states, sold in various retail and foodservice channels outside of the United States. **Foodservice** The Foodservice reporting segment includes branded and customized food products, including meals, entrees, sauces, and a variety of custom-manufactured culinary products packaged for sale to restaurants and other foodservice establishments primarily in the United States. **Commercial Foods** The Commercial reporting segment included commercially branded and private label food and ingredients, which were sold primarily to commercial, restaurant, foodservice, food manufacturing, and industrial customers. In the first quarter of fiscal , we sold our Spicetec and JM Swank businesses. These businesses comprise the entire Commercial segment following the presentation of Lamb Weston as discontinued operations. **Unconsolidated Equity Investments** We have three unconsolidated equity investments. Our most significant equity method investment is a milling business. **Acquisitions** On June 26, , subsequent to the end of fiscal , we entered into a definitive merger agreement with Pinnacle Foods Inc. The planned acquisition is expected to close by the end of calendar and remains subject to the approval of Pinnacle shareholders, the receipt of regulatory approvals, and other customary closing conditions. In February , we acquired the Sandwich Bros. In September , we acquired the operating assets of Frontera Foods, Inc. These businesses make authentic, gourmet Mexican food products and contemporary American cooking sauces. The assets of this business have been reclassified as assets held for sale within our Consolidated Balance Sheets for all periods presented. In the fourth quarter of fiscal , the agreement was terminated. This outcome followed the decision of the Federal Trade Commission, announced on March 5, , to challenge the pending sale. On November 9, , we completed the Spinoff of our Lamb Weston business. As of such date, we did not beneficially own any equity interest in Lamb Weston and no longer consolidated Lamb Weston into our financial results. We reflected the results of this business as discontinued operations for all periods presented. **General** The following comments pertain to all of our reporting segments. Conagra Brands is a branded consumer packaged goods food company that operates in many sectors of the food industry, with a significant focus on the sale of branded, private branded, and value-added consumer food, as well as foodservice items and ingredients. We use many different raw materials, the bulk of which are commodities.

The prices paid for raw materials used in making our food generally reflect factors such as weather, commodity market fluctuations, currency fluctuations, tariffs, and the effects of governmental agricultural programs. Although the prices of raw materials can be expected to fluctuate as a result of these factors, we believe such raw materials to be in adequate supply and generally available from numerous sources. From time to time, we have faced increased costs for many of our significant raw materials, packaging, and energy inputs. We seek to mitigate higher input costs through productivity and pricing initiatives, and the use of derivative instruments to economically hedge a portion of forecasted future consumption. We experience intense competition for sales of our food items in our major markets. Our food items compete with widely advertised, well-known, branded food, as well as private branded and customized food items. Some of our competitors are larger and have greater resources than we have. We compete primarily on the basis of quality, value, customer service, brand recognition, and brand loyalty. Demand for certain of our food items may be influenced by holidays, changes in seasons, or other annual events. We manufacture primarily for stock and fill our customer orders from finished goods inventories. While at any given time there may be some backlog of orders, such backlog is not material in respect to annual net sales, and the changes of backlog orders from time to time are not significant. Our trademarks are of material importance to our business and are protected by registration or other means in the United States and most other markets where the related food items are sold. Some of our food items are sold under brands that have been licensed from others. We also actively develop and maintain a portfolio of patents, although no single patent is considered material to the business as a whole. We have proprietary trade secrets, technology, know-how, processes, and other intellectual property rights that are not registered. We believe that we comply with such laws and regulations in all material respects and that continued compliance with such regulations will not have a material effect upon capital expenditures, earnings, or our competitive position. Our largest customer, Walmart, Inc. We believe our relationships with employees and their representative organizations are good. Research and Development We employ processes at our principal manufacturing locations that emphasize applied research and technical services directed at product improvement and quality control. In addition, we conduct research activities related to the development of new products.

Chapter 2 : - Five Thousand One and Two-Liners for Any and Every Occasion by Leopold Fechtner

5, One and Two Liners for Any and Every Occasion has 4 ratings and 0 reviews: Published January 1st by Prentice Hall, pages, Hardcover.
