*Without Hz, there would be no circles, nor the ability to measure space/time. resolves to a 6, the icon for physical manifestation. That is,  $5+2+8=15$ ; and  $1+5=6$  (using Pythagorean math).*

It connects your heart, your spiritual essence, to the spiraling reality of heaven and earth. Independently confirmed by researchers, these core creative frequencies were used by ancient priests and healers in advanced civilizations to manifest miracles and produce blessings. Math scientist Victor Showell describes as fundamental to the ancient Pi, Phi, and the Golden Mean evident throughout natural design. Vic Showell and John Stuart Reid a pioneer in acoustic research and cymatic measurements have proven that is essential to the sacred geometry of circles and spirals consistent with DNA structuring and hydrosonic restructuring. He and his research partner, Nancy Hutchinson formerly Nancy Lazaryan , used the Hz frequency and other Solfeggio tones to reduce the oil and grease in polluted waters. The polluted area was treated with the frequencies for four hours the first day, and by the next morning, the waters were cleared. They also did four more hours of RF frequency to complete the test. The frequency device was situated about 25 feet up the beach from the water. Two dolphins came into 5 feet of water to visit. Their results were certified by Dr. Naman, an analytical chemist with almost 30 years in the field, tested the samples and confirmed the complete removal of oil and grease from the after treatment sample source tested. John and Nancy can clear a radius of about a mile in one hour session. Analytical Chemical Testing Laboratory, Inc. He wrote that this 4 Hz higher pitch is more generally pleasing for musicians worldwide. Koehler reported most enthusiastically that the Hz frequency resonates most powerfully and enduringly. In , multiple Grammy Award nominee Amerie produced her new album " Cymatika, Vol 1 " in Hz frequency to broadcast genetic healing. Every day more and more people tune themselves to the harmonic vibrations of music. People were playing and chanting in Hz, praying for all polluted water to be blessed worldwide. The Concert for the Living Water was produced by Dr Leonard Horowitz and thousands of volunteers worldwide " there were no large commercial sponsors. A Recipe for the Planet Hz is the bioenergy of health and longevity. It is the harmonic vibration that lifts your heart and divine voice in harmony with heaven. Chapter 2 : Hz vs. Hz | Attuned Vibrations

*DEFINITION OF THE LOVE FREQUENCY. is known as the 'Miracle' tone which brings remarkable and extraordinary changes. Dr. Joseph Puleo analyzed the meaning of the tone using Latin dictionaries and hidden entries from Webster's Dictionary.*

The answer is simple: Both Hz and the Hz Love frequency are proven to create healing vibrations for the mind, body and spirit. That being said, we as human beings are constantly changing and our energy channels may need different ranges of notes or frequencies. There is a huge amount of people who have wonderful effects with music tuned to Hz. However, there is also a significant cross-selection of the human race who have healing experiences with both the Hz and Solfeggio harmonics. I utilize them in my healing work and am happy to see how many blessings they bring to the listeners. I encourage you to try both Hz tuning and Hz and feel the difference in your heart. Let the numbers tell the truth and are fundamental to the sacred geometry The numbers and have deep ancient cosmological meanings and connotations. They are also both vitally important in universal construction. Victor Showell, math scientist, has discovered some interesting relationships between those 2 unique numbers. The first simple association is: Simple calculations show that they both give key numbers for universal construction: The STU was the Toltec measure unit and, as is related in their myths, was passed to them by the gods from the stars. The harmony can be proven by simply subtracting from If we take and subtract , then we can also get 12 or 3. These sets of numbers: Notes of the same celestial music Hz and Hz are vitally important for healing Hz and the sacred Solfeggio including Hz are resonating together in harmony. I know that there are proponents and critics of both types of music, but they miss the fact that any of these tunings is not better or worse. It is very possible for you to be impacted by any of these notes. I know people who used Hz for many years and then tuned their bodies to the Solfeggio vibrations. Many others use both Hz tuning and the Hz music to resonate with the divine energy every day. Rather than going into critics and wars, I really encourage you to try to tune yourself to both of these types of music. They are your pathways to the same invisible and beautiful world of healing vibrations. *MIRACLE Solfeggio Hz. Can be used for relaxation and deep meditation and healing. According to Dr. Leonard Horowitz, Hertz is a frequency that is central to the "musical mathematical.*

**Chapter 4 : Books by Dr Len Horowitz**

*For example; with the number , which is the electromagnetic frequency of "Mi," it works like this:  $5 + 2 + 8 =$  Then you add the 1 plus 5 because you always reduce to the single digit.*

Most sensitive audiophiles feel a difference, and many veteran music lovers feel a BIG difference. Horowitz asked the technical developers the same question. They explained that the difference is measurable by testing the duration of the Hz frequency transpositions and comparing it with the original recordings. You will see the track is slightly shorter, meaning it is slightly virtually unnoticeably faster. So energetically, there is a bit more energy. But that is not the most important reason you FEEL a great improvement in energy. The main reason is "phase locking" of resonance energy with the heart of the universe. A small increase in energy tuning puts you directly in sync with the heart of universal creation--selected by the botanical world to vibrate optimally with health and sustainability: Horowitz says that Hz transpositions provide a "subtle," albeit "significant" benefit, as he personally experiences regularly with "relaxation responses" and more frequent "breath releases" when listening to Hz music. He gains more relaxation and positive physiological responses when listening to Hz recorded music. Read "The Book of It goes into the electrogenetics of the musical mathematics upon which this theory of DNA repair is based. Theoretically, damaged DNA has no other choice but to follow the path of least resistance and vibrate back into its most natural normal state," Dr. To answer this important question more completely, Dr. Specifically, regarding DNA repair, everyone awaits more research in this field. Lee Lorenzen who simply, matter-of-factly, provided Dr. Horowitz with the statement that DNA repair was facilitated by Hz. Lorenzen is a reputable scientist, and Dr. Following years of accumulating information about , and understanding more about electrogenetics, it made sense to Dr. Horowitz that Hz frequency would create a natural resonance by which DNA, spinning in its water matrix, would be cymatically affected and potentially even restructured, back to its original, natural, form. Horowitz showed in his books, "Walk on Water" and "The Book of Based on the math, and knowledge of cymatic and acoustic science, many of Dr. Now that we know resonates at the center, or heart, of the universe and universal construction, what resonant vibration do you believe lies at the center of your DNA--the "blueprint" of your physical construction? It makes common sense that Hz would be supportive and even reparative to DNA. Probably it would cure world aggression if given a chance and widespread playtime. In this way, public broadcasting could really make a difference! We know that Hz sound and nm of light vibrates at the center of the universe, at the heart of rainbows, from the heart of the sun, and at the center of your heart as well. And what emotions vibrate at the center of your heart? Most people would say, "LOVE," among heart-felt emotions impacting happiness vs. Other heart-felt emotions are also stimulated by Hz. This is why the Awareness component of the Revolution is as important as the Prospering component for diagnosing problems and advancing remedies stopping needless suffering and sadness felt in our hearts. The word "depression" tells this bigger story. Depressed means lacking energy or vitality, that is, the opposite of excitation and exhilaration. It turns out that all energy, including the normal energy required for health, happiness, and metabolic sustenance, sources from electrons. These vibrating sub-atomic particles certainly impact your mood through body chemistry, endocrinology, and psycho-pharmacology, the same way green plants impact the air you breathe by the greenish-yellow nm color pigment of chlorophyll generating "prana," atmospheric "chi," and the Holy-spirited aloha breathe of life. That cures everything needlessly distressed, depressed, and diseased. Rarely do Old and New Testament prophecies coincide precisely as in this case. A "key" is a musical note, as well as an unlocking instrument. Doors that open and close beyond human reach infers metaphysical energy vortices, including the "heart chakra" honored in Oriental medicine and acupuncture as the greenish-yellow energy field infusing and radiating from your heart. This is the heart of the rainbow said to be spinning like a vortex of energy in the middle of your chest, where your heart is surrounded by your lungs. This is the main function of the botanical world, delivering the life-giving oxygen through your heart to your bloodstream, and every cell in your body. The Revolution is advancing the best opportunity for this common understanding, including understanding why civilization seems bent on, even destined to, being destroyed by greed, arrogance, and ignorance. Most people agree, there

are givers vs. Each person, like every frequency, is unique. People dance to their own drum, with different heart-beats and blood pressures. It generates distress, much like the tone used for the National Emergency Alert System. So this evidence suggests the world is full of ers in virtual competition with ers, just like the spiritual or religious war ongoing between good vs. Horowitz believes that some people are genetically predisposed to resonate most harmoniously with Hz, whereas others receive and transmit Hz more consistently. Meaning a faster acquisition of "critical mass," or the "th monkey" effect, is promised, most "miraculously," by your support for the Revolution. Horowitz about Hz in contrast to Hz used in contemporary music that is "out of tune," modified intentionally, similar to the falsification in the Gregorian calendar. Tones are really the most fundamental things, and I think it is really a problem for the whole of humanity if they are intentionally modified. So, I always recommend it to people when I lead water ceremonies worldwide. They are extraordinary vehicles of healing and transformation. Tesla was quoted saying "If You only knew the magnificence of the 3s, 6s and 9s, then you would have a key to the Universe. I am totally committed to I love what you and Sherri both do. Thank you both so much. Mary Henderson Hi, Sherri, I just was able to read the latest email regarding the lawsuits and all the challenges you and Dr. Horowitz have been put through. Just when I was thinking how few heros we have these days, I am reminded of you both. Len, Just writing this to tell you how much my heart overflows with love and gratitude for your awesome contributions to humanity. I thank God with tears for a soul as sweet as yours. Yet with shame they will see your zeal for your people. Yes, fire will destroy your enemies. The energy, conviction, revelation, intelligence and courage you bring to this is invaluable. I now understand why I have been unfulfilled, heartbroken, and insane; never understood, or knew of the Codes, Keys and Structures that declare the Father. Your logical brilliant conclusions have removed the scales from my eyes, and the hardness from my heart. Warm Regards, Graham in the UK. We are so grateful for your work. You amongst many others have definitely been seeding the light for the good that is to come.

*Hz vs. Hz on Attuned Vibrations | Hz vs. Hz These two frequencies resonate in cosmic harmony Some people ask me which frequency is the best choice for healing purposes. The answer is simple: use the one that works best for you.*

Feedback Info on Hz Music Modern science has begun to recognize what the ancient mystics and wise men have told us for centuries; that everything is in a constant state of vibration. Everything down to the smallest physical particle to the things we cannot perceive with our yet limited senses. The most elemental state of vibration is that of sound. Everything has an optimum range of vibration frequency, and that rate is called resonance. When we are in resonance, we are in balanced. Every organ and every cell in our precious body absorbs and emits sound with particular optimum resonate frequency. Independently confirmed by researchers this was used by ancient priests and healers in advanced civilizations to create miraculous manifestations of what is faithfully imagined, envisioned, and intended. The Hz is still being used in this manner by those who have not forgotten its power. It is the harmonic vibration that lifts your heart. It is the frequency of Love. More and more people are awakening spiritually, mentally and emotionally and choose to be in tune with Hz. This healing frequency helps us flow in perfect rhythm and harmony. Horowitz the worlds leading expert in the effects of the Hz frequency “ encourages us to use Hz to restore human consciousness to its full power and potential. Sunbeams, the rainbow, flowers, grass and even the buzzing of bees vibrates at Hz. Nature in balance vibrates at Hz. It is the frequency of life itself. The frequency of Hz appears to influence the water molecules that surround the DNA helix, thereby bringing about healing effects on DNA. Horowitz, all healing occurs from sonic waves or vibrations resonating throughout the Universe. This is echoed by Dr. Candice Pert who states that energy and vibration go all the way to the cellular level, opens the chromosomes and exposes the DNA to the frequencies. Four styles of music for health, including Gregorian chants that use the Solfeggio scale, were converted to scalar audio waves and played via a CD player to test tubes containing in vitro DNA. Here is the difference: The Hz Solfeggio frequency is a pure singular tone. Not pulsating as the binaural beats two different frequencies together or isochronic pulsating single tone. It has nothing to do with the sound of the solfeggio tone itself though they vibrate on the same wavelength Other Fascinating Hz Facts According to Dr. Math scientist Victor Showell describes that the Hz vibration is fundamental to the ancient Pi, Phi, and the Golden Mean evident throughout natural design. Vic Showell and John Stuart Reid a pioneer in acoustic research and cymatic measurements have proven that is essential to the sacred geometry of circles and spirals consistent with DNA structuring and hydrosonic restructuring. Listening to Hz music resonates inside our body, releases emotional blockages and expands our consciousness. It creates Unity instead of separation. It expands our hearts and makes us more compassionate and loving. One thing is for sure. A person who resonates with love have inner peace “ and this is the starting point for a world where we live in Unity, Peace and Harmony with each other and Mother Earth.
