With more than a dozen of them in publication, the novels are rather unique, proving entertaining without exciting or engaging readers. The novels, written by Lydia Adamson, chronicle the life of Alice Nestleton. An actress turned sleuth, Alice is as unique an individual as they get, very whimsical and fantastical, melodramatic in everything she does and heavily engaged with those hobbies she chooses to pursue. Cats play a central role in the story. While wholly in love with the stage, Alice finds herself in a situation where she cannot support herself with her acting. This forces her to further engross herself into her adoration for the feline folk by cat sitting for other cat lovers. And it is in the process of caring for her furry charges that Alice stumbles upon the various mysteries that litter the lives of those around her, many of them unexpected. The Alice Nestleton series of novels play with mature elements such as sex, even delving somewhat into the seedy minutiae of murder but rarely exploring the sort of material that would make the stories explicit in anyway. Lydia Adamson writes the sorts of novels you will enjoy curling up with, but which are unlikely to leave you at the edge of your seat, positively curious about the happenings of the story. You will understand and possibly even like the characters, the stories planted primarily within the field of mystery. Each novel makes a concerted effort to further develop the characters introduced in previous books. Frank is also a freelance writer as well as a copywriter. The experience thrusts her headlong into a dangerous conspiracy revolving around high stakes horse racing, her curiosity driving her towards danger she might find herself incapable of escaping. And the protagonist is hardly your typical heroine. As a part time cat sitter, Alice Nestleton is an eccentric and quirky actress; enjoying the life only she can pursue and seeking out those most odd elements of living, the fact that Alice is such an out-of-the-box character plays a role in the delivery of such a unique story. This is because the story is told primarily through her eyes; as such those elements of the plot that remain largely underdeveloped throughout the novel do little to hurt a narrative primarily focused upon only revealing to its audience what Alice sees, hears and knows. The novel, on a whole, is a very short and simple read, a number of readers attesting to its entertainment value. Admittedly, the mystery is quite lacking and does little to engross readers. And for all the positive elements that Alice brings to the table, the plot has a tendency to generally wander off, this going to back to the rather weak mystery. Largely well written, *A Cat in the Manger* is the sort of story an animal lover might enjoy on a lazy weekend afternoon. The beautiful Off-Off Broadway actress is gifted with a beautiful Abyssinian cat from a student in her acting class. When the young student, Lothario, is killed in a Manhattan bar, his exotic gift is stolen soon after. With her two cats, a regal bushy and harum-scarum Poncho, by her side, Alice delves into the world of love, revenge and murder, devising a trap that she hopes will corner the cat-napper. Most agree that the writing is hardly stellar, though it is passable. That being said, *A Cat of Different Color*, like its predecessor, manages to entertain immensely despite its shortcomings. This is primarily due to Alice Nestleton, whose characterization is wonderful and charming. While it might not measure up when compared to its considerably more complex rivals, *A Cat of a Different color* rarely fails to entertain. The book is bound to amuse a few people, especially with its fun change of pacing. *A cat of Different Color* is as good a book as any to learn about and gain an interest in the rest of the novels within the Alice Nestleton series. Lydia Adamson, aka Frankin B. Other series which Frank King wrote were under the genre of thriller, mystery and suspense also. Early on in the series for the Dr. First published in February , by Signet, the novel centers around Dr. Nightingale, a veterinarian by profession. The brave and fearless veterinarian, comes across a strange illness afflicting French Alpine goats, in New York State, but soon finds out that her dear friend Dick Obey, a dairy farmer, has indeed been found dead. Lucy, an avid birdwatcher has a knack for solving crimes, the series follows her adventures into the unknown to solve, deep and dark mysteries, some plots taking a turn for the worst before emerging on a high note by the end of the books. Unfortunately, this incident is followed by her arrest for blocking traffic. She in turn is ostracized from the Central Park bird watchers club, and relinquishes her title as the club president. The plot thickens when one of the club members, Abraham Lescalles meet with an predetermined death. When the local police cannot find any further clues, Lucy at this point, steps in to investigate. The mystery continues as she purges clues and dodges the dark intentions of the killer at large. Lydia, aka Frank King, always seemed to have featured a central female character within his Mystery series and maybe that is why he wrote under a female pseudonym, though there might be other theories to explain this behaviour. Maybe secretly the author desired to see a female in a poignant role within his books and for her not to be overshadowed by the plot but for her to emerge as the heroine. The iconic mystery novels of the early 90s and s, written by Lydia Adamson, have cemented a great deal of admiration for the author by readers and critics alike. The little that is know of Frank King he was a well to do freelance copywriter, who had been noted as a mystery author himself. Born and raised in the concrete jungle that is New York City, he was known by his loved ones to be generous, loyal, unpretentious and of course brilliant. Frank, loved the city and was a keen scholar and writer, a fete that was not to be scoffed at during those days. Frank King, died in May , and was survived by his loving wife, Charlotte Carter, and the King family: He will forever be remembered as a great story teller and writer and his legacy will forever be ingrained in the pages of his gripping suspense, murder mystery thrillers. Signet, paperback original, This is a fanciful tale requiring hyperextension of disbelief, with a heroine of little appeal and an ending without the impact it could have had. This time, however, someone has hung Harry on the back of a door. Another corpse quickly turns up, just as motiveless a killing as the first. And where has Ginger Mauch, who worked for the Starobins, gone off to, and why?
