Chapter 1 : "24 Legacy" Recap: Episode 12, Season Finale " [Spoiler] Dies | TVLine

He who dies with the most toys is, nonetheless, still dead. If all else fails, Read all that is PRINTED.

Kennedy, surrounded by an enthusiastic crowd, campaigned in Philadelphia in April. And then, for 50 years—a half-century of memories and myths—men and women of a certain age, and millions of Americans uncertain of what might have been, have disagreed about the meaning of Robert F. Kennedy. Many he touched, and even some who were not moved by his insurgency against a sitting president of his own party, cursed his death at the time—and today almost inevitably employ a four-letter word to describe the meaning of his final years: *Get Ground Game* in your inbox: Daily updates and analysis on national politics from James Pindell. Sign Up Thank you for signing up! He was an aide to the red-baiting Senator Joseph McCarthy of Wisconsin, who lent his name to perhaps the worst ism native to American soil. And he was seen as a serial opportunist: A carpetbagger senator in New York. A skimmer—in the argot of old Irish South Boston, where the species is especially reviled—who jumped into a presidential race only after President Lyndon B. Johnson had been softened up by another McCarthy, Gene, of Minnesota. But by 1960, Kennedy—drowning in despair and inflamed with anger—felt free to speak and act for himself. He had been, for so long, a serial sufferer, paralyzed by grief beginning with that phone call from Dallas, freighted with loathing for the drawling pretender, as he saw him, who took the presidential oath on Air Force One on the Love Field tarmac, consumed with doubt over his worthiness, his values, his mission, overcome with guilt over his gilded upbringing—he had danced with Princess Elizabeth before she became queen—and the pedestal of privilege on which his career was built. Now, he was ready to set a fresh and audacious course. That was the way he learned. He did this particularly for people of color, but really for people of all backgrounds who were in poverty, or near it. He might have won the presidency, he might have brought the Vietnam War to an earlier conclusion, he might have healed a broken nation. Or he might have lost to Richard Nixon Hubert Humphrey, a more experienced and in some ways more sophisticated politician, did lose, he might have found the conflict in Southeast Asia much more difficult to wind down than he expected as Barack Obama discovered in Iraq and Afghanistan, he might have stoked resentment from his foes and produced a furious conservative backlash as Obama, as fluent a campaigner as RFK, surely did. Those might-haves taunt and haunt those he left behind. He was the last tough liberal. He was a tough son of a bitch. Or a more pastoral presence, like the early Jimmy Carter and the later Ronald Reagan; or a disrupter, like Donald Trump, who mobilized the marginalized as Kennedy sought to do with his tour of Appalachia in the month before he entered the presidential race. He indulged his taste for Tennyson and Aeschylus. It is fact, however, that as Kennedy changed, the profile of the Kennedy family in politics changed, too. His stepping out as a liberal avatar was something largely new for him and his clan, a shift that also launched his younger brother, the veteran Massachusetts lawmaker, on a leftward path. He referred to the Soviet Union as the enemy, he was an internationalist, he wanted lower taxes. By the end of his life, Teddy was the total liberal. Bobby is the turning point—Irish, both feet on the ground, cool—and then with those beautiful, aspirational speeches he set the Democratic Party on its modern path. Bobby was the only political figure who could create a different kind of coalition. That was evident in the first full paragraph of his presidential candidacy announcement, delivered in the same Senate Caucus Room that John Kennedy used for that purpose in 1960 and that Edward Kennedy would use in 1980. Now, Kennedy was taking advantage of that. Now, we thought, Lyndon Johnson had met his match. It is increasingly clear that perhaps the principal product of the liberal rebellion of the 1960s was the conservative backlash to that upheaval; it was not Robert Kennedy liberalism but Ronald Reagan conservatism—and perhaps Donald Trump rebellion—that may be the ultimate legacy of that decade of tumult. Members of his own family perhaps understand this best, and it revealed itself in conversations this past spring. The daughter Kerry Kennedy, president of an organization now called Robert F. Kennedy Center, imagine someone running for president today saying that exact thing. Today his younger brother is fading from memory; he died nine years ago and

his impulse to reach across the aisle to find Republican allies such as Senator Orrin G. Hatch of Utah seems oddly antiquarian. Indeed, when Tim Cook, the chief executive officer of Apple Inc. I feel that at any stage of my literary career it could have been said that the last book contained all the others.' Naipaul received many honors throughout his lifetime. In , he was knighted.

Aug 11, at 7: His wife, Lady Naipaul, said that her husband had died peacefully. Naipaul was born in Trinidad and was known for his complex portrayal of race and the legacy of colonialism in the Caribbean. He won the Nobel prize for his lifetime of writing about suppressed, minority voices. He was the second-generation of his family to be born in Trinidad; his grandparents, like many Indians of their generation, left their home and migrated to the Caribbean. As a student, he suffered from depression and even attempted suicide. Naipaul was married twice. His first wife, Patricia Hale, died in . He later married a Pakistani journalist, Nadira. Still, his novels were often concerned with the history of Trinidad in particular, and the West Indies in general. Naipaul came under fire several times for some of his statements about his homeland. Many people were angered and offended at this statement, which they took to mean that Naipaul was praising the British colonial government of Trinidad and putting down his fellow Trinidadians as incompetent. The novel won Naipaul the Jerusalem Prize in , and it won some praise in literary circles. But *Among the Believers* also angered many readers, especially Muslims. You can read a portion of the novel [here](#). You can read some of her defense of Naipaul [here](#). In his acceptance speech, Naipaul talked about his deep sense of loneliness and about the feeling that he could never go home again, since the Trinidad he grew up in had changed beyond recognition. Naipaul said that in order to cope with his loneliness, he had taken refuge into books; writing was his means of dealing with pain. In , he was knighted. He was 85 years old when he passed away.

"He who dies with the most toys is, nonetheless, still dead." "Live every day as if it were your last and then some day you'll be right." "Bad habits are like a comfortable bed, easy to get into, but hard to get out of."

Whenever a family member dies, there is a process that a healthy family undergoes in response to the loss of one of its own. Many times families are not even consciously aware of what they are doing, but it is a critically important process nonetheless. The family is a system in which the sum the family is more than the total of its parts the family members. This means that the family is more than merely a collection of its individual people. It is above and beyond this. The family system is something which takes on its own life and its own characteristics and does not just reflect the individuals within it. There are two important principles in family systems. The first principle is that anything that affects your family will affect its individual members, and anything that affects the individual members will affect the family. If a family is distressed because one of its members is seriously ill, this will affect all of its members. For instance, the father may be preoccupied when he tries to function normally at work. Conversely, if work problems are distressing the father, it will affect the family, because he will be acting differently due to his concerns over problems at work. The second principle concerns balance. Like any other system, your family works to maintain itself on an even keel; it struggles to maintain its equilibrium. To keep the family functioning on track, each family develops specific roles for each person and establishes rules, communication patterns, family expectations, and patterns of behavior which keep the family operating in a consistent and stable fashion. The methods of keeping a family operating as smoothly as possible differ from family to family. What might work for your family may be totally wrong for another. Each family has its own unique and characteristic style. Having set ways of doing things does not mean that the family is without problems. It merely means that the family and its problems most probably will continue to operate in the same old ways unless something forces them to change. Like systems, families require the ongoing support of each individual component family member to keep the system operating in balance. When an element is added or taken away, the system becomes unbalanced and there is a struggle to reach balance again. Therefore, whenever anything changes in the usual and customary ways in which a particular family operates, whether because of problems inside the family for example, the death of a member or outside of it for example, external stress put on the family, the family must know how to compensate for these changes. It is similar to a balance scale, where if something is added to one side it alters the other side by the same amount in the opposite direction. If the scale is ever to become balanced again, something must be added to one side or subtracted from the other. When the family experiences some type or degree of change, it, too, must adjust itself to accommodate to that change and get back into equilibrium. What does all of this information on family dynamics have to do with grief? Very simply, it helps us to understand what happens—indeed, what must happen—in families after somebody dies. When a member of your family dies and no longer can fulfill his assigned roles or obligations, there is a shift in the balance of your family. One element has been removed and the entire family system is thrown into disequilibrium; something has to change. Your family focuses on reestablishing balance in the system. This will affect not only the family as a whole and its individual members, but also the various relationships that exist within the family. Some of the reassigned roles and responsibilities are easy to see. Everyone in your family has a number of obvious roles to play to help the family run smoothly. For example, if the one who died is the one who cooked all the meals, then someone else will have to be reassigned that chore. Some roles and responsibilities are not so clearly apparent. They may or may not be explicitly assigned, but all family members know that they exist. Everyone pays attention to him instead of looking at the more upsetting problems in the family. If this child dies, someone else in the family will have to cause trouble if the family wants to keep the focus off the real issues. If this does not happen, and if the customary methods of keeping things running in the same old way do not work, the family is thrown way out of balance and suffers severe

problems. After your family member dies, the degree of role reorganization that will be necessary depends on the number and types of roles that particular family member fulfilled. For example in traditional families, if the person who dies is the father, chances are that there are a large number of roles to reassign if the family is to function. Among others, these could include the roles of provider, protector, maintenance man, and the numerous roles inherent in being a husband and a father. Additionally, each role has its own nature, meaning, and role-fulfilling aspects that will be different to individual family members. This means that what one child needs to fill in for her father will be different from what another child needs. In contrast, if an infant dies, there will be fewer roles to reassign in order for the family to function. The role of being the infant and embodying parental hopes and expectations, and of being the object of love and focus of family attention, is a critical one, and its absence can strike at the heart of a family, even though the family is more affected behaviorally by the death of the father. Yet, many times problems just continue unabated. Lastly, you should be aware of the serious consequences of roles that are not reassigned suitably to family members. New role assignments can constitute either secondary losses for example, the person is robbed of his identity or secondary gains for example, the person finally gets some recognition that formerly may have been withheld for individual family members. In role reorganization you must evaluate not only what roles need to be reassigned but also whether the reassignment is as healthy as possible for all involved. It will be important to keep in mind that each bereaved family member has to cope both with the complexities of the grief process itself and with an altered, out-of-balance system and new role responsibilities and demands. Special Family System Issues in Grief A problem that can complicate the family reorganization process stems from the volatility of the grieving family and the need for compromise among family members in their grief. Both issues arise because of the very special nature of the family system. This is when the grief of one member triggers the grief of another. Having so many acutely grieving people under one roof is such an intense situation that, at times, it is a wonder that the whole situation does not blow up with the accumulation of grief and pain. In contrast, at other times, the presence of a sense of community, shared loss, and strength in numbers is quite comforting and supportive. Family members must recognize the necessity to weigh the needs of a particular family member versus the needs of the family as a whole. A delicate balance must be struck. For instance, what should be done when one member finds it too upsetting to look at the photographs of the deceased that the rest of the family wants to hang on the wall. How should the family respond when two out of the six members find it too painful to put up the Christmas tree, but the others need to put it up. Yet it is not right for family members to hide their grief in an attempt to protect one another or promote false unity. This will only fuel the volatility, increase the chances for communication problems and unmet needs, and force the grieving underground, adding to the potential for unresolved grief. There are no right or wrong answers in these situations; families must learn to compromise. As with married couples who have lost a child, family members must not expect each other to have the same needs, to grieve in similar fashion along an identical course, or to assume that each has lost the same relationship. Lastly, family members will need to understand that while their closeness may be supportive in their grief, it also can make them likely to displace blame, anger, and other hostile feelings onto one another, to avoid communication for fear of upsetting the other, or to place irrational demands on each other. As a family, and as individuals, your family members will need to minimize this as much as possible, be gentle and patient with one another, and have the proper perspective on what grieving the death of your loved one will mean. After a family member dies, the surviving family must reorganize itself to survive and must cope with the stresses of containing different grievers, each with diverse, idiosyncratic needs. It is a mammoth task. Taken from Therese A. Bantam Books, , pp.

Africa[edit] Algeria: President of Algeria Abdelaziz Bouteflika expressed condolences to President Zuma and the South African people through a message, writing: President and dear brother Nelson Mandela merges with the history of South Africa The best tribute we can pay to Nelson Mandela is to continue the solidarity action toward the African renaissance. The interim presidency of Egypt mourned Nelson Mandela announcing three days of national mourning and made a statement saying that he "will remain in the hearts and minds of Egyptians as one of the most notable symbols of nationalist struggle in our contemporary world," saying the former South African president had "close historical connections with Egypt through his struggle for noble human values, embodied in his struggle against racial discrimination. President Ali Bongo Ondimba expressed condolences on behalf of the Gabonese people and through a statement, wrote that "it now falls to us to continue his work and celebrate his life. I therefore invite all Gabonese people to take a moment of contemplation and join hands in a show of compassion fitting of such a circumstance. And when this baobab falls, we find ourselves exposed. President Uhuru Kenyatta ordered flags to be flown at half-staff and declared three days of national mourning, saying that "as a free man, President Mandela led the fight to free Africa not only from political bondage but equally important from the scourge of disease, poverty, poor governance and illiteracy" ills of modern life. Prime Minister Navin Ramgoolam stated that Mandela was a man "whose name will remain for ever in the conscience of humanity. The icon of the anti-apartheid struggle has departed after accomplishing what he stood for. Comrade Madiba will be missed not only by those who knew him and by the people of South Africa who he loved and cared for so deeply and sacrificed for but by all those who believe in human dignity. President Goodluck Jonathan expressed condolences and noted that Mandela "will always be remembered and honoured by all mankind as one of its greatest liberators, a wise, courageous and compassionate leader, and an icon of true democracy. President Paul Kagame said that "he will continue to live in the hearts of many of us"; before starting the National Dialogue Council Umushyikirano , at Parliament a minute of silence was observed. President Macky Sall expressed sadness over the death and remarked that "we have lost a giant, one of the greatest figures in contemporary Africa. No man of our time has given so much for the cause of his people, for Africa, and for the good of mankind. Mandela taught us courage, strength, forgiveness. President Hassan Sheikh Mohamud expressed condolences and said "Nelson Mandela impacted the lives of people in every corner of the world. President Jakaya Kikwete announced three days of national mourning and expressed how "Mandela is a good example to how humankind is supposed to live. President Michael Sata expressed condolences to the Mandela family and the people of South Africa, while writing that "we also pray that the Almighty God will grant the bereaved family His abundant mercies, solace and fortitude to bear this great loss of a true son of the African soil. Not only was he a great champion of the emancipation of the oppressed, but he also was a humble and compassionate leader who showed selfless dedication to the service of his people. With regard to this grave loss on my own behalf and on behalf of the people of Azerbaijan I express my deep condolences to You, the family of the deceased and the people of RSA". The Government of Bangladesh announced a three-day state mourning for the "anti-apartheid icon and global symbol of reconciliation and peaceful co-existence, Nelson Mandela". In the message, the sultan said that "Mandela would be much missed not only by South Africans but also by a world that saw him as a beacon of hope and courage and as a moral force in international affairs". The sultan also remembered the visit of Mandela to Brunei Darussalam and stated that the people of Brunei joined His Majesty in expressing their deepest condolences to Zuma and to the government and people of South Africa, especially family members of the late Mandela. President Xi Jinping sent his condolences, describing Mandela as "a world-renowned statesman," who "led the South African people through arduous struggles to the anti-apartheid victory". Also

we send our condolences to the people of South Africa and Mr. Our thoughts and prayers are with the people of South Africa, including our South African community in Hong Kong, during this period of national mourning and reflection. His fearless pursuit of a non-racial and democratic South Africa "even when it seemed impossible" leaves our world with remarkable legacy. In East Timor, Mandela was widely admired during our struggle for the restoration of our independence". President Pranab Mukherjee said in his condolence message, that Mandela was a statesman, a world leader and an icon of inspiration for humanity. He was a true Gandhian. His life and work will remain a source of eternal inspiration for generations to come. I join all those who are praying for his soul. In his death, South Africans have lost the father of their nation and the world a statesman, whose life and message of courage and goodness would continue to inspire and guide all of us around the world in the years ahead. A decision to this effect was taken at a special meeting of the Union Cabinet, which condoled the death of the anti-apartheid icon. President Susilo Bambang Yudhoyono expressed his condolences over the death of Nelson Mandela, and praised him for opposing apartheid in his country. Prime Minister Benjamin Netanyahu referred to Mandela as "one of the most honorable figures of our time President Hassan Rouhani wrote a letter to Jacob Zuma. Mandela has passed away. He believed in human equality and freedom for people not only for African people, for all people around the world. He was jailed and banished. Doubtless he was a hero who after his success, connected his morality and his politics and he forgave those who had jailed. Today, we see people from different races trying to make South Africa. With much sadness, I give condolence to his family and his country and all who want make their world a better place to live. Mandela will be remembered as the symbol of national liberation movement and independence of the African people. President Michel Sleiman in an open letter to his South African counterpart paid tribute stating that Mandela "inspired the world with his path, fighting to eliminate racism and poverty to achieve equality and reconciliation among his people. Prime Minister Najib Razak on Twitter said that "Mandela lives on in the spirit of every human that believes in democracy and freedom. Thank you for your legacy, Madiba".

Inspirational quotes hold various bits of wisdom. Last Days of Socrates. "He who dies with the most toys is, nonetheless, still dead." -Unknown.

Charles Lazarus had gone from high school straight to the U. Army, where he served as a cryptographer during World War II, and as he cast about for a business venture upon his return, he identified a market that was largely unexploited: He opened the first big-box toy store, outside Washington, D. That was in Executives suggested it might have to get out of the toy business altogether. Kids could reasonably be counted on to badger, drag, or otherwise persuade adults to bring them to toy stores, especially if they were fun and hands-on. Those adults would more readily acquiesce if the stores were well organized and the toys competitively priced. It was living on borrowed money. In the good years, that was almost half its operating profit. It was a category killer killed by bigger and more powerful rivals, with the inevitable ending hastened by the cold logic of its private equity owners and bankers. But it goes deeper than that. But gravity always wins in the end. Under his guidance the company invested hundreds of millions of dollars to make the U. It purchased a acre corporate campus in Wayne, N. Eyler promised that 20 million people a year would visit, and maybe they did, but the store never made money. In , Eyler and the directors took drastic action. It was a good time for retail companies, with their steady cash flows, to be on the market. Capital was plentiful and private equity firms were competing for deals. It operated 1, stores globally, including in the U. He was only 58 but could afford to retire: But the company also acquired the struggling FAO Schwarz, the oldest toy store in the country, and, as the threat from Amazon grew, three rival websites, BabyUniverse. Storch remodeled stores to combine the toy and baby businesses and introduced exclusive products that could be sold at full price. Then came more trouble. There would be no stock sale. The board set a three-year deadline to improve prospects with an undetermined strategy that would be implemented by an unnamed CEO. Wall Street appreciated the honesty. The Ferris wheel was recycled, the T. He announced that his plan would involve taking some calculated risks. But what do we need to do that really breaks through? We are going to be testing a lot of stuff that has that potential. This desperate deal gave the company only a brief reprieve. The baby business was faltering. And though the company had wrested back its website, when it finally upgraded its technology to allow customers to check out in fewer than five steps, it was already a half-decade behind. By then, Best Buy Co. Wariness had finally, unavoidably, set in. The company prepared to file for Chapter 11 bankruptcy, a last-ditch attempt to get out from under its debt and rebuild on firmer ground. It was two months before the busiest season. This particular kind of loan, debtor-in-possession financing, comes with a special guarantee in case the company closes down. Brandon could only offer to close stores and shut down the troubled baby business altogether. That idea found no takers. Eight potential investors looked at the company, and several retailers considered buying it outright, but none made an offer. Sycamore Partners produced a plan that could have kept open half the U. By February some of the lenders were insisting on that approach. Five days later, Brandon gathered the administrative and executive staff at the Global Resource Center to tell them that the U.

Although she was surrounded by grinding poverty, Sassoon writes that she nonetheless resolved to make the best of her life. There, they shared a two-room tenement with his aunt and her three children. The tiny flat where the seven of them lived had no bathroom or inside toilet, forcing them to share the one outside landing toilet with three other families. He remembered often standing in line to use it in freezing weather. Their roof was also falling apart, which let rain pour through. What Will Your Verse Be? Dead Poets Society is an American film set in at a fictional elite conservative boarding school located in Vermont. The film stars Robin Williams as John Keating, an English teacher who inspires his students through his teaching of poetry. In one scene, Keating talks to his students about the meaning of life. What good amid these, O me, O life? That you are here—that life exists and identity, That the powerful play goes on, and you may contribute a verse. Keating then asks the students: See Yourself As a Relay Runner In a relay race, members of a team take turns running while they hold a baton in their fist. Each team member runs a portion of the race, and then they hand the baton over to the next runner. One way to think of your life is to see it as a relay race. I would take the baton and I would run my leg of the race. Each generation tries to make progress knowing that what we do is not going to be perfect. Are you advancing the baton? What are you doing to advance the baton? Covey indicates that you should imagine your funeral. Then, you should ask yourself questions like the following: Who would give a eulogy at your funeral? What will they miss about you? What positive attributes will they associate you with? How are they describing you? Imagining your funeral is a little macabre, so a variation of this exercise is to picture your 80th birthday party. As they get up to toast you on your birthday, what would you like them to say about you? Before his death, Thomas Jefferson—the third president of the United States—gave instructions on what he wanted on his grave site. Jefferson wanted an obelisk with the following engraved on it: Nonetheless, an ordinary life lived well and lived with grace can make an important difference in the lives of others.
