I have done many through the years, and there are so many I have yet to do. My husband is not a huge bible study fan, there are several he has done, but he would rather sit down, read the Bible, and study it on his own. Maybe it is a man thing. I on the other hand love having a bible study go through. I like a bible study that convicts me, speaks to me, and that I learned a lot from. I have created a list of 5 of my favorite Bible studies for women to grow deeper in your relationship with Christ. These bible studies have stuck with me. Some of them I did years ago, but I still remember what I learned. Some I have done on my own, and they loved it so much I taught it with a small group. Search it out and compare it to scripture. Do it at your own pace. If you need to break one day up into smaller days do so. I am always amazed when I sit down with my bible study and God knew exactly what I needed to hear that day. Without further ado, here are my 5 favorite bible studies. I have included descriptions of the bible study, what I learned when I completed it, and why I loved it so much. He digs deep in that what we believe about God has to be backed by scripture and not personal experiences. A couple of the things I learned from this study and still remember is how God speaks to us and how to join God in the work He is already doing around us. This is a very foundational bible study. This same study is written for students as well, I recommended it last week. Experiencing God would be a great study to do as a whole family. Mercy Triumphs This bible study is one I did on my own and loved it so much I did it again with a small group of high school seniors. This is a great counterpart for adult women. Beth Moore does a phenomenal job bringing the book of James to life. During the first week, she gives a history to the man writing the book of James, his relationship with Jesus, and his part in building the church.
