

Chapter 1 : Aakash Study Material – Second Hand for NEET.

Study @ home with Aakash Institute Distance Learning Program (DLP) Courses for Engineering-IIT JEE, Medical AIPMT-NEET UG-AIIMS and 8, 9 & 10 Classes.

Aakash iTutor Aakash Digital As digital learning resources are new; how can I choose from live interactive classes or recorded video lectures? Selection of live interactive classes or recorded video lectures completely depends on the learning habits of the student. If the child prefers guidance of teachers and wants immediate clearance of their doubts, live interactive classes at Aakash Live make a better choice for them. Recorded video lectures by experienced Aakash faculty help them study whenever and wherever they want. Further, they can repeat the videos as many times as they want until they master the topic. What is the difference between Aakash iTutor and Aakash Live? Students can attend the live interactive classes from the convenience of their home. All you need is just a digital learning device like desktop, laptop, tablet or mobile phone with the internet connection. During the live classes, teachers explain the topic on the board and clear all the doubts you have during the class. Aakash iTutor is basically a platform where students can learn at their own pace by watching recorded video lectures. In addition to the recorded lectures, students also get access to the tests, e-books and printed study material for regular revision. Does Aakash Digital offer any financial aid to the economically weaker students? Aakash Digital aims to provide quality education to all the deserving students. To help the students who cannot afford the fees, we offer scholarships. You can apply for the scholarship test, take the exam as per the schedule and can get financial aid based on your performance in the exam. Students without the internet connection can opt for Aakash iTutor. The course material is provided in an SD card that students can access on their desktop, laptop, tablet or mobile phone even without having the internet connection. Since there is no physical presence of a teacher, will the discipline be the same as that of an actual classroom? Experienced teachers ensure that they maintain the same discipline in virtual classes as they maintain in the physical classes. With fixed schedule of the classes, regular assessment through tests, the record of the classes attended by the student and online parent-teacher meeting, online classes have same discipline that of an actual classroom even without the physical presence of a teacher. As digital classes will be for limited hours; will these be able to cover the complete syllabus? Live interactive classes and recorded video lectures are carefully designed to cover the complete syllabus. Total hours of live classes and the number of recorded videos is planned according to the syllabus covered in the course. Further, not just the entrance exam syllabus, the course material also covers the syllabus for board exams, making it easier for the students to prepare for both the entrance as well as school exams simultaneously. How skilled are the teachers and what will be their availability for students who need extra help? Live interactive classes at Aakash Digital are taken by experienced Aakash faculty. Teachers ask questions during the class to check how well students are understanding the concepts and if they have any doubts, teachers clear them immediately. Since its purely online, will a student get the same quality of education as one gets in a classroom? Be it the quality of study material, experience of the teachers, immediate doubt resolution or two-way communication between teacher and the students, live interactive classes by Aakash Live ensure completely classroom-like environment at the convenience of your home. Parents get their own login credentials for Aakash Live, where they get all details about their child. From the number of lectures, they missed to the total hours they completed during live classes, and how they performed in tests, parents can check everything. In addition to this, parents can also interact with the teachers during online Parents-Teacher Meeting and ask as many questions as they want about the progress of their child. For the students studying through Aakash iTutor, we send weekly SMS to the registered mobile number, with a brief of total hours of video watched by the student, top count of video watched and average video watched within that week. In addition to this, the SMS also includes total test taken by the student, maximum tests attempted by the student in that course and the average count of tests attempted. Since there is no fixed schedule of classes, does it take more time to complete the syllabus in online classes than the traditional classroom? Live interactive classes have a pre-decided schedule of total hours of classes students will get in a course. Complete syllabus is covered during those hours. However, students can

repeat the recorded videos later to revise the syllabus or to understand the concepts they missed during the class. Similarly, recorded video lectures also have a fixed number of recorded video lectures that students need to complete in a limited time to cover the complete syllabus. Students also get daily tests, fortnightly tests, term tests, previous year papers and AIATS to evaluate their progress. To perform well in regular tests, students definitely need to complete their syllabus. What if a student misses an online class due to bad internet connection? Will they get a separate class for it? All live interactive classes on Aakash Live are recorded for the students to watch later. Based on their budget and availability of the resources, students can buy NEET course in any of the given forms. The SD-card The tablet The online course 2. Aakash Live â€” Students enrolling for Aakash Live get live interactive classes direct at their home. Experienced Aakash faculty take live classes that students can access from anywhere on laptop, desktop, mobile phone or tablet.
