This thought has reared its head again and spurred me to come up with the following list of 60 books that I absolutely do not want to miss sharing with my children. These 60 books are books that I hope my children will read repeatedly and remember fondly as part of their childhood. I was aiming for my top 50 picture books, but 50 felt a little too restrictive and is not divisible by 12? While I could simply share my Top 60 list with you today, I thought it would be more helpful and exciting to reveal five not-to-be-missed picture books on the first of each of the 12 months of the year. Without further ado—

1. *The Snowy Day* features lovely illustrations, with lots of texture. She named the boa constrictor Crictor, and it became her pet. So begins *Crictor*, a delightfully absurd exposition about what it might be like to have a boa constrictor as a pet. All three are super innovative, artistic masterpieces. *The Daddy Book*, intentionally or not, also offers encouragement for parents. Leo Lionni is one of my favorite authors. His stories are always carefully crafted and give you something to think about. In lesser hands, this wisp of a storyline would fall flat. She is an amazing artist. A rabbit checks out a book at the library about wolves, begins reading, and the book comes to life. *Spring is Here* by Taro Gomi. In addition, the evocative text describing the change of seasons is a joy to read aloud. His illustrations—a mixture of black and white photographs and colorful cartoon drawings—are fresh and fun. *A Birthday for Frances* by Russell Hoban. This is a perfect story for toddlers, without a word out of place. My kids love guessing which animal they will see next. These remarkably pithy stories make my kids and I laugh out loud and contain wonderfully accurate descriptions of imperfect interactions between two true friends. *Can you whistle, Johanna?* Leedy has written a handful of nonfiction picture books that are true gems. *Do You Want to be My Friend?* I like the rhythm of the book and enjoy reading it aloud. Most of all, I love the message about being true to yourself and about the value of moving slowly. The illustrations are remarkably varied and incorporate graphic patterns that give readers a sense of jazz music playing behind the text. My children cannot get enough of her offbeat stories about brother and sister team, Charlie and Lola. My kids and I both enjoy reading this humorous tale with instructions for turning a best enemy into a best friend. *Gumpy* who agrees to take two children and a slew of animals on a boat ride. While the outcome of the boat trip is predictable, my 2-year-old son is superbly entertained each time we read about Mr. A lovely story about music found and made everywhere. *Max Found Two Sticks* is well paced and fun to read aloud. This is a very fun book to read aloud to a group of 7 to 9-year-old kids. When the boy cares for the wildflowers, they begin to thrive and transform the city. Peter Brown has imagined and created an extraordinary green city that my children are delighted to visit. One day, with a great whack of his tail, the fish leaps out of the water only to find himself laying on the grass gasping for air. *Star of the Sea*, Sam is full of questions about the sea, and *Stella* is full of delightfully absurd answers. From the slough of concept books and predictable storybooks written for children, this suspenseful and unique story sticks out. Shirin Yim Bridges teamed up with one of my favorite illustrators, Sophie Blackall, and Blackall created beautiful illustrations for this book. In a world of muted greens and yellows, young Ruby, always dressed in red, stands out. When Amos gets sick, his friends elephant, tortoise, penguin, rhinoceros and owl come to his house to comfort and care for him. *The Steads* have only begun, but thus far they seem to be at their best when they team up, as they did to create this gem of a book. The surprise ending will leave readers feeling warm and fuzzy inside. Oft repeated line from this book: With industriousness and creativity, the young boy creates an impressive toy. Sasek that introduces readers to famous cities around the world. Sasek is a witty tourguide. Uri Shulevitz does a wonderful job of capturing the magic of the first snowfall when you are a child. In all *Toot and Puddle* books, the two friends are affectionate, picking out thoughtful gifts, writing postcards to each other, and looking out for each other. *You are my Sunshine*, Puddle goes to great lengths to try to cheer up his friend Toot. Kevin Henkes is great at telling stories that are at once humorous and capture childhood emotions. Are

We There Yet? The animals enjoy tea, popcorn, honey nuts and a warm fire, while the bear sleeps through the party. Few stories are more fun to read aloud. When Max is ready to return home, he is welcomed back to the comfort of his bedroom where a warm supper is waiting for him. While the incredible book eating boy loves the knowledge he acquires by eating books, he knows that he must find a better way. Thank you to all of you who participated in our year-end poll. I see a green frog looking at me. Little Owl has fallen from his nest and landed with a whump on the ground. Now he is lost, and his mommy is nowhere to be seen! Together they go on an amazing journey, past icebergs and volcanoes, sharks and penguins, and the little snail feels so small in the vastness of the world.
