Chapter 1 : Virginia Gastroenterological Society | Enhancing Awareness of Gastrointestinal Disorders

Annual meeting of the American Gastro-enterological Association held at.. Item Preview.

At that time, there were four national groups devoted to gastroenterology: Section in Gastroenterology and Proctology. Since these organizations often held their annual meetings in an Eastern or Midwestern city, it was often difficult for physicians from California to attend these meetings regularly. The founding physicians also hoped that a locally organized gastroenterological society would be able to induce the foremost investigators in this field, from all over the nation, to meet in Southern California and enable the western gastroenterologists to keep abreast of current discoveries and developments in their chosen field. The founding physicians of the SCSG also hoped that the establishment of a local gastroenterological society would establish a means of communication between the various institutions and investigators located in Southern California. Finally, the establishment of the SCSG would create an opportunity for younger physicians interested in the field of gastroenterology to participate in programs and activities sponsored by the society. On January 25, , William C. Boeck, MD; Grant H. Lanphere, MD; Max P. Thompson, MD met at the home of Dr. Boeck to discuss the organization of such a society. Boeck was chosen as temporary Chairman, and Dr. Lanphere as Secretary Pro-Tem. Subsequent meetings throughout resulted in the formation of the Southern California Society of Gastroenterology. Since that time, the membership has steadily grown and now numbers almost members. One of the traditional strengths of the SCSG has been the active participation of a number of disciplines with special interest in gastrointestinal diseases, including surgeons, pathologists, radiologists, basic scientists as well as gastroenterologists. Another tradition of the SCSG has been the strong representation from the faculties of the medical schools and institutions of Southern California. The SCSG has also been enhanced by the regular participation of fellows and residents from the various training programs in the area. These men and women have created one of the finest training centers in gastroenterology located in Southern California. Physicians and healthcare professionals now come from all over the country and abroad to be trained in Southern California. The SCSG has indirectly helped with this outstanding progress. The changing approach to medicine and education over the years has been reflected in the changing format of the SCSG. The success of the SCSG lies in its willingness to change and the active participation of its membership. Further innovations will doubtless occur as the SCSG approaches its fourth decade.

This stream mainly focuses on the abdominal organs, their functioning and related abnormalities which hinder the normal functioning of the vertebrates. Gastroenterology is the study of gastrointestinal tract, which include various organs from mouth to anus, along the alimentary canal. Experts working and practicing in the particular field are recognized as gastroenterologists. These eminent members complete their degrees focusing on digestive metabolism, intestinal functioning, enzyme secretion, transplant technology, advanced endoscopy, inflammatory bowel disease IBD , motility and other popular subjects. Gastroenterology stream confronts the normal function and diseases of the esophagus, pancreas, gallbladder, bile ducts, liver stomach, small intestine, colon and rectum. Gastroenterology conferences provide an international platform for young researchers, students and practitioners to meet the eminent presenters and delegates including clinicians, researchers, surgeons, gastroenterologist, hepatologists, endoscopy experts, health care practitioners, treatment providers as well as industrial leaders from all across the globe. Gastroenterology conferences are being organized in USA, Europe, Middle East, Asia-Pacific and Australian countries, to share the recent advancements of the related stream. Testimonials I was very impressed by the international scope of participants at the Chicago meeting and the quality of work presented. It speaks very highly of the organizers of this meeting as it is no small task to get medical researchers from around the world to gather at a single site for an exchange of ideas. The accommodations were wonderful and the noontime luncheons delicious. Congratulations on an exceptional conference. The attendance exceeded the expectation. Session went on time permitting ample time for questions and answers. Doctors from all across the World attending Endocrinology has made this conference a successful event. Everything was very well organized, and very important, members of the Conference Series were always present for support and help. I greatly appreciated this. Thank you very much again. It was my great pleasure to attend Endocrinology My husband and I really enjoyed the scientific programme, the positive international atmosphere and the welcoming spirit. We will recommend your coming conferences to our colleagues. Best wishes and good luck with future work. Ylva Vladic Stjernholm Karolinska University Hospital, Sweden The Conference Series llc LTD meeting "Translational Medicine " has been a very great meeting providing a comprehensive view on ongoing international clinical developments and gave me the option to make a lot of novel contacts to start collaborative research with people from all over the world. Discussion directly with almost all peoples in a familial atmosphere is very fruitful as well as the venue, time frame and organization has been very convenient Andreas Weinhaeusel AIT Austrian Institute of Technology, Austria This Conference was one of the best and even brilliant I have ever attended. There was very nice to have a mix between theory, basic science, sharing best practices and practical recommendations. The quality of the panels was outstanding, and I think you arranged a great cross-section of topics! I will help recruit speakers to the next meeting as an organizer member of the conference committee Shabaan Abdallah University of Cincinnati, USA It was a great pleasure for me to attend the conference. It was perfectly organized, I met many nice people and listen to many valuable talks. Elzbieta Jarzebowska Warsaw University of Technology, Poland Thanks for your kindly help and service during the conference. The conference was very interesting and also very useful for my academic research. So I will attend the Biostatistics next year if I have time. It was just excellent in all aspects. Annette Bentley President, American Celiac Society, USA Thank you for your email and for your well done job in organizing the Food Technology , All subjects in this conference was in depth knowledge from your good selections of international speakers and I expect conference will be in the same level of performers. I had a great time and thought the program was really nicely put together Trine N Jorgensen Cleveland Clinic Foundation, USA The recent Stem Cell Congress in Chicago, from the scientific standpoint, the highest quality and most useful of the three

Chapter 3 : ACG | The premiere GI clinical meeting and postgraduate course

Excerpt from Twenty-Third Annual Meeting of the American Gastro-Enterological Association: Held at Hotel Traymore, Atlantic City, N. J., May 3 and 4, Clinical Notes on an Intestinal Infection with Giardia Duodenalis (Iambliia Duodenalis).

Phil Brown, Rochester, Minn. Strauss by invitation , Boston, Mass. Leon Bloch, Chicago, Ill. Ralph Pemberton by invitation , Philadelphia, Pa. Adjournment for Luncheon, 1: Clasen, Kansas City, Mo. Boldyreff, Battle Creek, Mich. Aaron Chairman , Buffalo, N. Executive Session at 5: Madge Thurlow Macklin by invitation , London, Canada. Frank Smithies, Chicago, Ill. Adjournment for Luncheon, Jacob Buckstein by invitation , New York, N. Hinton, New York, N. The following Papers will be read by title: Asher Winkelstein, New York, N. Levin, New Orleans, La. A scientific exhibit cover- hag all phases of the subject will occupy a large space on the main floor of the Public Hall which will house all sessions of the meeting. As the list below indicates, some of the best known authorities in this field will be in attendance. The microscopic diagnosis by special staining methods on stool smears will be demonstrated by Dr. James of Panama, who has been a student of amebiasis ever since the building of the Canal. Sixty microscopes will be set up aside from the general exhibit so that those interested can take time to study good specimens. Microscopic and gross pathology will also be demonstrated. The epidemiological and public health aspects of the disease, especially the data obtained from the Chicago epidemic will be presented by the Chicago Health Department. The therapeutic aspects of the disease will also be presented by charts and by actual samples of the various drugs used. In connection with the scientific exhibit there will also be an entire afternoon--Tuesday, June 12th--devoted to the subject of amebiasis in the Clinical Lectures in the Section "on General Medicine. The presentation of the subject is so comprehensive as to merit the attention of all students of gastro-enterology. The approved list of exhibitors is as follows: Johnstone, Hooper Foundation, San Francisco. Bates and Lawrence Getz, Panama. Diagnosis and Pathology of Amebiasis. Gross and microscopic pathology. About 60 microscopes showing stool and culture preparations of amebae. Procto-Sigmoidoscopic Method for the Diagnosis of Amebiasis. Living Cultures of Amebae. Bawlings, Chicago, Health Department, Chicago. The Chicago Outbreak together with pathologic specimens and cultures of amebae. Army Medical Museum, Washington, D. Enlarged photomicrographs showing entameba histolitica compared with other amebae and various pathologic and histologic sections of lesions. Rowland, Cleveland, Chairman Scientific Exhibit.

Chapter 4 : American Gastroenterological Association | Open Library

Excerpt from Twenty-Second Annual Meeting of the American Gastro-Enterological Association: Held at the Hotel Traymore, Atlantic City, N. J., June 9 and 10, Pepsin preparations regularly have a milk - coagulating power.

Chapter 5 : Gastroenterology Conferences /

The Annual Meeting of the American Gastro-Enterological Association was held May 30 to June 1,, in San Francisco, California.

Chapter 6 : socalgastro | ABOUT US

In this volume are gathered 27 scientific papers from the thirty-third annual meeting of the American Gastro-Enterological Association held at Atlantic City, New Jersey, May 5 and 6, Review of each of these is impossible.
