Chapter 1 : Download â€" Manual of the American Psychological Association, Sixth Edition â€" Normas AF

Publication Manual of the American Psychological Association, Sixth Edition The Publication Manual of the American Psychological Association is the style manual of choice for writers, editors, students, and educators in the social and behavioral sciences.

When printing this page, you must include the entire legal notice. This material may not be published, reproduced, broadcast, rewritten, or redistributed without permission. Use of this site constitutes acceptance of our terms and conditions of fair use. APA American Psychological Association style is most commonly used to cite sources within the social sciences. For more information, please consult the Publication Manual of the American Psychological Association, 6th ed. To see a side-by-side comparison of the three most widely used citation styles, including a chart of all APA citation guidelines, see the Citation Style Chart. You should use a clear font that is highly readable. APA recommends using 12 pt. Times New Roman font. Include a page header also known as the "running head" at the top of every page. Major Paper Sections Your essay should include four major sections: Include the page header described above flush left with the page number flush right at the top of the page. Type your title in upper and lowercase letters centered in the upper half of the page. APA recommends that your title be no more than 12 words in length and that it should not contain abbreviations or words that serve no purpose. Your title may take up one or two lines. All text on the title page, and throughout your paper, should be double-spaced. Do not use titles Dr. Your abstract page should already include the page header described above. Beginning with the next line, write a concise summary of the key points of your research. Your abstract should contain at least your research topic, research questions, participants, methods, results, data analysis, and conclusions. You may also include possible implications of your research and future work you see connected with your findings. Your abstract should be a single paragraph, double-spaced. Your abstract should be between and words. You may also want to list keywords from your paper in your abstract. To do this, indent as you would if you were starting a new paragraph, type Keywords: Listing your keywords will help researchers find your work in databases. However, select pages, like the Citation Style Chart , still include this information. Purdue Online Writing Lab.
