I Found it in the Bathroom: A Tragedy in One Act, published in The best appraisers know this from years of visiting homes and making the most unexpected discoveries. This is the stuff that antiques lore is made of: Attics, basements, hallway closets, guest bedrooms, garages and even bathrooms often house overlooked and long forgotten objects—objects that because they were assumed to be of little importance, have been tucked away, protected from light, handled little, and rarely fussed with, so their integrity and original condition is often intact. One of my favorite discoveries happened on a routine house call in the Boston area. I happened to pass by the bathroom and notice an interesting black and white art nouveau print hanging on the wall. As an art nouveau devotee and an appraiser of rare books and manuscripts, it caught my eye instantly. It was an iconic image by an iconic artist of the art nouveau period. Always an admirer of the image, I stopped and looked closer, then removed the picture from its hook on the wall, looking closer still. It was an incredibly rare thing: Looking around for better light, I spotted another one on the opposite wall! Aubrey Beardsley was perhaps the most influential and controversial artist of the Art Nouveau era, known for his dark, perverse images and grotesque erotica. His works are the Holy Grail for Art Nouveau enthusiasts and book collectors alike. Intensely eccentric, in both his public and private life, Beardsley aligned himself with other English aesthetes including Oscar Wilde. How on earth did these famous drawings end up in a Boston area bathroom? After being exhibited in Europe, the drawings were held in private collection for many years and were sold at auction in 1913. Nine of the thirteen rare illustrations were eventually donated to the Fogg Art Museum at Harvard University, but four went missing. Until the day I found one of them in that bathroom, the whereabouts of the Aubrey Beardsley drawings had remained a mystery for more than eighty years. They both sold to the same collector, who was absolutely thrilled. Extraordinary items can be found in the most ordinary of places. Yes, even the bathroom.

Beardsley was a phenomenon. Beardsley was born into a lower-middle-class family in Brighton on August 21st, His father was a spendthrift who squandered money on drink and pleasure. His mother had pretensions towards a more genteel existence and did her best to encourage her children into the cerebral pleasures of art and culture. As his father was unable or more likely unwilling to hold down a regular job, his mother frequently sought funds from her own father—a former military officer—to pay the bills. From an early age, Beardsley showed a talent for art and music. He gave piano recitals with his older sister Mabel and the pair devised their own theatrical productions which they performed for the amusement of their mother and her friends. He was a frail child and became severely ill with tuberculosis, which plagued him throughout his life and was eventually the cause of his death at a mere twenty-five years of age. He claimed he had seven styles of drawing and was determined to develop more. Two important influences on Beardsley came during a trip to Paris when he saw work by Toulouse-Lautrec and an exhibition of Japanese prints. His work was considered too weird and too dangerous for the suburban readers of popular magazines. However, some work he had sent on spec to the publisher J. Dent, which brought Beardsley his first commission. The work was long and hard and demanded considerable concentration, determined willpower, and strong, confident execution. Beardsley alternated between using pen and brush to create his pictures. Over the course of producing this monumental work, Beardsley changed and developed his style of drawing from the overly elaborate to a clean and austere simplicity. According to his friend, the writer Max Beerbohm, no one ever saw Beardsley work at his pictures which he claimed he produced by candlelight in a darkened room. He became friends with Wilde and drew the illustrations for his play *Salome*. Beardsley was then hired as art director for the legendary and controversial *Yellow Book* which provided a home to many great writers and artists and was, unfortunately, to be the unlikely cause of his undoing. Thereafter, he eked out a small living by drawing erotica for privately published books and magazines. He was considered effete and a homosexual, but was more likely asexual. He was rumored to have been involved in an incestuous relationship with his sister, which supposedly led to either a miscarriage or a stillborn child. He once wrote to his publisher Dent that he planned to dress up as a woman and have tea in drag at the Savoy. These are all most likely nothing more than rumors and schoolboy pranks. Beardsley relished notoriety and never evolved from a juvenile sense of fun. His drawings were filled with breasts and phallic symbols. He became a Catholic at the encouragement of his sister and denounced his most scurrilous and offensive work. Sadly, Beardsley succumbed to tuberculosis and died in France on March 16th,
