Chapter 1 : List of locations of the DC Universe - Wikipedia

CRISIS AFTERMATH: THE BATTLE FOR BLUDHAVEN is yet another addition to the number of confusing trade paperbacks that support DC's Infinite Crisis. If, like me, you are attempting to follow IC via trades, you are in for a headache.

Editorial planning[edit] DC Comics executive editor Dan DiDio stated that Infinite Crisis was being hinted at in various stories for two years prior to its launch, starting with the "death" of Donna Troy. Geoff Johns and Grant Morrison moved into editorial positions in addition to their writing duties, respectively to coordinate coherence of the DC Universe and to handle reimaginings of several characters. The Return of Donna Troy. Aside from marking a major editorial shift within DC Comics, Infinite Crisis was a return to large company-wide crossovers of a sort that had been uncommon since the downturn of the comic industry in the s. Plot[edit] The story begins in the wake of the four lead-in limited series , with Superman , Wonder Woman , and Batman feuding, the JLA Watchtower destroyed, and the heroes of the world all facing a variety of menaces. Superboy-Prime accidentally kills several heroes before the Flashes and Kid Flash force him into the Speed Force , assisted by the speedsters already within it. Jay Garrick , the only speedster left behind, says the Speed Force is now gone. Alexander selects and merges alternate Earths, trying to create a "perfect" world, until Firestorm blocks his efforts. Power Girl soon arrives and asks Kal-El what happened to Lois. The answer causes her to break down prompting her to ask Kal-L why. He answers her simply, telling her it was because he chose the wrong Superboy to condemn and the wrong Superboy to condone. When a horde of supervillains attack Metropolis, [15] heroes, current and retired, fly off to the rescue. They are joined by the National Guard. The battle results in multiple deaths on both sides, including many by Superboy-Prime himself, who kills villains and heroes alike. During the battle, Superboy-Prime takes off to destroy Oa , planning to collapse the Universe, and recreate it with himself as the only superhero. Superboy-Prime breaks through a mile thick wall of willpower created by the Green Lantern Corps and then kills thirty-two Green Lanterns before Kal-L and Kal-El carry him toward what is left of Krypton. It is essentially a huge cloud of kryptonite. Falling to the sentient planet and Green Lantern Corps member Mogo , they fight. Batman is discouraged by Wonder Woman. Alex manages to escape. Wonder Woman plans to find out who she is. Batman plans a similar journey of self-discovery, revisiting the training of his youth, this time with Dick Grayson , now healthier, and with Tim Drake joining him. Superman retires from super heroics until his powers return. The Joker deforms him by spraying acid onto his face, then electrifies it, and finally, kills Alexander by shooting him as Lex mocks him for making the mistake of not letting the Joker play in the Secret Society. The series ends with him carving an S into his chest with his bare hands and declaring that he has escaped from worse prisons than this. Infinite Crisis â€” collects Infinite Crisis 1â€”7, pages, hardcover, December ,.
