*Beyond Shame is an interesting mix of post-apocalyptic dystopia and erotic romance that sets up a very interesting world that's an odd mix of scifi, MC, and different worlds tropes about self-discovery and redemption, and it was certainly interesting.*

Donna Herren and Bree Bridges. This series takes place in a dystopian world after solar flares took all technology on the planet. Electricity is not stable either. Eden is supposed to be a utopia, but with all its rules and restrictions, it is far from it. She is kicked out of the city and dumped into Sector Four to fend for herself. The sectors surrounding Eden are known for their corruption and crime. They are run by gangs and street rules apply. He makes the best liquor in the area and makes tons of money at it. Sector Four is also known for its explicit extracurricular activities. Nothing is off limits as long as it is consensual. Jasper takes in Noelle who is on something and nurses her back to health. Jasper, even though he is a cage fighter and a thug, he has quite the soft spot and Noelle fits there perfect. They are perfect together. He is a natural dominant. Noelle is a natural submissive who wants nothing more than to experience life. They are hot, tattooed and share well, for the most part. There are some pretty elaborate sex parties in the sector. The people in the gang are loyal, sarcastic and cocky. You are even tattooed with cuffs around your wrists to prove you are part of the gang for life. It also offers you extra protection in the sector. Beyond Shame Audiobook Narration my review The narration is good. Lucy Malone does a good job with each of the different characters. Each character has a distinct voice. The tone and pace is done well. After penning dozens of paranormal novels, novellas and stories as Moira Rogers, they branched out into gritty, sexy dystopian romance. Lucy Malone has narrated dozens of audiobooks and is one of the most sought-after voices for erotica narration.

Chapter 2 : Beyond Shame Audiobook by Kit Rocha (review)

*Beyond Shame Beyond, Book One All Noelle Cunningham has ever wanted was a life beyond-beyond her stifling role as a prim and proper councilman's daughter, and beyond the walls of the patriarchal city of Eden, the only remnants of safety in a world destroyed by solar storms decades earlier.*

Jasper clenched his jaw as fresh pain welled. He could handle getting punched in the head better than he could handle these damn needles sometimes. We can take Dom along, settle things nice and uncivilized in an alley. Jasper glanced down at the red heart emerging on his chest. Gonna rescue some kittens? And I do plan to see. You might not want to get too attached. Anything more sinister and Lex would kill himâ€”and Dallas knew it. Need to get a grease monkey out here to look at it. Have Rachel knock off her shift early and check it out. Maybe you should ask. I could be Dom. A task that could consume his attention as well as anything else. Did she get off on other kinds of pain too? Would having the needles thrust into her delicate skin over and over get her as hot? He could picture the black vinyl seat, slick and shiny with the evidence of her unbearable arousal. Better he be thereâ€”just in case. Three days outside Eden, and her old life seemed like a dream. The scent of liquor was amazing, sharp and heady. Every moment in the sectors was so real, gritty and hard, smashing into her numbed senses. It had to be partly shock. The trauma of going from jail to the streets to drugged out of her mind. Showers with endless hot water, electricity that came from underground wires rather than loud, smoke-spitting generators. Instead she remembered the locks on her windows. The cameras that tracked her every movement.

And I must have had quite the smirk on my face while reading it, because my husband pointed out my perpetual smile. Asked me if it was a good book. You could say that. This howeverâ€¦ oh yes. It is what it is. I dunno that I want my mommy reading this. Yep, I blushed through the whole book. I felt a littleâ€¦ eeeeeeeep!!! I squinched my nose a bit at some of theâ€¦ stuffâ€¦ the guys said. I started glancing around. Tugging on my t-shirt. My eyes bugging wide. Or so I thought but the tugging at the neck of my t-shirt would seem to indicate otherwise. With that kind of hot, who needs to warm up?! Good girl from right side of town depends on how you look at it meets bad boy gang member from wrong side. Intense, all In your face like that. I warmed up to it. Read Beyond Shame by Kit Rocha tonite.. All I can Say isâ€¦. Filthy love, but love nonetheless Takisha: Okay no not just that. Tattoos are predominant in this society. Talk about permanent claiming! In our future world after a solar explosion, society has rebuilt itself in a few different ways. Wealthy, upper class, but that live by strict rules. All the comforts of living, and peace, but so very restricted. No drinking, no fornicationâ€¦ you get the idea. Then there are the gangs on the outskirts that have no government laws, or regulations. The laws are imposed by the gang leaders and rival gangs each protect their territories. And that is where sweet innocent Noelle comes in. She is exiled and let loose into gang territory. Tattoos â€” on his wrists and arms, the kind they taught about in school and whispered about at church socials. The sector gangs, the rough criminals who controlled the slums and waged war on virtue and life. What a world she discovers. I will say, as hot as this book was, the story as a whole comes together well and eventually takes over.

Make it disappear, or make sure they find it? He needed to let go. Chapter Nineteen Jasper was avoiding her. At first, she thought it was her imagination. But sleep had been fleeting and restless, interrupted whenever she slipped her hand into the vacant space to her left. Her hands trembled as she scrubbed a washcloth over her newly healed skin, and she needed him. She needed to see him, touch him, know he was safe. She needed to curl up in his arms and know she was safe. She needed him, and he was supposed to know that. He had to know that. And if he did know but was ignoring her It was too soon for such thoughts, especially with all the danger. Dallas had admitted to sending Jasper out on some unspecified errand. Maybe it had taken most of the night. She drained the tub and dressed for the day, braided her hair in a crown around her head and picked out a short-sleeved T-shirt that left her arms—and her tattoos—bare. Nothing could change that. That was the promise tattooed into her skin—her loyalty in exchange for their protection. Trix would be there to open the doors by noon, ready to serve the truly dedicated drinkers and sell individual bottles of liquor to anyone unable to strike a special deal with Dallas. Life had to go on. Noelle had swept the floor and taken down the chairs by the time Trix arrived, trailing a quiet bouncer named Zan. Zan nodded to her and positioned himself just outside the door, a solid wall of muscle that could—and would—turn deadly at the slightest hint of danger. Noelle had traded her broom for a cloth to wipe down the scarred wooden tables when the door swung open again, admitting two men almost as large as Zan—and tragically familiar. Noelle clenched her fingers around the cloth until the nubby fabric dug painfully into her skin. Her father looked impossibly older, as if months or even years had passed instead of weeks and days. The grooves carved around his steely eyes were deeper, the furrows that formed when his brows drew together more intense. Not on its own, anyway. He looked at her—no, past her, his gaze gliding by without a glimmer of recognition before snapping back to her face. His brow crinkled, and he straightened the hem of his jacket. Squaring her shoulders, she faced him with only her deathly grip on the dishtowel to betray her fear. Your mother and I—we want you to come home. He stared back, the perfect picture of polite surprise—and even here, in the sector slums, he might as well have been playing for the vids. Anger took root, and she gave it voice for the first time in her life. The bullets had been meant for her. Her father knew it, Dallas knew it Jasper probably knew it. Your mother misses you. Her empty room with its endless trinkets, physical luxury and unending leisure. Hot showers and baths that never cooled, no matter how long you lingered. Soft lighting from every surface. Sheets changed every morning by silent servants. No pain, no pleasure, just the anesthesia of safety. Her lips were numb already. The words could mean anything. Of course, the words really could mean anything. She wore his ink now, and loyalty went both ways. And Edwin had always told lies with the truth. Fixing her expression, she handed the tablet back to him. Will you at least think about it? What can you offer me? She shoved them in her pockets to hide it and lifted her voice. Her knees wobbled as she collapsed more than sat, the air rushing from her lungs with an explosive sigh. Trix appeared at her elbow with a shot glass, her green eyes sympathetic. You should think about it. She drained the shot glass and slammed it down on the table. She turned in time to see Trix duck outside with Zan, leaving the bar as empty of distractions as it was witnesses. Still staring at the front door, she cleared her throat. Dark laughter spilled free of her as she shook her head. You knew that, right?
