## Chapter 4 : Indiana University Libraries

*Includes bibliographical references (pages ) and index.*

Then look no further than our list of the top 50 Amazing College Libraries. We examined and evaluated hundreds of libraries from around the country and after careful consideration, have come up with our list of the 50 best. These libraries offer amazing on-campus experiences, provide stunning and rare book collections as well as offer fantastic campus views. Did your campus gem make our list? You can see the complete list below:

**New Haven Connecticut** Opened: Back in , the college was remodeled. This library is used not only by students and faculty from Yale, but also scholars from all over for research because of their extensive collection of rare books and literature that is available. They have room for over , books, of which , located in the tower and , is in the underground stacks of books. It is a 19th-century research library of the University, which is located at the Peabody Campus at Mount Vernon Place. It was completed being built in , after being designed by Edmund G. Lind, who worked with Provost of Peabody, Nathaniel H. The Peabody Library is known as one of the most beautiful libraries, which features their atrium. It has a black and white marble floor and a latticed skylight that is sixty-one feet above the floor. It has cast Iron balconies and gold scalloped columns. The library is open to the public, including the specialty collections of , books. These collections consist of the following:

**Hyde Park, Chicago, Illinois** Opened: The facility opened in and highlights feature the Grand Reading Room. The dome shaped room allows students to study under a gorgeous dome, featuring plenty of natural light. The library houses around three and a half million books.

**Uris Library** â€” Cornell University Location: Ithaca, New York Opened: The attached bell tower is a symbol of Cornell University, which is dedicated to research and learning. A few highlights of the library include 8 Million print books, 71, cubic feet of various manuscripts as well as over 1 million ebooks.

**New York, New York** Opened: The library has 3. There is over 6, online visitors a day visiting

**Bobst Library. Dodd Research Center** was built in and holds many collections. One of the most famous Includes Rare Books Collection.

**Firestone Library** â€” Princeton University Location: Princeton, New Jersey Opened: The library extends beyond the footprint of the main building. It has four smaller floors above the ground, of which only staff and faculty can access the second and fourth floors. The gorgeous English Georgian architecture, of this library, wows onlookers. The book collection has become so significant that the library has had to store many that were related to academic subjects in other libraries and areas located on the campus. It is not only a library but also a testing site. It has thirteen seismometers that are pocket size and has a shaker roof that sends vibrations through the building that allows the scientist to check the frequency of seismic waves when something shakes Southern California.

**Suzzallo Library** â€” University of Washington Location: It houses a Rare Collection also that includes a book that was printed before

**La Jolla, California** Opened: San Diego opened in and had a unique a playful architectural design, and considered to be a prime example of brutalist architecture. Seuss Collection contains more than just the books; it also includes original drawings, sketches, proofs, notebooks, manuscript drafts, audiotapes, videotapes, photographs, and other memorabilia. This collection has over 8, items from Dr. It is privately endowed and run by the Trustees of Amherst College. It also has many paintings and sculptures, which are connected to Shakespeare, but not all. It holds more that 2.

**Raleigh, North Carolina** Opened: An example of this is its large robotic book storage and retrieval system. Known for the BookBot that is a robotic system that involves the book storage and retrieval system used at the library and the robots that are fifty foot tall moves between the rows of book bins. The BookBot can barcode, sort, and store books in the 18, containers, among doing other things. Visitors can watch the BookBot from the first floor through a glass wall, which is called Robot Alley. This university library also has collections in engineering, textiles, and hard sciences. This university that is nationally known for its association in the case of George McLaurin where the case went to court about racial desegregation and being denied admission to the University of Oklahoma for law. The library was specifically created to house the University Archaeological Collection. It was designed
