Eric Wilbur December 17, If you could package hope, wrap it up, and set it beneath whatever form of evergreen might inhabit your home these days, only to open it up to fruition some time later, the possibilities would be endless. Hope for a better economy. Hope for a loved one. Joe Thornton, an NHL star, in the minds of many never really fulfilled his potential in Boston, where he was apparently expected to reinvent the game. He went on to win the Hart Trophy with San Jose later that season, while the Bruins finished with 74 points, dead-last in the Northeast. Only Marco Sturm "sidelined for the past month with a neck injury" remains of the pieces Boston got in return. Wayne Primeau has four points for Calgary. Brad Stuart is a minus-5 for Detroit. Thornton has eight goals, 27 assists for the first-place Sharks, whose 52 points trump any other team in the NHL. He made the Bruins such a downright, pathetic franchise that cleaning house was the only logical step to take. Out went ugh Mike Sullivan. In came the Dave Lewis mustache experiment. The team still stunk, and Lewis had all the emotion of a blade of grass. The Bruins have allowed only 63 goals on the season thus far, which speaks not only to the masterful duo of Tim Thomas and Manny Fernandez between the pipes, but sparkling blueliners including Chara, Andrew Ference, and Shane Hnidy. The offense has been somewhat of a surprise, if only because nobody could have expected Phil Kessel to mature overnight. Boston is third in the league in scoring, only trailing the Chicago Blackhawks and those first-place Sharks. You might remember that one. We celebrated it here for Raymond Bourque, in probably the lowest point Boston had succumbed to until the city started racking up titles. It would indeed be the ultimate showdown for the Bruins, facing off against the team that now employs their former star, the one who was supposed to lead Boston to similar sorts of glory. Talk about coming full-circle, facing off against Thornton would scream and shout how far the Bruins have come since the low point of that trade. From rock-bottom, to the top of the Boston sports landscape, once again, partly because their former general manager was an incompetent fool. For without it, these Bruins may never have materialized.
