The third and final single was " Live and Learn " released on December 3, On 19 October , the band released their sixth album Super Extra Gravity to generally favourable reviews. After the band finished promotional activities in Autumn , the band entered an extended hiatus and devoted themselves to other projects. Still with Humlebo in place of Svensson, the band played career-spanning sets when touring resumed during late with shows in Japan, China and Russia, followed by more dates in which took them to South Korea, Europe and South America. In interviews promoting her solo album Animal Heart , Persson suggested that the success of their most recent live dates opened the possibility for future Cardigans recordings, though there were no firm plans. Proceeds from the album went to the fair trade campaign.
