In every case in which the year of the decease is known, it is indicated at the right. The following should have place at page In a School of Chemistry was opened in the College by Prof. THE present catalogue of the Alumni and other graduates of Columbia College is the sixth which has been published since the re-organization of the College under its present title, in These publications have not been periodical; and in no one of them except the last, which was issued in , has there been any attempt to indicate the professions or occupations of the graduates, or to present a record of the honors, academic, civic, or military, which have been conferred upon them. Such an attempt, made for the first time, in the absence of any written record of such things regularly kept at the College or elsewhere, could not but be, to a certain extent, unsuccessful; and accordingly in the issuing of the catalogue of no credit was claimed for it on the score of perfection or completeness. The publication was avowedly made, in the form adopted, quite as much in the hope of eliciting, by means of the interest it might excite, additional information in regard to the personal history of the graduates, as of giving a permanent form to the information already obtained. This hope has not been wholly disappointed. A number of the Alumni of the College have kindly contributed important additions to the knowledge which had been previously gathered in regard to members of many of the earlier classes; and in consequence of this valuable assistance, the present edition of the catalogue, though still far from being all that could be desired, will be found to exhibit a sensible improvement on the last. Copies of this catalogue will be sent, as in , to all the living Alumni whose residences are known. Those who may not receive it may be assured that the omission is owing only to want of information as to their proper addresses. They will be promptly supplied, on application, by post or otherwise, to the President, at the College. Notwithstanding the considerable success which has attended the efforts made to supply the deficiencies of the former publication, the imperfections which will doubtless be detected in the present one can hardly fail to be numerous. Chapter 2 : Three alumni elected to the Board of Trustees | Tuskegee University

Catalogue of the governors, trustees, and officers, and of the alumni and other graduates, Columbia College (originally King's College) in the city of New York, from to 1

In every case in which the year of the decease is known, it is indicated at the right. The present catalogue of the Alumni and other graduates of Columbia College is the first in which an attempt has been made to exhibit the professions or occupations of the graduates, the academic distinctions which have been conferred on them, and the offices of honor or responsibility which they have filled. Unfortunately, no contemporaneous record of these things has been kept up at the College; and; until within the last few years, no organization among the graduates themselves has existed, by which such information might have been gathered and preserved. A Society of the Alumni was, however, formed in the year ; and that Society, very early after its formation, made an earnest effort, by a correspondence conducted through its officers with very many of the living Alumni; to collect all the important or interesting facts in the personal history of every graduate of the College from the beginning. Early in the present academic year, the President of the College was authorized by the Board of Trustees to publish a catalogue without further delay-the belief being entertained that the appearance of this publication would revive in the minds of the graduates a sufficient interest in the subject to induce them, severally, to point out such imperfections as they may discover in it, to correct its inaccuracies, and to supply its deficiencies. In the mean time, however, another effort has been made to secure additional information, by correspondence with members of the classes whose record appeared to be the most incomplete, and this effort has been partially, but only partially, successful. Such as it is, the catalogue is now finally committed to the press. Copies of it will be sent to all the living Alumni whose residences are known. Those who may not receive it will be promptly supplied, on application to the President, at the College, by mail or otherwise. Every graduate to whom the catalogue may be sent is earnestly requested, first, to correct and complete his own record, as here presented; and, secondly, to communicate any information he may possess, which the catalogue may not give, in regard to any other graduate or graduates. Such communications may be addressed to the President, and the facts which they embrace will be incorporated into the catalogue in the next edition. Hereafter it is proposed to publish the catalogue triennially. Four catalogues of the Alumni of Columbia College have been heretofore published, the earliest of which appeared in . The succeeding ones were issued in , , and , respectively. The catalogue of was prepared and printed in Latin, in the style usual in college triennials. In , Latin was abandoned for English, and this language has been employed in the more recent editions. After some hesitation, it has been determined not to revert, in the present publication, to the primitive style. Two copies of this, the only copies known to have been preserved, have recently been discovered in the library of Yale College, one of which, has been courteously presented by the librarian of that institution to the library of this.
