Chapter 1 : K Bilingual Speech Language Pathologist Assistant (SLPA), Rockford, IL - Schools - SLPA

Alaska Statutes. Title www.nxgvision.comss and Professions Chapter Audiologists and Speech Pathologists Section Activities of Speech-Language Pathologist Assistant.

It is the legislative intent that speech-language pathologists and audiologists who fall below minimum competencies or who otherwise present a danger to the public health and safety be prohibited from practicing in this state. A person whose state of residence does not license speech-language pathologists or audiologists may also qualify for this exemption, if the person holds a certificate of clinical competence from the American Speech-Language and Hearing Association and meets all other requirements of this paragraph. In either case, the board shall hold the supervising Florida licensee fully accountable for the services provided by the out-of-state licensee. Offer, render, plan, direct, conduct, consult, or supervise services to individuals or groups of individuals who have or are suspected of having disorders of hearing, including prevention, identification, evaluation, treatment, consultation, habilitation, rehabilitation, instruction, and research. Participate in hearing conservation, evaluation of noise environment, and noise control. Conduct and interpret tests of vestibular function and nystagmus, electrophysiologic auditory-evoked potentials, central auditory function, and calibration of measurement equipment used for such purposes. Habilitate and rehabilitate, including, but not limited to, hearing aid evaluation, prescription, preparation, fitting and dispensing, assistive listening device selection and orientation, auditory training, aural habilitation, aural rehabilitation, speech conservation, and speechreading. Offer, render, plan, direct, conduct, and supervise services to individuals or groups of individuals who have or are suspected of having disorders of human communication, including identification, evaluation, treatment, consultation, habilitation, rehabilitation, amelioration, instruction, and research. Determine the need for personal alternatives or augmentative systems, and recommend and train for the utilization of such systems. Direct supervision shall require the physical presence of the licensed speech-language pathologist for consultation and direction of the actions of the certified speech-language pathology assistant, or the physical presence of the licensed audiologist for consultation and direction of the actions of the certified audiology assistant, unless the assistant is acting under protocols established by the board. The board shall establish rules further defining direct supervision of a certified speech-language pathology assistant or a certified audiology assistant. Two members shall be practicing speech-language pathologists. Two members shall be practicing audiologists. At least one of the two shall be a hearing aid user. Members shall serve until their successors are appointed. These rules shall be effective on or before October 1,

The board may also establish, by rule, a late renewal penalty. The board shall establish fees which are adequate to ensure continued operation of the board and to fund the proportionate expenses incurred by the department in carrying out its licensure and other related responsibilities under this part. Fees shall be based on department estimates of the revenue required to implement this part and the provisions of law with respect to the regulation of speech-language pathologists and audiologists. A provisional license shall be required of all applicants for a license in audiology who cannot document a minimum of 11 months of supervised clinical experience and a passing score on the national examination. An applicant who graduated from or is currently enrolled in a program at a university or college outside the United States or Canada must present documentation of the determination of equivalency of the program to standards established by an accrediting body recognized by the Council for Higher Education Accreditation or its successor or the United States Department of Education in order to qualify. The applicant must have completed the program requirements by academic course work, practicum experience, or laboratory or research activity, as verified by the program, including: Knowledge of basic human communication and swallowing processes, including their biological, neurological, acoustic, psychological, developmental, and linguistic and cultural bases. Knowledge of the nature of speech, language, hearing, and communication disorders and differences and swallowing disorders, including their etiologies, characteristics, anatomical or physiological, acoustic, psychological, developmental,

DOWNLOAD PDF CHAPTER 11. SPEECH-LANGUAGE PATHOLOGY ASSISTANT.

and linguistic and cultural correlates, voice and resonance, including respiration and phonation, receptive and expressive language in speaking, listening, reading, writing, and manual modalities, hearing, including the impact on speech and language, swallowing, cognitive aspects of communication, social aspects of communication, and communication modalities. Knowledge of the principles and methods of prevention, assessment, and intervention for people having communication and swallowing disorders, including consideration of anatomical or physiological, psychological, developmental, and linguistic and cultural correlates of the disorders, articulation, fluency, voice and resonance, receptive and expressive communication, hearing, swallowing, cognitive aspects of communication, social aspects of communication, and communication modalities. The program must include appropriate supervised clinical experiences. The board may waive the requirements for education, practicum, and professional employment experience for an applicant who received a professional education in another country if the board is satisfied that the applicant meets the equivalent education and practicum requirements and passes the examination in speech-language pathology. The program must assure that the student obtained knowledge of foundation areas of basic body systems and processes related to hearing and balance. The program must assure that the student obtained skills for the diagnosis, management, and treatment of auditory and vestibular or balance conditions and diseases. The program must assure that the student can effectively communicate with patients and other health care professionals. The program must assure that the student obtained knowledge of professional ethical systems as they relate to the practice of audiology. The program must assure that the student obtained clinical experiences that encompass the entire scope of practice and focus on the most current evidence-based practice. The board may waive the education, practicum, and professional employment experience requirements for an applicant who received a professional education in another country if the board is satisfied that the applicant meets equivalent education and practicum requirements and passes the examination in audiology. However, a provisional license may not exceed a period of 24 months. Each applicant for licensure as an audiologist must demonstrate, prior to licensure, a minimum of 11 months of full-time professional employment, or the equivalent in part-time professional employment. A person who fails an examination may make application for reexamination to the appropriate examining entity. A licensee or certificateholder who receives initial licensure or certification 6 months or less before the end of the biennial licensure cycle is exempt from the continuing education requirements for the first renewal of the license or certificate. The board may establish by rule standards for the approval of such continuing education activities. The board may make exception from the requirements of continuing education in emergency or hardship cases. The continuing education requirements for reactivating a license or certificate may not exceed 25 contact hours for each year the license was inactive in addition to the continuing education that was required for renewal on the date the license became inactive. The board, by rule, shall establish minimum education and on-the-job training and supervision requirements for certification as a speech-language pathology assistant or audiology assistant. If, upon inspection of the ear canal with an otoscope in the common procedure of fitting a hearing aid and upon interrogation of the client, there is any recent history of infection or any observable anomaly, the client shall be instructed to see a physician, and a hearing aid shall not be fitted until medical clearance is obtained for the condition noted. If, upon return, the condition noted is no longer observable and the client signs a medical waiver, a hearing aid may be fitted. Any person with a significant difference between bone conduction hearing and air conduction hearing must be informed of the possibility of medical or surgical correction. Such request shall be documented by a waiver which includes the written notice and is signed by the licensee and the client prior to the testing. The waiver shall be executed on a form provided by the department. The board shall adopt and enforce rules necessary to carry out the provisions of this subsection and subsection 6. The receipt also shall specify whether the hearing aid is new, used, or rebuilt, and shall specify the length of time and other terms of the guarantee and by whom the hearing aid is guaranteed. When the client has requested an itemized list of prices, the receipt shall also provide an itemization of the total purchase price, including, but not limited to, the cost of the aid, ear mold, batteries, and other accessories, and the cost of any services. Notice of the

availability of this service must be displayed in a conspicuous manner in the office. The receipt also shall state that any complaint concerning the hearing aid and its guarantee, if not reconciled with the licensee from whom the hearing aid was purchased, should be directed by the purchaser to the department. The address and telephone number of such office shall be stated on the receipt. The guarantee must permit the purchaser to cancel the purchase for a valid reason as defined by rule of the board within 30 days after receiving the hearing aid, by returning the hearing aid or mailing written notice of cancellation to the seller. A repaired, remade, or adjusted hearing aid must be claimed by the purchaser within 3 working days after notification of availability. The running of the day trial period resumes on the day the purchaser reclaims a repaired, remade, or adjusted hearing aid or on the 4th day after notification of availability. Such rule shall provide, at a minimum, that the charges for earmolds and service provided to fit the hearing aid may be retained by the licensee. The rules shall also set forth any reasonable charges to be held by the licensee as a cancellation fee. Such rule shall be effective on or before December 1, Should the board fail to adopt such rule, a licensee may not charge a cancellation fee which exceeds 5 percent of the total charge for a hearing aid alone. The terms and conditions of the guarantee, including the total amount available for refund, shall be provided in writing to the purchaser prior to the signing of the contract. The purchaser shall incur no additional liability for rescinding the transaction. Any person who violates this section commits a misdemeanor of the second degree, punishable as provided in s. In enforcing this paragraph, upon a finding by the State Surgeon General, his or her designee, or the board that probable cause exists to believe that the licensee or certificateholder is unable to practice the profession because of the reasons stated in this paragraph, the department shall have the authority to compel a licensee or certificateholder to submit to a mental or physical examination by a physician, psychologist, clinical social worker, marriage and family therapist, or mental health counselor designated by the department or board. The department shall be entitled to the summary procedure provided in s. A licensee or certificateholder affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that he or she can resume the competent practice for which he or she is licensed or certified with reasonable skill and safety to patients. Sexual misconduct means to induce or to attempt to induce the patient to engage, or to engage or to attempt to engage the patient, in sexual activity outside the scope of practice or the scope of generally accepted examination or treatment of the patient. In any such unabated proceeding, the Board of Speech-Language Pathology and Audiology and the department shall be deemed parties in interest and shall be made parties to the proceeding.

practice as an audiologist, speech-language pathologist, or speech-language pathology licensed assistant in another state or jurisdiction if that other state or jurisdiction imposes at least substantially the same standards that are imposed under this chapter.

To ensure you receive your renewal notification from the department, your current mailing address must be on file. Failure to renew an active or inactive license by the expiration date will result in the license being placed in delinquent status. Failure by a delinquent licensee to renew before the expiration of the current licensure cycle renders the license null and void without any further action by the board or the department. A licensee who remains on inactive status for more than two consecutive biennial licensure cycles and who wishes to reactivate the license may be required to demonstrate the competency to resume active practice by sitting for a special purpose examination or by completing other reactivation requirements. Licensees requesting to reactivate their license from inactive or retired status are required to pay additional fees and comply with specific continuing education requirements. Please contact the board office at info.floridasspeechaudiology. The department will renew your license upon receipt of: Completed renewal application Renewal Instructions: Please select the answer below that best applies to you for further instructions. No, I have not registered for a new account Click the Renew Online button. Select your board and profession and click Submit. Please note that your user ID and password mailed with your physical license will no longer work with our new system. You must register for a new account using a valid email address. Follow the prompts to create your new account. After you Sign In with your new user ID and password, you will then be prompted by a 3-step process to link your license to your account before you can renew. You will need three 3 items: Your social security number Your date of birth Your mailing address zip code on file with the Department of Health Please note that your mailing address zip code can be found on your renewal postcard or your physical license Once you have successfully linked your license to your account, you will see the Manage My License section on your Quick Start Menu. Under It is time to Renew, select Renewal Application to submit your renewal application and payment. Yes, I have registered for an account, but I have not linked my license Click the Renew Online button. If you have an account but have not linked your license to your account, enter your user ID and password, then click Sign In. You will then be prompted by a 3-step process to link your license to your account before you can renew. Yes, I have registered for a new account and linked my license Click the Renew Online button. If you have already created an account, enter your user ID and password, then click Sign In. You may renew online if you have a credit or debit card to complete the transaction. Division of Medical Quality Assurance P. The delinquency fee will be in addition to your renewal fees. You should contact your board office for further instruction. The process of renewing a license and receiving a printed license in the mail may take business days. Initiating contact to confirm the receipt of fees or the status of your license prior to this time will not expedite the renewal process. If you are reactivating your license, please refer to the laws and rules governing your practice for additional requirements. Please report continuing education credits to the Department of Health through our CE tracking system at www. Name Change If you are renewing online and need to change your name, please follow these instructions prior to renewing your license: Name changes require legal documentation showing the name change. Please log into your MQA Online Services Portal account to submit your request and enter your full name as it appears on your legal documentation. A copy of a state issued marriage license that includes the original signature and seal from the clerk of the court A divorce decree showing the name change A court order showing the name change Adoption, legal name change, federal identity change A copy of a certificate of naturalization or H1B Employment Visa Note: Please allow business days for your request to be processed. Certified check or money order should be made payable to the Florida Department of Health.
