

Chapter 1 : The Collector (Dante Walker #1) by Victoria Scott Book Reviews

The Collector is book one in the Dante Walker series by Victoria Scott. I was first introduced to Ms. Scott when I recently read Fire and Flood and immediately fell in love with her and vowed to go back and read this earlier series.

His job is simple, weed through humanity and label those round rears with a big red good or bad stamp. Old Saint Nick gets the good guys, and he gets the fun ones. Sealing souls is nothing personal. He has a huge, loyal fan base that is very vocal about their love of this bad boy. He did, in a very big way and that came as a huge surprise. At first glance Dante is a jerk. He was beyond self confident bordering on arrogant. He was self-centered and at times even mean. Then, I got to know him. Talk about your character transformations - at least in the eyes of the reader Dante hid his true self well. It was amazing what Victoria Scott packed into that short amount of time. The Collector was not only fast-paced but it was also one of those books that made you think. On the surface it was simple. The characters in The Collector are more complex than that. Dante is cocky and arrogant, but there is also a vulnerability about him that he keeps well hidden, even from himself. Charlie is sweet and innocent but not naive at all. There are shades of gray on both sides. It kept things interesting and also more real than keeping things strictly right vs wrong or good vs evil. The Collector was an emotion packed ride. And before you ask, yes there were tears. There was more than one heart breaking moment in this book. Meeting the Dante that readers are introduced to in the beginning of this book may make that hard to believe. It certainly took me by surprise. There are readers that may never identify with Dante, and I guess I can understand why. It may be hard for some to get past that arrogant, self confidence that seems to define him. He started winning me over the moment he defended Charlie though. Which brings me to the true reason why I ultimately fell in love with Dante. Sure, I wanted to shake him sometimes smack him, but more often than not I wanted to hug him. The Liberator is due to release in August of

Chapter 2 : The Collector (Dante Walker #1)(39) read online free by Victoria Scott

The Collector was a cute story that was mainly character driven with an interesting concept. The characters, especially Dante, showed tremendous growth throughout the story. There was a good humor through his thoughts and the dialogue and it had me laughing.

Jan 22, Steph Sinclair rated it really liked it Recommends it for: People who like to be entertained Shelves: My start with The Collector reminds me of what happened with Obsidian. I kept seeing i Actual rating: The thing about this book is that you are not going to like Dante at first. And he knows this. But the thing about Dante is, that deep down he has a good heart. Throughout the story, we see his good growing stronger and stronger through his interactions with Charlie. I just wanted to toss him out a window, for real. But thankfully, Dante has tons of character growth and becomes somewhat of a standup guy by the end. While the writing style and characters were all right up my alley, the second half did seem noticeably weaker than the first. I really think this may have been due to the Big Guy vs. They must have been putting in some serious overtime. Still, I really was enjoying myself so whatevs. Scott created a very entertaining character who was really distinctive. When I first read the blurb, I thought it was a little ambitious: All that sentence did is make me turn my head to the side and emit an, "O RLY? Which, I guess, makes sense considering he does work for Hell and he calls his "employer" Boss Man. And seriously, all I needed was for him to start rapping. Well, that brings us to the second reason. Check my swag, yo. Because he possesses one thing I think it was incredibly smart of Scott to include. It allowed me to like just a small piece of him until his redeemable qualities showed up. He considers her undesirable, "unpretty", a waste of his time and good charm, etc. He sees how much her friends love her, how despite her background she made something better out of it. She tries to protect her people, and they in turn protect her. I loved seeing his character develop. And then you have his interactions with the other characters. Scott really brought everyone to life with her wit and charm. I kept bookmarking my favorite quotes until I realized I was damn near highlighted every other page.

Wear the restraint and walk among the living, work for hell and be traceable by him and the other collectors. Eat, breathe, and carry on a normal existence on earth. Break it off and die a final death. Just an eternity of silence. I heard he lived for several hours before starting to fade. And now I wonder! Being locked in the ninth ring of hell is one thing. But this! This is final. No backup plan, no last-minute resolution. I imagine Charlie afraid. It stirs something hysterical inside me. And just like that, my decision is made. Chapter Forty-eight Coincidences I push my jeans back down over my new lame sneakers and head for the door. For now, I need my cuff. But my hours as a collector are numbered. The realization is both exhilarating and terrifying. Elizabeth Taylor has been packed since this afternoon, and when I get outside, I ensure our bags are still in the backseat. She no doubt has one of those sporty chick cars. Spinning around, I spot a figure standing against a car near the back of the parking lot. Pulling my blazer back, I wrap my fingers around the Glock in my waistband. The guy takes two quick steps toward me, and I raise the. His hands fly up, and he screeches to a halt. Realizing this, I know I have to stop him. But he looks as determined as a bull. And I have a good idea which collector that would be. My way of saying, I freaking love you, man. For the next twenty minutes, we drive around town with our heads stuck out the windows like dogs trying to sense another collector. When we near an enormous grocery store, Max grabs my shoulder. He looks over at me with big eyes, and suddenly I sense it, too! "another collector. I pull into the store parking lot and park near a line of Dumpsters. We watch people coming in and out of the sliding glass doors. When we find Charlie, I want you to grab her and run. Let me deal with this dick, okay? I want her safe. Hand Charlie off to her. As Max mutters about Big Guy calling his collectors liberators, something moves across my line of vision. Max screams like a girl, and I jump in my seat. I turn to my left, ready to punch through the window if I have to! and stop when I see a mane of red hair. Max flies from the car and races around the front. She wraps her legs around his waist, and he presses his mouth over hers. And then! then they just kinda start getting it on right there on the hood of my car. Through my open window, I can hear Max moaning. My face scrunches in disgust. I lay on the horn. Then it hits me. I get out of the car and move to stand in front of them. Max pulls her close and whispers in her ear. She shakes her head back and forth. Then her head snaps up. Her body relaxes against him. Valery steps away from him. She studies him for a long time without saying anything. Then she turns to face me. Then she climbs into the passenger seat, and Max jumps in the back. I roll my eyes, but a small smile tugs at my lips. Before my time is up. The music is off in my car, and now there are three heads hanging out the windows instead of two. This is different, like someone is staring at me from across the room and I just now noticed. I shake my head.

Chapter 4 : Collector : A Dante Walker Novel PDF - Download Books

YOU ARE READING. THE COLLECTOR Teen Fiction. He makes good girls bad. Dante Walker is flippin' awesome, and he knows it. His good looks, killer charm, and stellar confidence have made him one of hell's bestâ€”a soul collector.

But what makes The Collector so good is how Victoria has fun with idea and puts her own spin on it. Told from the perspective of the bad boy, The Collector is surprisingly sweet, poignant, and hilarious and should work well for readers who enjoy paranormal books but want a fresh take on this genre. But I thought Victoria did an incredible job letting Dante take on a life of his own with his narrative. Have you noticed how often this is one of my "reasons to read" when I like a book? I like it slow and I love the anticipation from the build-up. I like that Dante is slow and steady, because it makes the romance more believable to me as a reader. Dante undergoes a fairly drastic transformation in The Collector, and Victoria must be commended for her insight on the feelings and internal struggle of a teenager. It has so much to do with that desire to be accepted by someone, and they are such fascinating characters. It adds to the humour. The plot also felt a bit too convenient for me. The main character, Dante Walker, was really funny - great one-liners. But this one was totally different. Looking forward to the next one. My friend recommended it and sometimes we have different tastes. The characters are amazing, and I thought Dante was so funny. I tell everyone I know about this book now. He gets in, gets the job done and gets out. Ten days to claim her soul? Except Charlie is nothing like anyone Dante has ever met before. At first I thought he was entertaining but about as deep as dishwasher. This character has a lot going for him - and not just the sex appeal and charm that he is oh-so-well aware of. When tragedy and adversity had the chance to make her bitter and twisted, Charlie took the high road and tried to be the best person she could be. Some twists I expected, some I never saw coming but they worked well with the rest of the drama unfolding. There were a few surprises and I have to admit the ending has left me so very curious as to where Scott is going to take Dante, Charlie and the rest of the crew in the next instalment of the Dante Walker series. Close X Follow us.
