

Chapter 1 : National Socialist Party of Australia - WikiVividly

'Australia First' is a good slogan that has been adopted by several quite different political ideologies. This book deals with the movement that developed slowly from about and came to an inglorious end in

Canberra – Canberra is the capital city of Australia. With a population of , it is Australias largest inland city, the city is located at the northern end of the Australian Capital Territory, km south-west of Sydney, and km north-east of Melbourne. A resident of Canberra is known as a Canberran, the site of Canberra was selected for the location of the nations capital in as a compromise between rivals Sydney and Melbourne, Australias two largest cities. It is unusual among Australian cities, being a planned city outside of any state, similar to Washington, D. Following an international contest for the design, a blueprint by American architects Walter Burley Griffin and Marion Mahony Griffin was selected. The Griffins plan featured geometric motifs such as circles, hexagons and triangles, the citys design was influenced by the garden city movement and incorporates significant areas of natural vegetation that have earned Canberra the title of the bush capital. The ACT is independent of any state to prevent any one state from gaining an advantage by hosting the seat of Commonwealth power, the ACT has voting representation in the Commonwealth Parliament, and has its own independent Legislative Assembly and government, similar to the states. Compared to the averages, the unemployment rate is lower. Property prices are high, in part due to comparatively restrictive development regulations. An s map of the region by Major Mitchell indeed does mark the Sullivans Creek floodplain between two mountains as Nganbra. Nganbra or Nganbira could readily have been anglicised to the name Canberry, survey plans of the district dated refer to the area as the Canberry Plain. Before white settlement, the area in which Canberra would eventually be constructed was seasonally inhabited by Indigenous Australians, archaeological evidence of settlement in the region includes inhabited rock shelters, rock paintings and engravings, burial places, camps and quarry sites, and stone tools and arrangements. Artefacts suggests early human activity occurred at some point in the area 21, years previously, European exploration and settlement started in the Canberra area as early as the s. There were four expeditions between and , white settlement of the area probably dates from , when a homestead or station was built on what is now the Acton peninsula by stockmen employed by Joshua John Moore. He formally applied to purchase the site on 16 December , on 30 April , Moore was told by letter that he could retain possession of 1, acres at Canberry. The European population in the Canberra area continued to grow throughout the 19th century 2. Australia – Australia – officially the Commonwealth of Australia, is a country comprising the mainland of the Australian continent, the island of Tasmania and numerous smaller islands. It is the worlds sixth-largest country by total area, the neighbouring countries are Papua New Guinea, Indonesia and East Timor to the north, the Solomon Islands and Vanuatu to the north-east, and New Zealand to the south-east. Australias capital is Canberra, and its largest urban area is Sydney, for about 50, years before the first British settlement in the late 18th century, Australia was inhabited by indigenous Australians, who spoke languages classifiable into roughly groups. The population grew steadily in subsequent decades, and by the s most of the continent had been explored, on 1 January , the six colonies federated, forming the Commonwealth of Australia. Australia has since maintained a liberal democratic political system that functions as a federal parliamentary constitutional monarchy comprising six states. The population of 24 million is highly urbanised and heavily concentrated on the eastern seaboard, Australia has the worlds 13th-largest economy and ninth-highest per capita income. With the second-highest human development index globally, the country highly in quality of life, health, education, economic freedom. The name Australia is derived from the Latin Terra Australis a name used for putative lands in the southern hemisphere since ancient times, the Dutch adjectival form Australische was used in a Dutch book in Batavia in , to refer to the newly discovered lands to the south. On 12 December , Macquarie recommended to the Colonial Office that it be formally adopted, in , the Admiralty agreed that the continent should be known officially as Australia. The first official published use of the term Australia came with the publication of The Australia Directory and these first inhabitants may have been ancestors of modern Indigenous Australians. The Torres Strait Islanders, ethnically Melanesian, were originally horticulturists, the

northern coasts and waters of Australia were visited sporadically by fishermen from Maritime Southeast Asia. The first recorded European sighting of the Australian mainland, and the first recorded European landfall on the Australian continent, are attributed to the Dutch. The first ship and crew to chart the Australian coast and meet with Aboriginal people was the *Duyfken* captained by Dutch navigator, Willem Janszoon. He sighted the coast of Cape York Peninsula in early 1606, the Dutch charted the whole of the western and northern coastlines and named the island continent New Holland during the 17th century, but made no attempt at settlement. William Dampier, an English explorer and privateer, landed on the north-west coast of New Holland in 1770, in 1770, James Cook sailed along and mapped the east coast, which he named New South Wales and claimed for Great Britain. The first settlement led to the foundation of Sydney, and the exploration, a British settlement was established in Van Diemens Land, now known as Tasmania, in 1803, and it became a separate colony in 1825. The United Kingdom formally claimed the part of Western Australia in 1829. Separate colonies were carved from parts of New South Wales, South Australia in 1836, Victoria in 1851, the Northern Territory was founded in 1911 when it was excised from South Australia.

3. Nazism – National Socialism, more commonly known as Nazism, is the ideology and practice associated with the 20th-century German Nazi Party and Nazi Germany, as well as other far-right groups. Nazism subscribed to theories of racial hierarchy and Social Darwinism, identifying Germans as part of what Nazis regarded as an Aryan or Nordic master race and it aimed to overcome social divisions and create a homogeneous society, unified on the basis of racial purity. The term National Socialism arose out of attempts to create a nationalist redefinition of socialism, the Nazi Party's precursor, the Pan-German nationalist and anti-Semitic German Workers Party, was founded on 5 January 1923. By the early 1930s, Adolf Hitler assumed control of the organisation, following the Holocaust and German defeat in World War II, only a few fringe racist groups, usually referred to as neo-Nazis, still describe themselves as following National Socialism. The full name of Adolf Hitler's party was Nationalsozialistische Deutsche Arbeiterpartei, the shorthand Nazi was formed from the first two syllables of the German pronunciation of the word national. The term was in use before the rise of the NSDAP as a colloquial and derogatory word for a peasant, characterizing an awkward. It derived from Ignaz, being a version of Ignatius, a common name in Bavaria. Opponents seized on this and shortened the first word of the name, Nationalsozialistische. From there, the spread into other languages and was eventually brought back to Germany after World War II. In English, Nazism is a name for the ideology the party advocated. The majority of scholars identify Nazism in practice as a form of far-right politics, far-right themes in Nazism include the argument that superior people have a right to dominate over other people and purge society of supposed inferior elements. Adolf Hitler and other proponents officially portrayed Nazism as being neither left- nor right-wing, but the politicians of the Right deserve exactly the same reproach. It was through their miserable cowardice that those ruffians of Jews who came into power in 1933 were able to rob the nation of its arms, a major inspiration for the Nazis were the far-right nationalist Freikorps, paramilitary organisations that engaged in political violence after World War I. The Nazis stated the alliance was purely tactical and there remained substantial differences with the DNVP, the Nazis described the DNVP as a bourgeois party and called themselves an anti-bourgeois party. After the elections in 1932, the alliance broke after the DNVP lost many of its seats in the Reichstag, the Nazis denounced them as an insignificant heap of reactionaries. Kaiser Wilhelm II, who was pressured to abdicate the throne and flee into exile amidst an attempted communist revolution in Germany, there were factions in the Nazi Party, both conservative and radical.

The Complete Cease of Illegal Immigration: This core policy is set on the limitation and eventual stop of Illegal Immigration. This policy must be undertaken in order to strengthen and fabricate a united nationalist state. We cannot unite our people together with the continued flow of Illegal Immigrants. Our governments are currently rolling out the red carpet for more and more boats of Illegal Immigrants, to lock them up in detention centres for a period of time and then grant those funds from our taxes and cluster them in housing commission areas. This is not what Australia should be about.. This is not what our once great nation should be. Illegal Immigrants are clustered into commissioned areas with high crime rates, and with the mix of hip-hop music and western society the youth will gain a sense of nationalist pride and form gangs to intimidate and attack innocent people. There are moral ethics to the freedom and rights of any person who wants to become Australian, but there is a line with these ethics and the line is being crossed. The Australian United National Socialist Party believes the preservation of our Australian heritage, a proud unified state, and the concern of our own race before others are the most desired fundamentals. A Brand New System of Economy: Capitalism is on the inevitable verge of collapse with the excessive greed and spending of our globalized corporations and media. Capitalism is a rabid dog that has been let off its leash to poison and pollute the principals of good business. Capitalism does not benefit the people, or the state, it benefits the rich while the hungry hand of Globalization clusters into the wallets of the poor. In our new system of economy every Australian who is a decent working individual should be granted with a reasonable income, we must cut off tax eg. Miners tax, Carbon tax, etc. We must destroy the communist agenda of our Labor and Liberal tyrants and stabilize our economy, the way it should be. We must strengthen our borders with a more powerful and well-funded militarization of Australia from possible foreign invaders. And finally we must develop alternate ways for energy, cut off carbon tax, convert to electric cars, hydrogen powered cars, natural gas resources would lower the costs of electricity in a great deal. The Australian United National Socialist Party believes that Australia has the potential to avoid a global financial crisis, we believe nationalism would be a great and effective tool to avoid any form of economic destabilization. If the right strategy is put into practise. The Australian United National Socialist Party deeply believes every Australian should be treated to pure Australian fruits and vegetables. Not only can every Australian have the right to eat them, but also the right to grow them for cheaper and better quality. Every new house should be fitted with a water tank to help preserve water and make water use twice as cheap. Farmers have an option to purchase more land outside their own for the higher development of wheat, grain, meat, vegetables etc. The Eradication of Fluoride in Our Water: What we are told is that water is healthy and great for us and that it helps filtrate our kidneys etc. But we know that is not the case, Fluoride is added into anti-psychosis drugs to draw the mind out of consciousness and allow it to absorb more indirect sources which would be generally be unnoticed. It also causes diseases in the bone and heart problems. It is disgusting that almost every natural source of food or water has been genetically and chemically altered. We do not get water for free, we do not get food for free, everything comes at a cost, and for that is the reason the monopolistic corporations stay in business and continue to profit from our losses. Water will be free of fluoride no matter what. The Cease of Unemployment and Homelessness: One thing which is upsetting is the lack of help and compromise given for the homeless. We know a lot of homeless people are drug addicts, mentally ill, kicked out of homes etc. I believe for an alternate way to help homeless people despite their circumstances. I believe a series of options such as, military service, care, employment, and rehabilitation would suffice. For convicts sent to prison, the law will be a lot easier on the offenders and give them 2 chances. When a man is released he is given an option, to work supervised, or to join the military. If he breaks the law again he will either be sent to life in prison or conscripted into the military. But for crimes such as rape, paedophilia, first degree murder etc. It has been proven multiculturalism is failing, with the mixture of different ideas and cultures all clustered into one small space it tends to destabilize the socio-economic factors. Australia must be pure and white again. Australia must keep its identity. It is proving

that our race will soon die out as in the USA the white population is soon to become a minority, and eventually white people will be bred out and the founders of the USA, the ones to flourish will become extinct. Even in Australia we are soon to become a minority, it is fact that , Australians are born every year, but the number of immigrants entering our country a year is ,, the majority from Asia and The Middle East. Multiculturalism would work with a disciplined state, but with the upcoming generations and teenage rebellion and impressionable ideas our country will be overpopulated and our youth will follow a pathway of crime, and if not crime then racially discriminated against by foreigners with a sense of their own nationalist pride. Australia must keep their businesses Australian, we must not sell off our assets to foreign investors with only one purpose, to profit off our annual income, and we are losing billions because of our careless business ethics and selling our hard working companies to the first money hungry globalist. We must make our products Australian made; I must avoid trading with sweatshops and purchasing items for an excessive amount of money which are only worth 20 cents. We are being ripped off. A lot of the reason we are not earning as much money as we should be is our government is being ripped off and taxed for buying products from overseas. We must annihilate the monopolistic corporations ran by the government which rise retail prices and rip us off out of our hard earned money. Establish a More Safer Australia: We must form a vigilante wing to cease crime around our cities, this would help with the decay of large criminal organizations and drug trafficking rings. A more stable and competent police force, we must build more projects that are suitable for our youth that can be educational and fun. We must have a way for the future of Australia, more Nobel Prize winners, awards, and more prestigious people. Australia needs to be pure, intelligent, educated, disciplined, and most of all SAFE!! Increased budgets on Hospitals, Education, and other essential services: The education system should grant what I call a reward income, for every student that successfully completes year 9, 10, 11, and 12 every completed year will grant a reasonable sum of money. This should encourage children to stay at school and have a reason to strive for the best. Our schools must be well disciplined with the compromisation of our students, punishment is one sided in our schools now, punishment should be respected for the real cause of the problem. Students should get more leeway then they already do. We must ensure the rights and freedoms of every Australian. We must stick to our original constitution, we must hold our freedom and our heritage. Bring The Troops Home: We must bring every soldier home and welcome them with the ultimate celebration, a nationwide party commemorating our fallen troops and our troops who have returned home. History needs to be taught the correct way, we must learn about our ancestors, we must learn about our culture, about our struggles and the abuse of our civil rights, we must tell the truth about Australian history, not the one sided version the liberals want us to hear. We must be acknowledged the Aboriginal people caused acts of terror to the European settlers. We are taught how Captain Cook was a murderer, and the aboriginal renegade Pemulwuy was honoured and considered a hero for the rape and murder of dozens of White Europeans. We must avoid the indoctrination of "tolerance" that is used to profit for the globalized media. We must go full throttle to ensure our media and our education becomes free from corruption.

Chapter 3 : National Socialist Party of Australia - Wikipedia

The National Socialist Party of Australia (NSPA) was a minor Australian neo-Nazi party that operated in the s and s. It was formed in as a more moderate breakaway from the Australian National Socialist Party (ANSP).

Chapter 4 : National Socialist Party of Australia - Infogalactic: the planetary knowledge core

Australia as a federation is nowhere near being a socialist state, never has been and never will be, simply because Australia is a Commonwealth! This means that constitutionally, the federation of independent governments (the states & the co-ordin.
