

Chapter 1 : Rose Calligraphy & Design

Includes tips for adjusting lettering fonts to a project, embellishing lettering and examples of common problems and solutions. Shows 12 step-by-step projects.

You spark the idea in your imagination, and our experienced and creative team of designers will help you bring it to life. And we create it with care. Each decal is custom-made in our Greensboro, NC studio, not mass-produced in an overseas factory. The material we use is a durable resin without any clear film on or around your design, so it really looks like a painted-on stencil! And it can be easily applied to your wall. Even our multi-color designs usually come on a single sheet. And we have other languages in addition to English. Each of these phrases is provided by real people who speak that language as their first language. These are perfect for boosting employee morale and energy. Many of our retail customers enjoy putting evocative lettering displays on their storefront windows to draw customers in. Art galleries, museums, and theatre venues like to use our lettering to label their exhibits or announce a new production. Churches love to display scripture on their walls for their members and visitors to enjoy. The possibilities are endless! How to apply our products WiseDecor believes that a beautiful design should be easy to execute. This is why we make sure that you can conveniently and immediately apply our products so you can enjoy them on your walls in no time. You can expect a friendly, experienced, creative person who can help you realize your vision. She will have the answers and be able to offer you insights that you may not have considered. If you send us an email, the same team will handle that also, usually responding within minutes during business hours. She can help you with variations on one of our designs or help you design something completely unique, sending you mock-ups to confirm that your vision is understood. We also make it easy for you to choose the right size, because we show you the width and height as you make changes. We choose matte materials almost exclusively, because it has the most visual appeal! We also have customers who have applied it to the glass of their boutique in Florida where it withstands the extreme humidity and heat of the afternoon and evening sun. We offer affordable shipping rates, and we have lots of experience with shipping packages around the globe. We will gladly send a replacement to you or refund your money if you are not completely satisfied with our service. In fact, we will even refund the cost of shipping. WiseDecor values your happiness with our decorative lettering and our service. Have ideas and suggestions? We love to communicate with our customers and readers online. After all, hearing about how we can further improve our products and services is the best way to satisfy our customers.
