

Chapter 1 : Free GED Test Preparation and Practice Tests - www.nxgvision.com

We have hundreds of free GED Practice Questions. This is the best collection of GED practice tests that are available online. These are all high quality, interactive tests, designed to be very similar to the actual questions on the new GED.

Diverse ages, multicultural and ethnic backgrounds, gender, socioeconomic groups, and regional differences are considered when reading passages are selected. The reading passages are drawn from both literary and nonfiction writings. Students must use higher-order thinking skills in order to successfully respond to the questions: In some questions, students will be asked to demonstrate that they understand literary uses of language and literary themes. On the Writing portion, the multiple-choice items prompt candidates to make revisions and edits like the ones people make in everyday writing. The passages are drawn from informational and how-to texts, as well as workplace and community documents. There are three question formats in Part I: According to the GED, the skills most test-takers lack include the ability to understand specific details and main ideas in a written source; to determine which details support a main idea; to identify a theme or element of a written source that supports a theme; to analyze relationships within written sources; and to identify proper grammar and spelling. The actual GED will also feature an essay portion. Science The Science portion of the exam deals with skills, such as science as inquiry, or the methods and processes used to "do" science which focus on the scientific method; the interaction of scientific inquiry with technology and tools; the relationship of science to social issues; the history and nature of science; and the overarching topics in science such as systems or change. Social Studies In the final section of the GED Practice Test, students will be asked to show that they can understand and apply social studies information and concepts in national and global contexts. Questions will be based on practical documents such as consumer or voting information, and on key historic documents such as the Declaration of Independence and the U. How to Study for the GED Again, while our free GED Practice Test will give you the opportunity to get familiar with the materials, you should not count solely on it to achieve a high score. If you really want to prepare, we suggest looking into some GED training classes in your area -- particularly through adult education centers -- and perhaps hiring a tutor. Many teachers are open to tutoring students with a desire to get their GED, and may even offer free courses themselves through their school district. Community colleges and universities may also participate in such offerings. As far as best practices go, here are a few you should follow when studying independently: Find the right location. Once your location is set Many test-takers make the mistake of "studying for hours" when their attention span starts to wane after 30 minutes. To get the most out of the study materials, we recommend working in small chunks of highly focused time. Try 30 minutes; then get up and move around for five before resuming for another Treat it as a marathon, not a sprint. Once you know your deadline for the GED, count the days that you have between now and then and give yourself plenty of time to focus on the sections that are giving you the most trouble. By doing a little at a time each night, you can fill in the gaps of your knowledge quicker than you think. Finally, make practice perfect. When you do so, recreate the conditions of the actual exam so you have a feel for the environment. By making your practice efforts "perfect," you will better manage the stress of the actual date. We wish you a perfect score!

Chapter 2 : GED Science Short Answer Guide: Experiment Design Question | GED Practice Test

Download free General Equivalency Development or General Equivalency Diploma (GED) exam Practice Test for better examination prep and review. Some of these GED Practice Test Questions are available with explanation or solution study guide.

It familiarizes you with the actual test format and instructions to ease anxiety and feel positive about taking the test. By being aware of the structure of the test questions, no energy will be wasted on nervousness. We want you to feel confident, so you can answer the test with a clear mind. Know your weak areas and focus on them. These printable GED practice tests have been designed to enable you to tackle your weaker areas that need more attention. Getting more wrong than right answers means you need to focus on the subject. The results will also tell you what subjects and topics you need to work on more. By knowing your weak areas and focusing on them, you save time by reviewing only the subjects you need to focus on. You can then direct your time and efforts to learn areas you find difficult. The test covers math, social studies, science, and reasoning through language arts. The tests only have 20 to 25 questions each. You can easily find time to study no matter how busy you are. You can take the test anytime you wish. The GED practice test may be half the length of the actual test, but it covers all of the criteria of the actual exams covered. Schedule a specific time for study. The best time to study is when you feel energized and alert. Because the GED practice tests are available online, you can choose to study anywhere as long as you have an internet connection. It can be at the park, your favorite coffee shop, or your office. The background noise at a busy coffee shop might also help boost your concentration and focus. Whatever distracts you should be out of your sight. Tempted to check your emails or social media accounts? Eating blueberries, oily fish, nuts, avocados, and broccoli can help improve memory and cognitive function, which can help you study efficiently for the test. Stay well-hydrated by drinking at least 8 glasses of water a day. Naturally, your body needs to stay hydrated so your brain can continue to function at its best. Challenge yourself When studying for the GED test, you can challenge yourself by setting goals. A goal, for example, can be giving you only 3 minutes to answer each question. The GED online math class has over 20 videos divided into three sections: Our GED social studies online class has over 20 videos divided into two sections: These GED practice tests and online classes are completely free, with no registration needed. Open yourself to better education and career opportunities. Make these happen by preparing for the exam early on.

Chapter 3 : Free GED Math Practice Test | GED Practice Questions

Our GED practice test will show you how to apply your knowledge to the GED exam. Taking a practice test is important because the GED is a long, high-pressure exam that has its own unique way of asking test questions though you can take one of the four tests at a time.

In many myths, characters face moral dilemmas involving honor and practicality. The protagonists of epics face creatures that represent values and challenges such as respect, temptation and redemption. How has Greek mythology inevitably evolved with time and new story tellers? Scholars that have interpreted Greek mythology seek to maintain the universal values conveyed in these stories, while ensuring the validity of adapting these stories to their own distinct cultures. It is up to each reader to seek their own truths and learn from epic Greek mythology as best they can. Love is difficult, but it will last if the lovers are meant to be together. Resisting temptation and immediate gratification will lead to ultimate success. It is important to keep track of your personal history. Passing down Greek mythology has taken on a new form since oral records faded. It is not the fastest, but the longest lasting that wins the race. The GED Tests are always given in person at one of 3, testing locations nationwide. Candidates for the GED tests are individuals who have not earned a high school diploma. The GED Tests are standardized regularly by testing a sample of graduating high school seniors. This standardization process sets the benchmark that candidates must achieve to earn a GED credential. Currently, students pass the tests by achieving a GED score higher than the top 60 percent of graduating high school seniors. The GED credential is issued by the state territory or province that the student resides in. The GED credential is typically considered to be equivalent to a high school diploma. Each of the five main GED tests writing, social studies, science, reading, mathematics is scored on a scale of The percentile rank ranges from 1 to The GED Standard Score is intended to compare your performance relative to graduating seniors who took the test. The scoring system is normalized so that the average standard score is for each test in the battery i. The percentile rank measures how you did relative to graduating seniors who took the test. Your GED test score is determined by first calculating your raw score, and then determining a scaled score. Your raw GED Score is determined by giving you 1 point for each correct answer and 0 points for each incorrect answer. A scaled score reduces the impact of different test versions and the students who take specific versions. Some questions are from the following sources: Erik Jacobsen at www.ck12.org - www.ck12.org.

Chapter 4 : GED Math Practice Test | Free GED Practice Test

GED Math Practice Test Answer all the multiple-choice questions in this section.

For this short essay question you will be given 10 minutes to type your answer, which will be scored on a scale of 0 to 3. A stimulus passages will be provided that tells you the goals for an experiment and a list of available materials that may be used. Your task is to write out a plan for the experiment, explaining how it will be setup, how the data will be collected, and how the hypothesis will be evaluated. When you setup the experiment and explain its design, you will be describing the scientific method. Ask a question, and make a hypothesis. Test the hypothesis with an experiment. Analyze the results, and draw a conclusion. Here is a template for these paragraphs: In order to test this hypothesis using the scientific method, the following materials are required: In the introduction, you have showed that you understand the hypothesis being tested, and that you understand what materials you will be using to set up your experiment. You are demonstrating that you thoroughly understand the prompt. In the second paragraph, you will describe the set-up and steps of your experiment. To set up the experiment, first we must set up the independent variables. Now we are ready to begin our experiment! This paragraph will explain what you plan to do with each of the materials from the first paragraph, and most importantly , explain why you have chosen to set it up in this manner. You are describing all the steps to set up the experiment, right up until you are ready to collect data. Data from the experiment will be collected in the following manner: GED Science Short Answer Tips Since you are designing an experiment, it is a good idea to use vocabulary words associated with high school science classes. You will see many of these words incorporated into the template above. If they are relevant to the prompt and to the specific experiment you are creating, then look for opportunities to demonstrate your scientific knowledge by incorporating them into your essay. The definitions are below: Scientific Method â€” The sequence of steps followed in investigating a phenomenon. Independent Variable â€” Something that is controlled by the scientist. Dependent Variable â€” Something that is measured in an experiment by the scientist. Scatterplot â€” A scatterplot is a type of graph with an X axis and a Y axis, used to draw a series of dots, each representing an observation. It can be used to show a direct or indirect correlation between the two variables.
