## TIM DOWLEY

### Chapter 1 : Introduction to the History of Christianity, Second Edition - Tim Dowley - Google Books

*Tim Dowley is author of The Christians: An Illustrated History () and The Student Bible Atlas (), among many other titles on history of Christianity and the Bible. Read more Product details.*

This book is divided into eight manageable sections and packed with solid information. With over 60 contributors, this book is amazingly easy to follow from chapter to chapter. The book contains plenty of maps and charts for useful reference as well as displays of art and culture along the way. The little box cut-outs focusing on significant people, events, or movements are also very helpful. Vaughn This text gives an easy to read, well organized account of key events spanning the early church through the reformation. Easily understood terminology and fully illustrated. The History of Christianity. Lion, Rui Coelho A great resource on the history of Christianity. It tells the reader about the main denominations Catholicism, Lutheranism Articles, pictures, maps, and page layouts including the multiple indexes make it easy to find topics whilst sections are informative and to the point. As a cover-to-cover read, probably a little daunting although the writing style is very accessible but as a one-stop reference, up there with the best. It is split into articles by diverse authors. This makes it more manageable as several sections are rather dry. It is a very good work that is aesthetically pleasing to read and provides the book on CD as a bonus. The only criticism I have of it is that it is simply not as well written or comprehensive as. The one thing I really did learn from it was the Great Awakening of the eighteenth century, which I now realise was a hugely important step towards American independence in religious culture, leading to the political reality. But there was a lot that set my teeth on edge: Apparently the Society for the Propagation of the Gospel was founded in by "devout Anglican clergymen, shocked at the prevalence of Presbyterianism and vice in the American colonies. The closing chapters touch rather superficially on the ordination of women. Homosexuality is not mentioned at all.
