

Chapter 1 : Is it too hairy? Too bald? Is there a weird smell I haven't noticed? | Out & About Nashville

Mike Deupree has worked in the newspaper business since as a sportswriter, reporter, editor, editorial writer, movie reviewer and, for the past 20 years, as a columnist for the Cedar Rapids (Ia.) Gazette.

WhatsApp Vaginas are such divas. Hell, mine might as well be wearing a feather boa right now. Penises are a piece of cake. Going down on a guy is participation-trophy-level easy. Girls on the other hand? Finding the best way to a female orgasm is about as easy as getting through a labyrinth with David Bowie trying to derail your efforts. Vaginas are hard to bargain with. Crying and vaginas are bad combination. Something can always break or go wrong. And vaginas are soooooo offensive. There was an Instagram account where fruit played the role of a vagina and the account was shut down. Was Lafayette that spot on?! I get so self conscious about receiving oral. I start wondering is it too hairy? What if I have yeast infection? Do I need to bleach my butthole?! We do so much to dress our vaginas up. We vajazzle, have tightening surgeries, douche. We treat our poor vaginas this way and why? Are we scared of our genitals in their natural state? Going down on a girl is a bit less stressful. Your vagina can try to escape from your bathing suit one lip at a time or eat the front of your pants and make its existence known to the world. My mom is the worlds worst about rocking a camel toe. Vagina owners can be real divas too. They get real persnickety when non-vagina-owning humans try to pass vagina control laws. If lesbians and bisexual women band together, we could probably do some pretty solid research on the matter â€¦ at my birthday party this year. But I distressâ€¦ Penis owning law makers tend to have vagina envy when it comes to reproductive rights. I mean, jealousy is the only logical reason I can think of for them to take our reproduction so personally. Jealousy must be the answer. But those persnickety vagina owners, like the divas they are, seem to keep insisting on fighting back. They want the right to, like, adopt the child their partner carried or get their tubes tied when they decide or, like, get free STD tests at planned parenthood. You know, real irresponsible stuff. Luckily, middle-aged penis owners are there to stop us before we hurt ourselves by thinking and junk. When it comes to me and my dark cave of devil magic I want to rule over it like a benevolent dictator. So basically, I want to decide how to use it to torture others and how much punishment it can take on my own. Be nice to your vagina:

In this case the person doing the weird things may want to take that feedback to heart and try to act differently. The hard part is figuring out which of your weird behaviors to keep and which ones to try to eliminate. The choices someone makes will also depend on how much their orientation towards changing themselves is based on being pragmatic and adapting to the world vs. Here are some things that may earn someone the weird label: If you make a lot of strange or random jokes people may assume your actual personality is like that. This one is very subjective as well. Many people actually prefer that type of wit. Some people may not think anything of it when you show your random sense of humor. Any kind of social awkwardness This point and the ones below cover behaviors that are more objectively problematic. People often get called weird when they make a lot of social mistakes. Not making enough eye contact? Speaking in a monotone voice? Was asked a question where people normally give a canned response and said something out of left field instead? Brought up a gross subject during a staff meeting? Seemed really uncomfortable and stammered out two-word reply when I said hello? Maybe just shy, possibly weird as well. Again, many people could see this behavior as a sign of shyness, but some would label it as weird too. I could go on and on. Of course just improving your social skills will correct this problem. They get carried away and go overboard with the silliness. The same people often come across as immature in general. A lot of people will label this kind of behavior as weird and see it as pretty off-putting. Like they may say a comment out loud that will entertain them to hear, but will offend or confuse everyone else. At other times they get entertainment simply from acting strange. For example if everyone is joking around about sex, they may mention something they read about the peculiar mating habits of barnacles. They try to be liked at first, but one day they just give up and start acting purposely weird to annoy and provoke the people who ostracized them.
