

Chapter 1 : How Do The Nets Surprise Thee? Let Me Count The Ways - The Brooklyn Game

Universe 3 is an anthology of original science fiction short stories edited by Robert Silverberg and Karen Haber, the third and last volume in a series of three, continuing an earlier series of the same name edited by Terry Carr.

North side of the White House from Lafayette Park. In a previous blog post, I posted a video by Robert Reich on the 10 steps necessary to impeach a president. Watch that video [here](#). After articles of impeachment have been agreed upon, there is a trial in the Senate and before a president may be impeached based on articles of impeachment, he must be convicted on one or more of those articles of impeachment. No president in United States history has ever been convicted on an article of impeachment, and only 2 presidents have been impeached, Bill Clinton and Andrew Johnson in It is a long difficult process on purpose. Generally, according to an article on Wikipedia , they are defined as: Offenses by officials also include ordinary crimes, but perhaps with different standards of proof and punishment than for nonofficials, on the grounds that more is expected of officials by their oaths of office. Constitution was written and did not mean any stringent or difficult criteria for determining guilt. It meant the opposite. The phrase was historically used to cover a very broad range of crimes. To be sure, Mr. Reich is an avowed liberal and no fan of the current president. To me, this gets really close to obstruction of justice when taken together with his previous actions which include firing FBI Director James Comey. The 25th Amendment to the US Constitution: If anyone recalls from their social studies class in high school, we pretty much know that the 25th Amendment is the one that is invoked when the president is unable, usually for a short period of time, to discharge his official duties, like when Ronald Reagan was in the hospital after the failed assassination attempt. And for most of us our understanding of the 25th Amendment stops there. But it goes much further. Wikipedia has a rather full discussion of the process. The President may resume exercising the Presidential duties by sending a written declaration to the President pro tempore and the Speaker of the House. But if the Vice President and Cabinet feel the president is still disabled, they can, in a sense, appeal to the House and Senate which has a short, set time frame to act. Could there be grounds for utilizing the 25th Amendment to remove the president from office? Just last week, the Washington Post reported that Senators Collins and Reid had been caught discussing the president on an open mic, apparently unaware that it was open. A written transcript of the entire conversation and an audio recording can be found at the Washington Post link above. And then just yesterday, our friend Robert Reich posted a conversation he had with an acquaintance who is a former Republican member of Congress. Excerpts from that post follow. You can read the entire conversation [here](#). Seriously, what are you hearing from your former colleagues on the Hill? So what are they gonna do about it? Remember what I told you at the start of this circus? You want to know why he fired Priebus, wants Sessions out, and is now gunning for Tillerson? He wants to shake things up? What do you mean? Sessions is a loyal lapdog. Trump is fritzing out. Yeah, fun to think about, but what are the chances that either option will be utilized? Let me count the ways," many years ago. She was no doubt referring to Robert Browning, her husband, but to this country girl, those words could just as easily refer to potatoes. Ah, potatoes, what would we do without them? You can fry, boil, bake, and make soup. Slice, dice, hash, shred and mash them. You can cook them in their skins, out of their skins or re-stuff them back in their skins. There is even a clock on the market now that is reported to run on potato power. It seems that you hook the clock up to the potato with some kind of wires. At any rate, people have been relying on potatoes for a long, long time. Here in the Blue Ridge, people seem to be even more partial to potatoes than most places. Blue Ridge Mountain people take pride in growing some mighty big, beautiful potatoes. Everyone around knows that he grows some mighty fine potatoes, but I think he was bragging just a little when he told of one of them. It seems that he brought one potato in for his wife, Myrtle, to cook for lunch. They both ate off of it and put the rest away for supper. After eating on it again at supper, it was put away for the next day when their son came over for lunch, when the three of them finally finished it off. One farmer dug a pit one year, filled it with sawdust and planted his potatoes in it. As a child, I dearly loved potato soup. It was my favorite "sick food. What could be more soothing than a thick creamy bowl of potato soup salted and peppered, with a big pat of butter melting slowly in the center? Anyone with a country background will probably remember the tantalizing aroma of a black iron skillet full of potatoes and onions frying in a little fatback grease. Through the years, many recipes have come into being using the versatile potato, many of them as fancy as fancy gets. A friend told me a good one you might like to try. Melt butter in a baking dish. Cut potatoes in half, placing the cut half in the butter. Bake as you would any other baked potato only these will get done in half the time. You also get a bonus of a buttery, crusty side. There are even many uses for leftover potatoes. Leftover baked potatoes can be grated and fried into hash browns. Leftover mashed potatoes can be mixed with a little milk and enough flour to hold them together and made into patties, fried in a frying pan like thick pancakes, or dropped into a deep fat fryer like hush puppies to make into potato puffs. You can even make candy out of potatoes. Boil one medium size potato. When done, mash all lumps out of it until it is very smooth. Keep adding confectioners sugar until you have a very stiff batter. Roll this out thin, and then spread a thin layer of peanut butter over it. Roll it up jelly roll style and refrigerate until firm. Cut into thin slices and you have delicious peanut butter pin wheels. One of my favorites is herbed potatoes. Peel and slice potatoes into thin round slices. Melt one fourth pound of butter in a baking dish. Sprinkle tarragon and chervil into the butter. Dip each slice into the butter herb mixture, coating both sides. Arrange potatoes in rows in the same baking dish and bake in a degree oven until slightly brown, around 30 to 40 minutes. Be sure to spoon butter from bottom of dish over potatoes when you serve them. There are thousands of recipes combining potatoes with other vegetables and meats. The origin of the recipe, I have been told, was Sweden.
