Historical fiction, this novel details the lives of theatre people who travel from Europe to the New World. She must accept the separation from her European friends when she moves to the New World. Of course, New World customs are different from European customs. Natural and manmade tragedies afflict most, if not all, of the characters in *If You Ever Meet a Weasel*. Highly unusual events occur. Personality conflicts vie with conflicts of interests. A famous American war disrupts the lives of some of the characters. Travel to and from the European continent stresses relationships and relatives. However, this novel contains more than tragedies, conflicts and turmoil. Tender moments occur between spouses. Understanding develops among friends. Between employers and employees, friendships emerge to last lifetimes. In dialogs and expositions, the author references historical dates and events. From beginning to end, readers will read about various transportation methods: *If You Ever Meet a Weasel* is an insightful, but fictional, literary experience into theatrical lives. The call to lead and the call to holiness are profoundly intertwined. But in our world today, what does it even mean to be a leader? What does it even mean to be holy? Using the timeless and transcendent wisdom of the saints and the latest findings in business and social science, this book takes an insightful examination of the leadership principles demonstrated in the lives of the saints and their applicability to our modern everyday lives. Faced with challenges where their faith and even their lives hung in the balance, the saints responses exemplify what are authentic, effective, and inspirational models of leadership that we can use to guide us to our eternal destination.

I struggled throughout school and even spent a year in Special Ed. Ed, taught me science and was determined to find the pearl inside this hard, rough shell. He had faith in me and cared. It showed and it worked. My grandfather, Poose, was the most important person in my life—he and Moose were married for 72 years. They entered the Great Depression with a mule and 10 acres of land. The mule died and the dustbowl killed their first and only crop. He then worked his rest of his life for the city sewer department, and dug sewer ditches by hand. He was most proud of holding the state record for hand-digging the most feet of sewer ditch in one day. He proudly and often told me: A Mission of Lifelong Learning For starters, as a young paper-boy on a bicycle route, I was constantly chased by dogs, but still had a job to do if I wanted to get paid. From that, I learned to be fearless. As a janitor in the local mall, I learned to appreciate and respect every single person I encounter, particularly those who can do nothing for me. As a Vo-Tech student in my junior and senior years of high school, with absolutely no intention of going to college, I learned to draw and build houses, and never underestimate the potential of any student. As a truck driver in the oilfield, I learned that no one can do everything on their own, and that the size and distribution of load is always important. As a waiter, I learned to multi-task and relate to people from all walks of life. I also learned to respect our commander in chief and office of the presidency, regardless of whether I agreed with every decision. I also learned that treatment is critical and definitely helps. As a law student, I learned to understand and respect our constitution and our form of democracy. We Need You Now is the time for something truly different in Mississippi that creates a better future for all of us.
