Content[edit] The original album consisted of ten songs on five 78 records , all of which had been previously released. Prior to the long-playing album era , such assemblies were not uncommon for popular music , Merry Christmas instigated by the enormous popularity of the "White Christmas" record. The 78rpm album quickly reached the top of the Billboard Best-selling popular record albums chart [3] in and remained there for several weeks. This recording of "White Christmas," heard on every subsequent pressing, is actually a re-recording of the song as, in an unprecedented occurrence, the master had actually worn out and was no longer usable. Decca and Crosby undertook the remake with the same orchestra and chorus, in an attempt to re-create the original May recording as closely as possible. The original recording of "White Christmas" to this date, has never been stamped on LP records or 45 rpm singles , and has appeared in a few holiday compilation albums on CD. The vinyl LP configuration is the one extant to date, consisting of the entirety of Decca A plus four additional tracks. After the original cast recording to Oklahoma! Although unintentional, the unifying theme, composition, narrative, and lyrics all place this among the earliest released concept albums , predating the LP record itself. Decca reissued the eight song Merry Christmas album in the form of a inch LP in , catalogue Decca DL with its standard brown label. This was the same cover design that had been used on all issues of the 78rpm album. Copies released after featured a newly designed red and green cover. Merry Christmas was also issued as a 45 rpm box set in , catalogue Decca It had the same basic cover with a new yellow background and the same four singles as the 78 rpm album A, and the individual records had the same catalog numbers, in this case preceded by the "9-" prefix. This had the same cover as the second version of the inch LP; each 7-inch single had two songs per side, and the sides were numbered and , respectively. When Decca and the rest of the industry abandoned the inch LP format in , it created a inch LP version of Merry Christmas, catalogue Decca DL, with four additional songs and the now familiar cover with Crosby in his Santa Claus stocking cap as pictured above. This album was exactly duplicated for the re-issue by Geffen Records. Mono copies made after the introduction of stereo have "DL" in the bottom left corner of the front cover. All copies from the s feature the Decca rainbow label. The mono version was temporarily deleted in The re-channeled stereo mixes are considered by many [6] to be inferior due to the addition of artificial reverb, giving the once intimate-sounding "dry" original masters a "concert-hall" sound. This version was only available for a short time. This exists on the black with rainbow, tan, and blue with rainbow labels. While the initial MCA pressings were in re-channeled stereo as on the post Decca issues , the original "dry" mono mixes were restored to several of the later MCA pressings- most notably on the blue with rainbow labels. In Merry Christmas was transferred to compact disc, MCAD and included these same twelve songs in their original mono mixes. Universal Music Group successor to MCA Records changed the name of the album to White Christmas, keeping the contents and the catalogue number unchanged. A new mono re-master was made in and reissued in It was further reissued in , now with catalogue number B This is the one available at present. Note that it still says MCAD on the disc. Notes regarding European versions: In , this version was transferred to compact disc on the MCA label with catalogue number In , it was reissued possibly remastered with catalogue number MCD, and later on with catalogue number MCD The entire album over time, minus the songs "Faith of Our Fathers" and "Danny Boy" which was only on the original album can be found on the double-disc Bing Crosby: This limited edition mono reissue faithfully reproduces the newly designed LP, right down to the album jacket artwork which restores the original "Merry Christmas" title and the period-appropriate black Decca label on the vinyl record. Original track listing[edit] The album issue Decca A consisted of these previously issued 78 rpm records:
