Contact information does not appear in the address book in Outlook Content provided by Microsoft Applies to: Cause This behavior occurs because Outlook requires that you complete the following steps before your contact information is available for you to address messages by using your address book: Install the Outlook Address Book service. Mark your contact folder for use with your address book. Specify either an e-mail address or a fax number for each item that you want to appear when you address messages. Resolution To resolve this issue, follow these steps. Install the Outlook Address Book service To do this, follow these steps, as appropriate for the version of Outlook that you are running. Click to select View or change existing directories or address books, and then click Next. If your Outlook Address Book is not listed, click Add. Click to select Additional Address Books, and then click Next. Click to select Outlook Address Book, and then click Next. Click OK when you receive the prompt that the address book you added will not start until you click Exit from the File menu. Click Exit from the File menu, and then restart Outlook. Click the Address Books tab. Select Additional Address Books, and then click Next. Select Outlook Address Book, and then click Next. Click Close, and then restart Outlook. Click the Accounts Settings tab, and then click Accounts Settings again. Click the Address Books tab. Mark your contact folder for use with your address book On the File menu, point to Folder, and then click Properties for your folder name. On the Outlook Address Book tab, click to select the Show this folder as an e-mail address book check box, type a descriptive name, and then click OK. Click the Folder Properties tab in the Ribbon. Double-click the contact to open the item, and then look at the e-mail address field and the fax numbers field. If there is no e-mail address or fax number, Outlook does not display this contact in your address book when you try to address an e-mail message or a fax message. Microsoft Office Outlook Select the Contact folder. More Information Outlook allows any contact folder to be used by the address book, not just the primary Contacts folder. For example, if you create a new folder of contacts called "Friends" without the quotation marks , you can specify that the contacts in the Friends folder also appear in your address book. To do this, follow the steps that are described in the "Resolution" section. If you click Outlook Address Book instead of clicking one of the folder names, you do not see any contact information. To see the contact information, you must click the specific folder name that contains the contact.
