Mourning Dove & Running Fox: One of the old stories of Silver Springs Silver Springs 7 Brown Dog's Curse: The final chapter of the curse placed on him by Mourning Dove at Silver Springs Silver Springs

Montgomery County police confirmed the victims were located within the building. Their bodies were recovered and they have been transported to the medical examiner where an autopsy is scheduled to be performed on Friday. They have not been identified. A total of 31 residents and three firefighters were transferred to local hospitals with non-life-threatening injuries. The firefighters had minor injuries and were treated and released. Hospital officials said most of the people brought to their facilities were released after treatment. At least people have been displaced by the blaze and several others have been reported missing. Learn more on how you can help the victims of the Silver Spring apartment fire Fire officials said the building is a collapse hazard and they are still working to stabilize the area. The cause of the fire is still undetermined and police are working with fire investigators and the ATF in the investigation. Search teams on the ground and through the air looked for survivors while firefighters continued to battle hotspots. A K-9 team searched through the rubble of the apartment complex. Many residents were housed at a community center while emergency crews continued their search. An off-duty Montgomery County police officer was the one who first reported the fire and building collapse. Fire officials said crews at a firehouse about a mile away from the scene felt a blast before they were called to the scene. When firefighters arrived, civilians on the scene had already begun using ladders to try and rescue people who were trapped on the upper floors of apartment units. The magnitude of the explosion propelled clothing and shoes into the street and nearby trees. People were running out with fire all over their body. People throwing the kids from balconies so they can be saved. Officials said the gas utility company was called to the scene to help turn off supply lines to the apartment units which are all equipped with natural gas furnaces and stoves. At least one woman who lives in a neighboring apartment building said she has detected the smell of gas for a while. I am so afraid. Montgomery County Executive Ike Leggett told reporters a complaint of a gas smell was investigated in the area on July 25, but he did not go into any more details.

Mourning Dove & Running Fox, Silver Springs: one of the old stories of Silver Springs Brown Dog's curse, Silver Springs: the final chapter of the curse placed on him by Mourning Dove at Silver Springs.

Deer Hunting at Silver Springs? I also check in to see how the pheasant hunters have been doing and if there is anyone out deer hunting. I seem to do this at least every other day. I noticed that practically every one on the list gets their limit of birds. You feel sorry for the occasional hunter on the list that records a zero for the day. According to my only source at Silver Springs, Larry is his name, there are fewer hunters getting out. Getting out on standby here used to be pretty rare. The day after Christmas the list was filled twice. Twenty hunters had got out and a few were still out in the woods for the sunset hunt. The areas set aside for deer hunting at Silver Springs are pretty small. The day after Christmas was the first time I had noticed, stuck to the bulletin board, a deer harvest list. I forgot to write down the exact numbers, but for October about 5 deer were taken. For November I recall only 5 or 6 deer taken with the last one on the 24th. For December, only one doe was taken and that was on the 18th. I also drive through Silver Springs on a regular basis on my way to other places. Along the road, through the areas where you can only bird hunt or not hunt at all, I regularly see deer. In the surrounding areas, I see deer out wandering around all the time. A friend that regularly explores the nearby Hoover Forest Preserve has been posting pictures of quite a few deer in the preserves, including a nice shot of a good sized buck. So far this year, dumped on the edges of the hunter parking lots at Silver Springs, have been the remains of seven butchered deer. One deer, a doe, was never butchered. It had been gutted then dumped about 20 feet off one lot. Seems like such a shame to waste all that good meat. For the remainder of the deer season, if I were a deer hunter, I would find someplace else to go. Hunting for birds will continue there till January 8th. Since the other Chicago area controlled pheasant hunting areas are shutting down, a quick check of the T. Miller site shows that there are no more permits available. Up until now, there were quite a few permits that could be had up until the last minute. You just never know.
