Vincent has a paper route. Each morning, he delivers 37 newspapers to customers in his neighborhood. It takes Vincent 50 minutes to deliver all the papers. If Vincent is sick or has other plans, his friend Thomas, who lives on the same street, will sometimes deliver the papers for him. Vincent and Thomas live in the same neighborhood. It takes Thomas more than 50 minutes to deliver the papers. It is dark outside when Vincent begins his deliveries. Thomas would like to have his own paper route. The Pacific yew is an evergreen tree that grows in the Pacific Northwest. The Pacific yew has a fleshy, poisonous fruit. Recently, taxol, a substance found in the bark of the Pacific yew, was discovered to be a promising new anticancer drug. Taxol is poisonous when taken by healthy people. Taxol has cured people from various diseases. People should not eat the fruit of the Pacific yew. The Pacific yew was considered worthless until taxol was discovered. Erin is twelve years old. For three years, she has been asking her parents for a dog. Her parents have told her that they believe a dog would not be happy in an apartment, but they have given her permission to have a bird. Erin has not yet decided what kind of bird she would like to have. Erin does not like birds. Erin and her parents live in an apartment. Erin and her parents would like to move. Tips to Make Study Interesting Q. Tim would be better off taking the bus to work. Many commuters will complain about the new train schedule. Tim will likely look for a new job closer to home. When they heard news of the hurricane, Maya and Julian decided to change their vacation plans. Instead of traveling to the island beach resort, they booked a room at a fancy new spa in the mountains. Maya and Julian take beach vacations every year. The spa is overpriced. It is usually necessary to book at least six months in advance at the spa. Maya and Julian decided to change their vacation plans because of the hurricane.

Chapter 5 : Navodaya Vidyalaya Mock Test Class VI Practice Set JNVST Model Paper

Navodaya Vidyalaya Entrance Exam Question Paper Jawahar Navodaya Vidyalaya Selection Test (JNVST) Previous Year Entrance Exam Question Papers, Model Papers, Sample Papers are available with solutions for download in pdf format along with information on the exam Pattern, exam dates, syllabus for class 4th, 5th, 6th, 8th, 9th and 10th classes.

Composition of the Test The selection test will be of two-hour duration and will have 3 sections with only objective type questions. There are questions in all of marks. Each question carries one mark: A single test booklet comprising of the 3 sections will be given to each candidate. Method of Recording Answers a A separate Answer sheet will be provided. Candidates are required to indicate their answers at an appropriate place on the answer sheet itself. A copy of specimen Answer Sheet is enclosed. Candidates should bring their own ballpoint pens. Use of pencil is strictly prohibited. The candidate is required to select correct answer and indicate correct corresponding number 1, 2, 3, 4 given against the probable answers on the answer sheet. For example if your answer for Question no. Overwriting, cutting and erasing on the Answer Sheet is also not allowed. In case test booklet of correct language opted for is not provided, the candidate should get it changed before start of the examination. It is the responsibility of the candidate to obtain the test booklet of his choice as opted in the application form. No representation in this regard will be entertained after the examination is over. Therefore, the candidate should not spend too much of time on a particular question. This will help to save time. Candidates are advised not to spend more time on each section of test than suggested, although they are free to adjust the total time, as they like. Questions are based on figures and diagrams only. Questions are meant to assess general mental functioning of the candidates. The section is divided into ten paras having 5 questions each. Given below are some examples: In questions 1 to 5, four figures 1, 2, 3 and 4 have been given in each question. Of these four figures, three figures are similar in some way and one figure is different. Select the figure which is different. In questions 6 to 10, a problem figure is given on the left side and four answer figures marked 1, 2, 3, 4 are given on the right side. Select the answer figure which is exactly the same as the problem figure. In questions 11 to 15 there is a problem figure on the left hand side, a part of which is missing. Observe the answer figures 1, 2, 3, 4 on the right hand side and find out the answer figure which without changing the direction, fits in the missing part of the problem figure in order to complete the pattern in the problem figure. In questions 16 to 20, there are three problem figures on the left hand side and the space for the fourth figure is left blank. The problem figures are in a series. Find out one figure from among the answer figures given on the right hand side, which occupies the blank space for the fourth figure on the left hand side and completes the series. In questions 21 to 25, there are two sets of two problem figures each. The second set has a mark of interrogation? There exists a relationship between the first two problem figures. Similar relationship should exist between the third and fourth problem figure. Select one of the answer figure which replaces the mark of interrogation. In questions 26 to 30 one part of a square is on the left hand side as question figure and the other one is among the four answer figures 1, 2, 3, 4 given on the right hand side. Find out the figure that completes the square. In questions 31 to 35 there is a problem figure on the left side and four answer figures marked 1, 2, 3, 4 are given on the right side. Select the answer figure which is exactly the mirror image of the problem figure when the mirror is held at X Y. In question 36 to 40 a piece of paper is folded and punched as shown in problem figures on the left side and four answer figures marked 1, 2, 3, 4 are given on right side. Select the answer figure which indicates how the paper will appear when opened unfolded. In questions 41 to 45 a problem figure is given on the left side and four answer figures, marked 1, 2, 3, 4 are given on the right side. Select the answer figure which can be formed from the cut-off pieces given in the problem figure. In questions 46 to 50 a problem figure is given on the left side and four answer figures, marked 1, 2, 3, 4 are given on the right side. All the Twenty-five questions of this test will be based on the following 15 topics 1. Number and numeric system. Four fundamental operations on whole number.

DOWNLOAD PDF NAVODAYA ENTRANCE EXAM MODEL PAPERS FOR 9TH
