Chapter 1 : Thanksgiving Sales are Upon Us! Get this Deal on Crock-Pot Slow Cooker Recipes Cookbook

This cookbook is a new copy of a 30 year-old cookbook. I know recipes are easily found on the internet, but I wanted to replace my much loved, and used copy of this classic crockpot cookbook. So happy to have a new, clean copy of this Better Homes and Gardens classic.

Super Simple Meatball Veggie Soup Taco Chili with Cornbread Topping Every recipe cooks for the first time in your crockpot so it tastes exactly like a freshly prepared meal just without all the work! Everything from the grocery lists, nutritional information, and freezer labels was so well thought out I was thoroughly impressed. It is so nice to come home after working hours to have a meal ready to go. Taste is awesome, FULL of veggies, super fast prep and just a win in all circumstances! So far everything has been great! No one makes it this simple and thought out. No more random trips to the grocery store. Remember, people cook raw meat and vegetables together in their crockpots and ovens all the time! You will also cook the food before eating it. Do freezer meals actually taste good? That means they taste like freshly-prepared meals and not like leftovers at all. Are the recipes healthy? I try to eat as many vegetables as possible and very limited amounts of processed foods. How long will a freezer meal last in the freezer? Most freezer meals will last in a standard fridge-freezer combo for at least 3 months. How many servings are in each recipe? It varies per recipe, but the average is six. If you are cooking for less people, split each recipe into two freezer bags and cook in a smaller crockpot quarts. All of my eCookbooks are printer-friendly pdf files. They can be read on computers, smartphones, and tablets No special e-reader required. They are also formatted to print on regular 8. After making a purchase, you will be automatically redirected to a page where you can download your copy of the eBook. You will also be emailed a copy to save to your computer. Thank you for your support!
