Sep 12, Crystal Starr Light rated it did not like it Recommends it for: Church Library Lady Shelves: Now she lives in Cedar River. The musical keeps her busy during the summer. The Hi-Fives is a club of the most popular girls in town. Jennifer joined the Hi-Fives. Should Lexi join the Hi-Fives or will she be compromising her quirky, individual spunkiness? But does Todd like her? Appropriate questions to ask: Once upon a time, there was a church library. This church library gave out gold coins to kids who would checked out books, coins which could then be used to purchase things. Being an avid reader, this was like hitting the lottery "being paid to read! But I was also a teenager at the time about And THIS is pretty much all they had. And you know what? But I wanted the coins. So I read them. Fast forward many, MANY years. We got to talking about these books when I opened the can of worms and asked if Carmen had ever read Cedar River Daydreams. And thus a Buddy Reads was born! Time changes a person, so I was not quite sure what to anticipate when this book came through the Interlibrary Loan. It was only pages! I mean " WOW! Most young adult contemporary books these days are like pages! And more charmingly, inside the cover was a line of library due date stamps ahhhh, the memories! Teenaged dating relationships are treated really well. But I think I need to stop right there, because even those compliments are really more than this book deserves. Inside this book is one of the most god-awful, embarrassing crappy novels I have ever read. The first thing that hit me is the absolutely atrocious writing. They all know about her beliefs, her values, her faith. I honestly at a loss for words to describe how awful it is! Plot events happen missing dress but if you have been paying even a modicum of attention, you can figure out what happens as soon as they appear. Where was she 50 pages ago? And she was never mentioned before because? There is absolutely NO consistency in this book: Practice is on Monday. Did we skip Sunday?? So what does she do? And these are just a FEW of the instances I found! Well, if the usage of the r-word bugs you, you will need to avoid this book like the plague. And not just the bad guys say it " which MAY have made it acceptable. Lexi just blurts it out to a girl she barely knows! Again with the consistency! Why did God pick my family? Why did I get stuck with Ben? Why did God do this to me? Am I being punished? Because yeah, this book goes there too. At one point, Lexi is applauded for standing up to the Hi-Fives good. But the problem comes when Mrs. One of the reasons that his lawyers are using to get the domestic violence charges on Ray Rice dropped is that Janay stayed with him and even married him " so it must not have been that bad right? This is absolutely the wrong way to treat this situation. Jennifer is like many individuals trapped in a harmful environment. This feeling undermines ALL the people stuck in these relationships, stuck there because of love, a need for acceptance, and fear of the unknown or being alone. The characters make cardboard look 3 dimensional. Like I mentioned above, characters are obvious, artless, unsubtle, and crude. I appreciate that Mrs. Leighton speak to either Ben or Lexi? Remember what the Bible says about forgiveness. Lexi herself is just the weirdest protagonist ever. Part of me would like to punch her, for whining about her picture perfect life and moving and all the other trivial problems she had. She was gorgeous, blonde-haired, skinny size 5? At the end, everyone who is a good person loves her; she has a boyfriend; she has TWO girlfriends; her parents love her; her brother is enamored of her. Though I will say this: Where the hell is Mr. On her first date with Jerry, "He appraised her looks with a practiced eye He takes credit for Lexi sounding good in the duet: He assumes Lexi is his girlfriend without even asking her and THEN gets upset and rails on her for not telling him about Ben. The Hi-Fives are also bad because they 1 try on shoes they have no intention on buying?? BUT it was 75 cents! Lexi acts as if Minda did something terrible, like murder or arson or perhaps Watergate. So things like stealing 75 cents become a showstopper. Towards the latter half of the book, Minda becomes the singular Mean Girl. She is bad because Daddy hits her and Mommy is a drunk " poor rich girl! Knowing what I do how the series continues with her just makes me sad! Last, but not least, this book does NOT age well. Even her jewelry - a tiny rhinestone brooch - was more subdude than usual. I certainly did NOT expect that when I reread this book. But the
