

*Industrial organization adds real-world complications to the perfectly competitive model, complications such as transaction costs, limited information, and barriers to entry of new firms that may be associated with imperfect competition.*

Some programs take about 5 months to complete, if pursued full-time and may thus require about three or four courses. Students might take away a stronger grasp of organizational behavior with supportive topics such as corporate ethics and management theory. Key concepts could include motivation, diversity, work stress, conflict and negotiation, decision-making, personality, and attitudes. What Is an Industrial Organizational Psychologist? Industrial organizational psychologists apply principles of psychology to human resources, administration, management, sales, and marketing problems. Their role could include policy planning. An I-O psychologist might set HR strategy during a merger and acquisition. Or, coach executives so that they could provide solid leadership, motivate staff and make marketing decisions based on a grasp of consumer behavior. Most clinical and counseling psychologists need a PsyD, an internship, and at least 1 to 2 years of supervised professional experience. They also must pass the Examination for Professional Practice in Psychology. Do you want to be a scientist? Do you want to incorporate both say, by consulting? With this in mind, what do graduates of a given program tend to do? What are the internship or externship requirements? Does the industrial organizational graduate school on your list help students find such opportunities? How accessible are the professors? If the program is online, what type of support is provided? Study with others, at set times each week which could include evenings and weekends. Look for industrial organizational psychology graduate schools in a preferred location – city, state, country with the on-page filters Online: Study through a virtual campus which might connect you to live streaming video or pre-taped classes which you could access anytime, from anywhere. If that is a go, look for industrial organizational psychology graduate programs online on the menu Hybrid: Study through a low-residency format that could highlight some on-campus courses where you get to meet faculty and classmates as well as learn independently on the computer. Industrial organizational psychology schools set their own standards, so some Industrial Organizational Psychology Graduate Programs may be more competitive than others. More competitive I-O psych programs might require submission of GRE verbal reasoning, quantitative reasoning and analytical writing scores. They might also require a personal interview. Apply to Industrial Organizational Psychology Graduate Programs in New York Easily choose your perfect degree out of our list of industrial organizational psychology graduate programs from partner schools. Find one or more you want to apply to? Contact schools immediately – we provide an on-page form for your convenience.
