The to model year interior look was retained. The Twin I-Beam front suspension was replaced by the wishbone-style system found on the Explorer and the front half of the frame was of "boxed", rather than C-channel construction. Rack and pinion steering was also added. The four-cylinder engine was increased to a 2. Also, for the model year, amber rear turn signals were discontinued. This system proved to be rather unreliable and was changed to a live axle setup in mid Also in , the five-speed automatic transmission that was introduced in for the 4. The Ranger received a facelift, including a new grille, hood, and front bumper, as well as updated headlights and taillights. SLP produced a version of the Ranger, called "Thunderbolt". This model included different options, such as a unique front and rear bumper, air intake, exhaust and even a spoiler. In , the Ranger received minor updates to the grille, hood, and front bumper. New front bucket seats were also added in to meet the new U. It retained the dashboard lines of the previous years trucks with an instrument cluster change. In , the Ranger received more minor updates to the grille, front side markers and taillights, along with a bigger rear Ford logo that was now centered in the tailgate. It also received new larger mirrors similar to those found on other Ford trucks and SUVs. In December , Ford announced that specially designed custom graphics would be applied to the Ranger, beginning with the models. The feature was exclusive to Ford Dealers and allowed customers to pick a design that they wanted customized for their Ranger trims. The latter two included Sirius radio as an optional feature. The exception was the Toyota Tacoma , which also got an "acceptable" rating. Also, electronic stability control was added for the models as standard equipment. Inside, the Level II package added two-tone cloth seats, optional leather and rubber floors along with a six-CD MP3 headunit as standard options. According to Ford, 17, Level IIs were built from through including the [ clarification needed ] , and 45, of the Off Roads were built from to In the Ranger discontinued the FX4 trim level for the U.
