

Chapter 1 : Program: Nutritional Sciences - University of Florida - Acalog ACMS

College: Agricultural and Life Sciences; Degree: Bachelor of Science; Credits for Degree: ; Additional Information; Related Food Science and Human Nutrition Programs; To graduate with this major, students must complete all university, college, and major requirements.

Whether your interests lie in the linkages between nutrition and cancer, obesity, toxicology or one of the many other highly diverse areas of study there is a program with your name on it. Our understanding of the importance of nutrition in human health has increased dramatically in recent decades, and with it, the need for professionals who are well-versed in nutritional science. What kind of Nutritional Sciences degree should you get? Do you want to become a Registered Dietician? A community health worker? There are programs that cater to all of these career goals and more. Program websites will help you find research emphases, field opportunities, and available areas of study. Online degrees have come a long way from their dubious beginnings. You can now earn the same credential from a highly respected institution, in a highly engaged learning format without leaving home to do it. How much money do people make with a Nutritional Sciences degree? As more people recognize the importance of nutrition to overall health, demand for nutritionists and dietitians has grown considerably. Currently, the US Bureau of Labor Statistics projects that employment of dietitians and nutritionists will grow by 15 percent by much faster than the average for all occupations. And there are many other jobs for those with advanced training in Nutritional Sciences. What can you do with a degree in Nutritional Sciences? And the degree program you choose will largely determine your future career. A research-oriented program will prepare you for doctoral studies and a career in post-secondary teaching and research. A practitioner-oriented program might open doors for jobs in administration in public health programs, health and wellness professions, as well as technical positions at food, pharmaceutical, and chemical laboratories. What are the requirements for a degree in Nutritional Sciences? And most admissions teams will want to see your GRE scores. Because this is a science-based degree program, there are also common prerequisite courses.
