

Chapter 1 : Easter Basket Printable

Easter is coming, and there are few better paper crafts for this springtime holiday than handmade baskets. In this post, we'll share a FREE Easter basket template, plus instructions on how to weave mini paper baskets that you can fill with decorated eggs, sweets and other Easter treats.

Fold each piece in half crosswise with the pattern on the inside. Make these measurements on both pieces, and place the fold at the bottom, as shown. At the folded edge, measure 2" in from the right side and make a mark. At the top edge, make a mark 2" in from the right side. Then, draw a line from the marks to the corners, as shown. Cut both pieces along these lines. Then, place one with the fold at the bottom, and the other one crosswise over it, matching the bottom edge. Reverse the orientation and make the same mark on the other piece. Divide the width of each piece into 4 equal parts. Then, make a dot at each inch. Draw parallel lines at these dots, stopping at the line you drew in Step 3. Cut along these lines, stopping at the line you drew in Step 3. Do this to both pieces of paper. Unfold both pieces and re-fold them in half with the pattern facing out. Place them in this orientation. There are lots of good tutorials on the web for this part of the process – my favorites are at [Gingerbread Snowflakes](#) and [Amazing Moms](#). Now that the weaving is done, carefully fold up the bottom point of the basket as shown. The pattern on the tip should match the pattern of the weaving. Crease this fold with a bone folder or the back of your thumbnail. Use a craft knife to make a small slit through the folded tip and the layer of paper behind it. You could also trace a circle with a template. If you have fancier flower punches, feel free to use them. Punch or cut a hole in the center of the flower. Poke a brad through this hole. Now poke the ends of the brad through the slits you cut in the basket. Flatten the back of the brad out to secure it. Cut the top of the basket into a rounded shape. You can use a round template, like a plate or bowl, or just cut it freehand. If you have decorative scissors, this is a great place to use them. Hold them together with a paper clip while the glue dries. Cut a 2" x 12" strip from one of the leftover pieces of paper. Fold this in half lengthwise, pattern facing out, and glue it together in the center. This is the handle of your basket. Glue the ends to the inside of the basket. Add more flowers or other embellishments like ribbon, buttons, etc. Diane Gilleland produces [CraftyPod](#), a blog and bi-weekly podcast about making stuff. Her first book, [Kanzashi In Bloom](#), will be out in July.

Chapter 2 : Quick and Easy Paper Basket How To - Sweet Anne Designs

For a paper plate Easter basket, cut a handle out of the top half of two paper plates and punch holes around the bottom half. Sew the plates together, decorate and add grass and candies or eggs. Sew the plates together, decorate and add grass and candies or eggs.

Birthday Paper Easter Basket Instructions This paper easter basket design from my sister is just the sweetest! It is so quick to make too! All you need is a square sheet of paper or card, and some scissors and glue. **Materials** You will need Sheet of paper or card. A 6" 15 cm square makes a nice mini-basket. Pencil Adhesive tape or glue **Optional: Paper Easter Basket Instructions** **Step 1:** Place your paper nice-side-down. With a pencil and ruler, draw an evenly spaced 3 by 3 grid onto the square, as if you were going to play noughts-and-crosses. I usually use a 6" square of paper, so my lines are spaced 2" apart. Fold and unfold along each of the lines to make a crease. See how in the photo from step 1, the lines going in from the top and bottom are drawn a bit darker? Well, you want to cut along those lines, so that your piece of paper looks like this: Fold up the left and right sides of the paper to turn it into a basket like this. Tape or glue the folds into place. **Step 4** Use a thin strip of paper to make a handle, and tape or glue it on. The strip should be about the same length as your square, e. I used a 6" square to make my basket, so I used a 6" long strip to make the handle. I also put some brads through the base of the handle just to make it shiny: You might also like
