Vol Reel - Alabama Federal Population Census Schedules - Franklin and Greene Counties: Population schedules of the eighth census of the United States, , Alabama [microform] by United States.

Images reproduced by FamilySearch. Sixth Census of the United States, NARA microfilm publication M, rolls. Records of the Bureau of the Census, Record Group National Archives, Washington, D. In addition, the names of those listed on the population schedule are linked to the actual images of the Federal Census, copied from the National Archives and Records Administration microfilm, M, rolls. Each name is associated with two images as the census schedule was two pages long. Enumerators of the census were asked to include the following categories in the census: Additionally, the census, asked for the first time, the ages of revolutionary war pensioners and the number of individuals engaged in mining, agriculture, commerce, manufacturing and trade, navigation of the ocean, navigation of canals, lakes and rivers, learned professions and engineers; number in school, number in family over age twenty-one who could not read and write, and the number of insane. The categories allowed Congress to determine persons residing in the United States for collection of taxes and the appropriation of seats in the House of Representatives. Few, if any, records reveal as many details about individuals and families as do the U. The population schedules are successive "snapshots" of Americans that depict where and how they were living at particular periods in the past. Because of this, the census is often the best starting point for genealogical research after home sources have been exhausted. The United States was the first country to call for a regularly held census. The Constitution required that a census of all "Persons The first nine censuses from were organized under the United States Federal Court system. Each district was assigned a U. Governors were responsible for enumeration in territories. The official enumeration day of the census was 1 June All questions asked were supposed to refer to that date. The count was due within nine months, but the due date was extended by law to allow completion within eighteen months. By , there were a total of twenty-six states in the Union, with Arkansas and Michigan being the latest additions. The two new territories of Wisconsin and Iowa were also enumerated. Taken from Chapter 5: Research in Census Records, The Source: William Dollarhide, The Census Book: This census gives the name of the head of the household and tallies other family members by age range, slaves owned, occupational information, and the names of pensioners from military service.

Images reproduced by FamilySearch. NARA microfilm publication M, 1, rolls. National Archives and Records Administration, n. In addition, the names of those listed on the population schedule are linked to the actual images of the Federal Census, copied from the National Archives and Records Administration microfilm, M, rolls. If you do not initially find the name on the page that you are linked to, try a few pages forward or backward, as sometimes different pages had the same page number. Enumerators of the census were instructed to record the names of every person in the household. Added to this, enumerators were presented with printed instructions, which account for the greater degree of accuracy compared with earlier censuses. Enumerators were asked to include the following categories in the census: No relationships were shown between members of a household. The categories allowed Congress to determine persons residing in the United States for collection of taxes and the appropriation of seats in the House of Representatives. Few, if any, records reveal as many details about individuals and families as do the U. The population schedules are successive "snapshots" of Americans that depict where and how they were living at particular periods in the past. Because of this, the census is often the best starting point for genealogical research after home sources have been exhausted. The database presently includes the following states and territories: The United States was the first country to call for a regularly held census. The Constitution required that a census of all "Persons The first nine censuses from to were organized under the United States Federal Court system. Each district was assigned a U. Governors were responsible for enumeration in territories. The official enumeration day of the census was 1 June All questions asked were supposed to refer to that date. By , there were a total of thirty-three states in the Union, with Minnesota and Oregon being the latest editions. There were no substantial state- or district-wide losses. A Guidebook of American Genealogy, ed. William Dollarhide, The Census Book: Learn where your ancestors lived, who lived in the household, ages, places of birth, occupation, and more.
