It helps them get through difficult times and it makes them feel happier in general. When it comes to nursing, it is a very serious job, and the reason why is because it involves taking care of sick people, which means that nurses have to be very careful when doing their job. Even though nursing is a very serious job, even nurses sometimes find themselves in situations that are weird – actually, they are so weird that they are funny. This is why funny nursing stories are some of the most interesting and amusing stories to read. When something weird happens during the shift, nurses can be just as funny as their patients are. The following are some funny nursing stories that might just make your day. So, relax and enjoy! After spending six hours with the patient, the nurse changed her diaper, but became worried as soon as she realized that the diaper was completely dry. The reason why she was worried so much is because she knew that her patient received doses of furosemide on a regular basis, which means that she should have a lot of urine output by that time. She saw that her patient was just coming out of the toilet, which was very weird because her patient was wearing diapers the whole time. Once her patient got out of the toilet, the nurse told her that there is absolutely no need for her to go to the toilet, and the reason why is because she is wearing diapers. She actually thought that it was just some kind of an extra warm and extra thick underwear! Everything was going fine for some time. But all of a sudden, every person that was part of her unit became busy with a number of patients that were involved in some kind of a vehicular accident. The nurse recognized one of the patients – it was a well-known actor. As soon as she saw him, she fell in love with him, but she somehow still managed to act professionally. The nurse had to check his blood pressure, so she kindly asked him to take off his jacket. Well okay maybe not all of us. Thanks for reading our blog! Check out a few more stories here:

We all need a good start to our weekends. Anyway, I never have awesome jokes right off hand. I like to make humor on the fly. So, I asked you all on my Facebook page for your Best. In fact, you delivered a few posts worth of them. I will now be a funny old man someday. Or just plain wrong. Or skip straight to them. Whatever floats your boat. A man was walking down the street, followed by six penguins. Well, the very next day, the same police officer sees the man and he still has the six penguins following him. However, the penguins are now wearing sunglasses. Grassâ€¦ I lied about the wheels! Panda walks into a bar, sits down, eats, shoots a gun and leaves. Bartender follows him out and asks him why he did that. Panda says to look up panda in the dictionary. What did Spock find when he looked in the toilet? Waaaattttaa water said the same as hiya!!! Printer Friendly The Movie: Funny Factory with Goofy Vol. Goofy, Donald, and Mickey frantically try to clean a large clock, with hilarious mishaps that ensue, similar to any time the three of them try to work together. A tongue-in-cheek examination of the trials and tribulations caused by dog ownership, featuring Goofy as a dog owner, which is curious given that most Disney fans have concluded that he is one himself! His child pushes him out of the bed, then wakes up and practices his trumpet, his wife is vacuuming, and a friend stops by to see if he wants to play tennis. He fares no better when he gives up trying to sleep and decides to take his son to the beach. Goofy, always at his funniest when engaged in activities involving the outdoors or exercise, endures a series of waterskiing mishaps. This disc, despite the dearth of special features and a relatively short run-time of 52 minutes, is still worthy of your consideration, especially for longtime Disney fans and parents who want to introduce their children to the early beginnings of the Disney franchise without having to fork over the money for more extensive and expensive releases. Parents, be warned that some scenes feature Goofy getting injured, and because these clips are so old, there is a scene with gunplay. It is tame, however, compared to some of the aggressive language and situations featured in cartoons aimed at older kids on channels like Nickelodeon and Cartoon Network. Presented in fullscreen 1. When you think about it, Disney has really become the standard-bearer for DVD technology, especially in terms of family entertainment. Also, considering the age of some of these cartoons, where one might expect it to be flawed in many ways, the picture is gorgeous. This disc contains both English and French language tracks recorded in Dolby Digital Mono, as well as English subtitles. The sound quality is excellent, even on the on-screen menu. No extras to be had here, but the cartoons can be watched either consecutively or selected individually from the on-screen menu. Because I possess XX chromosomes, I have difficulty understanding the fascination, but I thought I would throw in the whole farting thing for added value. This disc is a solid investment. Being a Donald Duck kind of girl myself, I was never much of a Goofy fan, but I was charmed by the inclusions on this disc. Whether young or old, there is something for everyone on this disc.
