

## Chapter 1 : Riccar - Home Page Content

*World-Class Clean. Your home is an investment, and your oasis. That's why Riccar vacuums aren't just designed for your refined aesthetic - they're made in pursuit of perfection, a machine for world-class clean.*

Oddly enough, they make both sewing machines and vacuum cleaners. Both are of exceptional quality. Riccar makes vacuum cleaners for both home and commercial use. If you have a lot of carpet at home, you might consider a commercial model, although the top models of each category are very similar. Their smallest vacuums have been life savers for so many people. With the baby boomer generation getting older, a lot of families are going through problems with independence. At 8 pounds and simple to push and operate, the Riccar Supralite RSL3 and RSL4 models are perfect for elderly people, people with limited mobility, and even people in wheelchairs. If you have children, these models are also light enough for them to participate in the chore of vacuuming earlier. These lightweight Riccar vacuum cleaners are also great for people who have two-story houses. Vacuum Specifications These two models both operate on 5. They have low emissions and excellent HEPA filters to trap dust and particles. The RSL4 model has 6 wheels for easier maneuvering, two speeds of cleaning, and a squeegee for bare floors. With all the new technology available, a lot of vacuums have become difficult to operate. There are just too many buttons and indicators. It has done equally well in other testing comparisons. For a lot of power in a little package, RSL3 for carpets and RSL4 for bare floors and carpets are definitely great buys. The Rest of the Riccar Vacuum Cleaner Lines Riccar makes central vacuums that cover 4, to 20, square feet for both home and commercial use. They also make several lines of canister and upright vacuums designed to be light and easy to operate while not sacrificing powerful suction. They use stainless steel on all of the important parts for much longer life than the usual plastic on the release step, the bottom plate, the brush bar, and motor parts. The Radiance upright series has amazing features like an automatic brush roll jam detector. If something gets caught thread, a sock, draperies , the brush roll will automatically stop spinning and a bright, easy to recognize light will let you know there is a problem. There is a light next to it that tells you when your bag is full. The Radiance actually has a 7-step filtration process! There is also a six year warranty on the Radiance, which is very rare among vacuum cleaners. The Premiere line has both household and commercial vacuums. The warranties are longer for home use, even if you buy a commercial machine. The commercial and higher end home vacuum cleaners have more than one motor fan and longer cords up to 40 feet. Several home and commercial models have six levels of adjustment for all types of flooring and carpet piles. The canisters and most uprights all have excellent accessories usually 5 that are conveniently standard and easy to attach. Many of the models have a lifetime guarantee on the belts! Riccar vacuum cleaners are available through vacuum cleaner dealers who also service them if necessary or online. Whether you choose the ultra-light model, canister, central, or any of the other home or commercial uprights, you can be sure to have a vacuum that will last. If anything does go wrong, you will be pleased with the lengthy warranties. Riccar vacuums are definitely an excellent buy. Born and raised in Seattle, Washington, Mrs Clean Corina Wilson is not only the owner of the company, but a very busy mother of 3 children. The battle seems to never end When Mrs Clean is not busy managing her house cleaning company or running her kids back and forth to their events, she enjoys experimenting with natural and non-toxic cleaners and learning new techniques to remove stains. She thoroughly enjoys sharing her valuable information with the readers of her blogs and various social media sites. You can also find us on Facebook and Twitter. Like Mrs Clean on Facebook.
