Chapter 1 : Class 5 | Science Olympiad exam preparation guide - Olympiad tester

National Science Olympiad (NSO) is aimed to search and encourage talent of students in science. Students of class 2 to 12 from across India and abroad can appear for this examination. NSO is conducted in two levels.

Learning is not about completing the course or remembering the content. It is about making the concept clear. It also highlights the areas demanding attention so that Kids can make out where to concentrate and what to improve. It provides an objective, in-depth practice platform to the students preparing for various Olympiad examinations. So the student does not get adequate time for the preparation. With "Chapter-wise Test Generation" feature students can start their Olympiad Exam preparation as soon as they complete their first chapter. To provide our learners; more realistic feel while taking a practice test, we offer an option to select Exam pattern. Detailed Diagnostic Report After each test, the student will get a detailed strength and weakness report that contains students performance break-up at the chapter level. This way you can make out which one is your weak section. And you will get to know in which area you need to work more. Percentile Performance At the end of each mock test, Kid is presented with the percentile score. This feature helps the Kids to evaluate their preparation. Descriptive Answers The descriptive or detailed answer will be provided to each difficult question. At times, it happens that you want more explanation of a particular question then you are always welcomed. You can send us feedback or your doubts, and you will be receiving a reply within 48 hours by the individual subject teacher. Ask Doubts As our services are completely online, it enables us to be connected. Our tool allows Kids to send feedback on the questions asked in our online tests. A Kid can seek description or explanation on any question asked in our test papers. Students also have option to ask questions related to their course.
