Posted in Who are they? When they disembodied, their own "spiritual brightness" raised them to a higher plane of Light. These are the so-called Ascended Masters or Masters of Light. One of the best known Ascended Masters is the Master Saint Germain, who recently was the guardian of the Violet Flame, a distinction that was inherited from the sublime Kwannon until Johnakan Ur-El, the twin soul of the Master Jesus was elected as the new director of the Seventh Ray. The Violet Flame represents the ceremonial order and ritual magic. His virtue is the ritual and ceremonial magic. In that incarnation his role was remarkable since he helped him and was supportive to the illuminated and when he left his physical body and the disciples of Siddhartha were wondering who would take his place. Ananda answered to them with another question: Since he got no response, he continued saying: The precepts of Siddhartha are now our guide. There was no one better than John to understand Jesus. His loneliness, when the Apostles did not understand his message. His sadness, when seeing that men did not allow him to alleviate their sufferings. His pain, when he noted that betrayal was inside his group. His strength, to overcome ego that wanted to have control over him. His fear, when it had control over his human body. His love, which John also felt in spiritual resonance. Johnakan Ur-El witnessed that. His virtue is Devotion and Idealism. Although the First Ray is not currently in effect. The virtue of El Morya is inspiration. Another of the Ascended Masters is the Buddhist philosopher Nagarjuna, who developed the concept of shunyata, "emptiness" or "voidness. The emptiness is absolute knowledge, which does not use concepts being beyond discrimination. Nagarjuna lived in Southern India in the second century AD. The Master showed the following example: Fire will not burn if firewood is not lit, so it needs firewood to exist. In addition, firewood could not be called firewood if there was no fire, without it, it would only be characterized as common pieces of wood. Nagarjuna reached the conclusion that it can be said that fire and firewood have an independent existence of each other. But at the same time we cannot say either that they do not exist at all. What is the answer? They both exist in the state of "emptiness" and they need each other in order to have real existence. To reinforce the concept, he presented the following parable of the Chinese philosopher Chuang Tzu fourth century BC: But if he sees a man in the boat, He will shout at him to steer clear. If the shout is not heard, he will shout again, and yet again, and begin cursing. And all because someone is in the boat. Yet if the boat were empty, He would not be shouting, and not angry. If you can empty your own boat Crossing the river of the world, No one will oppose you, Now imagine the same situation, but the boat that comes at us is empty. Who would be warned? Against whom would you be mad at? What teaching this parable gives? If you sail "empty" through the river of life, without an "I" inside the boat, there would be no cause and effect of suffering. The great philosopher Nagarjuna said that true spirituality was "sacrificing the very illumination" in order to help the progress of others through preaching and guidance. The virtue of Nagarjuna is reflection. One of the most excellent teachers is Lao Tzu, Chinese philosopher, founder of Taoism, whose teachings are found in his work Tao Te Ching. He had some conceptual divergences with another Grand Master: The I-Ching or Book of Changes and The Dialogues, which are mostly conversations with his disciples and it reflects their thoughts. I want to stress the first I-ching of the 64 hexagrams: The sign is composed of six lines, which correspond to primary energy, spiritual and active. As the sign will not affect any of the worldly weaknesses is, in itself, the inner strength The Creative with will and perseverance achieves the success of the spirit. The Rise of the being is so important that its main goal is Service. The Creative is the start to which all things owe their beginning. The Creative is the virtue that covers the entire Universe. It is a spiritual force that makes men strong and tireless. The way of the creative works through modification and transformation so that each thing acquires its right nature and design, and thus achieving permanent agreement with Great Harmony. Here it is the auspicious and tenacious. Transferred to the human field, these qualities show to the great man his way to success. As a pathway towards achievement, appears here the recognition and realization of the meaning of the universe, as for perennial law and, through ends and beginnings, gives origin to all conditioned phenomena

caused by time. Thus, every stage reached becomes at once in preparation for the next stage, and so time is no longer an obstacle, but a mean for the realization of the possible. Lao Tzu despised the earthly values and stayed away from society seeking pure and absolute values. Confucius, on the other hand, did not flee from the contact of common and rich people in order to be able to change the way of thinking of his environment and provide comfort to the people. When both Masters meet each other, Lao Tzu said to Confucius: But Confucius wanted the power to propitiate his righteous doctrine. He was concerned about feeding children who were suffering of extreme poverty, he gave clear rules, but he never neglected rites and religious ceremonies. Lao Tzu avoided the problems of the people, believing that the corrupt social situation could not be improved. He even warned Confucius: Beware of pointing out the defects of the corrupts. He still believed in the positive values of the visible world. He told his disciple Tzu-lu: Who could I live with? Lao Tse disbelieved moral values and he proclaimed that everyone should seek on his own the path of humility, putting aside ostentation and personal desires. Confucius and Lao Tzu were two individuals who sought the Path of Light with different methods. The virtues of Lao Tzu are determination and perseverance. The virtues of Confucius are Service and Education. She was considered a Bodhisattva, a word that means "one who gives up his Holiness in pursuit of Love and Universal Benevolence. The Third Ray represents the Active Intelligence and Love that sustains the physical universe and in one time it was led by the Ascended Master "The Veronese", who in his last incarnation was the painter Paolo Caliari, a great painter who painted, among other works, The Wedding at Cana and the Feast at the house of Levi. When "The Veronese" was elevated from vibrational plane, the position he left was entrusted to the Ascended Master Lady Rowena, who to this day continues with it. Lady Rowena taught that Love sets free the human being because it gives him the power to forgive, setting him free of hatred and resentment. Hatred prevents spiritual growth and slows down the ascension to Light. Love makes us closer to God since it makes a person to be concerned his fellowmen. A remarkable spiritual being is Kether, according to Kabbalah, he is the first Sephirah, the most elevated of divine emanations. Kether had his last incarnation in Ani, the 4th planet of the star Ursae Majoris 47, at 35 light years from our solar system. He was named as the Ancient of rotations. In that world they call "Ancient" to those who have an honorary position, not to a person of advanced age. One can be "Ancient" at the age of 30 if the Assembly approves it. Those writings say that Kether was nominated to be Logos of the planet Venus, but he asked to serve their fellow natives on the physical plane and he gave that privilege to his outstanding disciple. Thus, Sanat Kumara became Logos of Venus. Thousands of years passed and they embodied in Atlantis, where Kether intervened in politics on the island more than once to unify criterions. Centuries later, Kether embodied in Ani for the first time and soon after was named Ancient. He ruled the planet and achieved peace on it, after many rotations of continuous warfare. Many centuries passed in Ani and there was a religious schism. Bloody rebellions stained the land of that world. The Highest Entities of Light decided that someone with extreme wisdom should embody to face those problems and also be righteous in the trials and not to commit abuse of authority. The risk was huge, having no memory of past incarnations, there was no guarantee of success in the mission. Kether was able to lead the union in Ani, preventing that the spiritual schism in the inhabitants of that world was bigger. His intervention prevented a definitive division of the various religious groups in Ani and he continued working towards a global harmony, which was completed almost at the end of his life cycle. The virtue of Kether is Harmony. Master Kuthumi is also considered a Bodhisattva. His spirit and the spirit of the Master El Morya can also be seen as twin souls, since they work their inner light almost as a unit, projecting the power of Love upon incarnated humanity. Mainly they act as inspiration of the great politicians of the planet, although many times their ego is so big that little can these two great masters do to correct the wrong decisions that politicians take.

Chapter 2 : Secrets of the Ascended Life - Kelley Varner - Google Books

There is a high calling, the ascended life. In this sequel to his last book, Sound the Alarm, Dr. Varner shows that the ascended life is HIS life, lived from the heavenlies in the Most Holy Place. Secrets of the Ascended Life will change your perspective about God, your purpose and His plan for you.

Belief in this "One God" stresses the essential unity of the spiritual and material components of the universe. From the "One God" all other realities, including hierarchy, humanity and the material universe, are the result of a process of emanation. God as Life and Love manifests in the 7 octaves of the created universe through individual Divine Identities. As embodied individuals, we are the outer expression of that God Self in form. He is the conscious director of his future activities. Thus, having once made his choice, he is the only one who can fulfill that Destiny "which is not inflexible circumstance but a definitely designed Plan of Perfection. This Activity, We term Self-consciousness, meaning the Individual who is conscious of his Source and Perfection of Life, expressing through himself. Then the Threefold Flame of Life is completely unfolded, the individual becomes Master at Cosmic Levels of creation and does work with systems of worlds, as well as in this physical world. This is the way the Godhead is ever expanding the Perfection of Itself throughout Infinity and keeping order throughout interstellar space. It is claimed that they serve as the teachers of mankind from the realms of Spirit, and that all people will eventually attain their Ascension and move forward in spiritual evolution beyond this planet. According to these teachings, they remain attentive to the spiritual needs of humanity, and act to inspire and motivate its spiritual growth. It is no wonder in the mythology of the ancients that their activities have been brought down to us in the guise of myth and fable. They wield Tremendous God Power at all times because they hold with unwavering determination to the Great God Presence and hence all Power is given unto them for they are All-Perfection. Call into use the Great Sea of Universal Substance from which you may draw without limit. It obeys, without exception, the direction of thought, and records any quality imposed upon it, through the activity of the feeling nature in mankind. Universal Substance is obedient to your conscious will at all times. There is no instant at which human beings are not giving this Substance one quality or another, and it is only through the knowledge that the individual has conscious control and manipulation of a Limitless Sea of It that he begins to understand the possibilities of his own Creative Powers, and the responsibilities resting upon him in the use of his thought and feeling. All creation comes forth through These Individual Identities and is sustained by Them. It is believed to be a way of externalizing more Divine Light, Divine Love, and Divine Life into the lower planes of creation through the dynamic force of sound vibration as creative energy. It is but the vehicle through which Perfection should be expressed into the outer substance of the Universe. For Intelligence to act there must be Intelligence to be acted upon, and the Universal Substance, being like a photographic film, takes the record of what-ever quality the Individual imposes upon It through his thought, feeling, and spoken word. Make no mistake about this. Intelligence is Omnipresent, and It is within the Electronic Light. Initiation Theosophy The Ascension is believed to be the returning to complete "Oneness with God" - "raising the outer atomic structure of the physical, emotional, and mental bodies into the Electronic Structure of the I AM Consciousness", becoming an Ascended Master, eventually a Cosmic Being, and beyond. Mastery of the matter planes[edit] It is believed that the "Individualized Flames of Perfection", emanating as lifestreams taking physical embodiment, can develop further attributes that express a unique Identity, and attain the fullness of the use of Light. This is done by mastery over matter planes that have a slower vibratory action, thus requiring more energy and concentration to externalize form. This allows for the development of greater skills of creation and "Causal Body Momentums" of various "Divine Qualities". Physical embodiment gives each individual the opportunity to expand these attributes and faculties through matter substance, and to become a "master of energy" through thought and feeling. This allows for accomplishments and added power which one who does not ever embody on a planet does not possess. The emotional and mental octaves are also made up of electrons and atoms of feeling and thought substance and differentiated into levels of density and vibratory rate. When man will make the effort to prove this to himself or within his own atomic flesh body, he will then proceed to Master Himself.

When he has done that, all else in the Universe is his willing co-worker to accomplish whatsoever he wills through Love. All Life contains Will but only Self-Conscious Life is free to determine upon its own course of expression. Hence, the individual has free choice to express either in the human, limited body or the Super-Human, Divine Body. He is the chooser of his own field of expression. He is the Self-determining Creator. He has willed and chosen to live as Self-Conscious Life. When one individualizes within the Absolute, All-Pervading Life he chooses of his own free will to become an intensified individual focus of Self-Conscious Intelligence. Thus, having once made his choice, he is the only one who can fulfill that Destiny - which is not inflexible circumstance but a definitely designed Plan of Perfection. The memory body is considered to have become known as a "soul", and this temporary personality has taken on the sense of a self that is separated and not connected to God. It is believed that a "Dictation" from Maitreya further clarified this matter through the "Messenger", Geraldine Innocente, on September 27, when what occurred during the time of the "Fourth Root Race" was described: It is a consciousness apart from the full Purity of God. The first thought a man had that was imperfect and impure, energized by a secret feeling, was a cause and that, sent out into the atmosphere, created an effect. Like a boomerang, the effect came back into the consciousness and made a record. That record was the beginning of an impression. Energy sent out in a certain manner returned to affect the lifestream who had sent it forth and there began to be created a shadow between the I AM Presence and the human consciousness. Finally, those centers got completely away from the control of the ego and acted independently. Other "Ascended Master Activities" believed that the Ascended Masters, Cosmic Beings, Elohim, and Archangels continued to present a program for both individual development and spiritual transformation in the world. Dawning Golden Age[edit] Students of the Ascended Master Teachings believe that this world is destined to again have a Golden Age, a "Heaven on Earth", that will be permanent, unlike previous Golden Ages millions of years ago. She is a Land of Light, and Her Light shall blaze forth, brilliant as the sun at noonday, among the nations of the Earth. She was a Land of Great Light, ages ago, and will again come into her spiritual heritage, for nothing can prevent it. The greater portion of the land of North America will stand for a very long time. The book "Initiations of the Aquarian Masters: Paul Johnson suggests in his book The Masters Revealed: Madam Blavatsky and Myth of the Great White Brotherhood that the Masters that Madam Blavatsky claimed she had personally met are idealizations of certain people she had met during her lifetime.

Chapter 3 : Ascended Master Teachings - Wikipedia

Secrets of the Ascended Life has 13 ratings and 0 reviews. Dr. Varner's newest book, Secrets of the Ascended Life, is a valuable spiritual tool. It help.

I would like to teach you on secrets of the "ascended life. God has lifted the Believer above all rule and authority and power and dominion, not only in this age, but in that which is to come. He gave Christ who is the Head of the Body to be Master over all the forces of the universe. Christ is enthroned far above all other spiritual beings that exist in the heavenly realms. As Paul continues in his letter to the Ephesians, he writes: We are enthroned with Him in the higher realm of heavenly places far above principalities and power and every name that is named see Ephesians 1: It is important to note that in the unseen realm of spiritual reality, we are enthroned above all other spiritual beings. Paul uses the phrase "heavenly places" five times in the Book of Ephesians: Apparently, the realm of heavenly places contains both a higher and a lower realm. The evil hosts of wickedness are in the heavenly realms, but Christ is enthroned far above them, and we are in Him. Our co-enthroning with Christ is far above these other spiritual beings. We are blessed with every spiritual blessing in this realm. Our warfare against the principalities and powers is from our position above them. They attempt to bring us down from our position of absolute victory by deceiving us into fighting on their level. It is the destiny of the Church to demonstrate the many-sided wisdom of God to these very principalities and powers see Ephesians 3: As our minds are renewed and our faith grows, we take these realities as fact and live in the light of them. We come to know that we are above our enemies and refuse to walk in the flesh realm but take our place in Christ in the spirit realm. The following is an excerpt from John G. He is by creation the companion of the miracle-working God. Sin dethroned man from the miracle-working realm, but through grace he is coming into his own. When he sinned, his mind became dominant. Sin dethroned the spirit and crowned the intellect. But grace is restoring the spirit to its place of dominion. When man comes to realize this, he will live in the realm of the supernatural without effort. The spiritual realm places man where communion with God is a normal experience. What the Father says is divine fact; the declarations of God are the highest form of reality other than God Himself. The creative ability of God was released when He spoke all matter into being, and in the eternal purpose of God the first creation becomes the type of the new creation. For it is the God who commanded light to shine out of darkness, who has shone in our hearts to give the light of the knowledge of the glory of God in the face of Jesus Christ. He has declared us to be raised and enthroned with Christ at His right hand. As we embrace these truths, the Holy Spirit bears witness with our spirits that we are indeed sons of God and joint heirs with Christ. Photo via Freeimages by gozal But to as many as did receive and welcome Him, He gave the authority power, privilege, right to become the children of God, that is, to those who believe in adhere to, trust in, and rely on His name " who owe their birth neither to bloods nor to the will of the flesh [that of physical impulse] nor to the will of man [that of a natural father], but to God. Heavenly encounters increase and angelic activity abounds. Every spiritual blessing has been given to us in the heavenly places see Ephesians 1: We are not going to grovel in the earthly realm, but we are seated in the heavenly places with the Lord. Every Believer has the right, authority, and ability to minister out of the throne room just as Jesus did. We are going through a transformation that we must embrace, as Paul stresses: To this end I also labor, striving according to His working which works in me mightily" Colossians 1: Are you hungry for transformation? I know I am. I want to know, hear, see, and be like Jesus. Embrace His work in you so that He can work through you mightily. Embrace the ministry of the Holy Spirit and allow the sevenfold flow of the Holy Spirit to manifest in your life. Photo via Pixabay As we understand our divine union with Him and become obedient to His voice, we can engage face to Face, spirit to Spirit, and unite our hearts to His. When we plug into the center pipe of the heavenly menorah, we receive the fresh oil of Psalm As the fresh oil pours in from the Word, the anointing pours into the vat, and we become partakers of that rich flow of the unlimited anointing and union of the Holy Spirit. Fresh oil feeds the flames " the seven flames atop the seven pipes. It has to be a continuous flow of oil for the seven flames to burn. We trim the wick and replenish the oil in perpetual communion with Him, and

the flame burns in divine union with Him. The greater the flow of oil, the greater the flame. The greater the flame, the greater the favor and influence. Keys To Living the Ascended Life In this section I want to give some keys that will help you develop a lifestyle of ascended living. I also call this the "Kingdom Law of Focus. Paul wrote to the Colossian Church and encouraged them to "set your mind on things above, not on things on the earth" Colossians 3: Beholding and Becoming Paul, in his letter to the Corinthian Church, revealed this amazing truth about beholding and becoming: When we behold the Lord as in a mirror, we are being transformed into the same image. As we stare or gaze upon the Lord, the law of focus brings the intimate union of our spirit man into an unbroken union with Jesus Himself. The word used for transformation here is the Greek word metamorphoo, where we get the word metamorphosis. It means to literally be transfigured. The same word is used when Jesus was transfigured in Mark 9 on the mountain with Peter, James, and John. Photo via Pixabay Six days after this, Jesus took with Him Peter and James and John and led them up on a high mountain apart by themselves. And He was transfigured before them and became resplendent with divine brightness. And His garments became glistening, intensely white, as no fuller cloth dresser, launderer on earth could bleach them. And Elijah appeared [there] to them, accompanied by Moses, and they were holding [a protracted] conversation with Jesus. We can have the radiant glory of God shining from every part of us. In the process of beholding and becoming through intimate union with Jesus Himself, Peter says we become partakers of the divine nature. By means of these He has bestowed on us His precious and exceedingly great promises, so that through them you may escape [by flight] from the moral decay rottenness and corruption that is in the world because of covetousness lust and greed , and become sharers partakers of the divine nature.
