

Chapter 1 : Storm Center: The Supreme Court in American Politics - David M. O'Brien - Google Books

An inside look at the workings of the Supreme Court. In an engaging narrative, David M. O'Brien shows how the Supreme Court is a "storm center" of political controversy, where personality, politics, law, and justice come together to help determine the course of public policy and shape American.

Summer reading for court watchers Posted Fri, June 30th, Below is a list, by no means comprehensive, of mostly recent books. Included among them are books by the justices themselves, or about their work product, or about their nominations to the court, or about their inner workings, among other things. American Law and the New Global Realities Now, with a candor and intimacy never offered by a sitting justice, she recounts her life from a Bronx housing project to the federal bench, a journey that offers an inspiring testament to her own extraordinary determination and the power of believing in oneself. Thomas reveals himself to be a determined man whose faith, courage and perseverance inspired him to rise up against all odds and achieve his dreams. Judicial biography – Adam M. Liberty in Full Lexington Books A Lincoln appointee who served on the court from to , Field articulated a view of constitutional liberty that speaks to contemporary disputes. Today, some see liberty as protection against private oppression through government regulation. Others see liberty as protection from government interference through limits on governmental power. This work explains how Field instead saw both these competing conceptions of liberty as legitimate and in fact believed that the two cooperated toward a common end. Court of Appeals for the 7th Circuit to explore how these experiences shaped his understanding of the importance of rights in criminal justice. In this book, Laura Kalman focuses on the late s and early s, when Presidents Lyndon Johnson and Richard Nixon attempted to dominate the Supreme Court and alter its course. The fierce ideological battles – between the executive, legislative and judicial branches – that ensued transformed the meaning of the Warren Court in American memory. Richard Davis, an eminent scholar of American politics and the courts, traces the history of nominations from the early republic to the present. He examines the component parts of the nomination process one by one: Seiner argues that the Supreme Court has systematically eroded the rights of minority workers through subtle changes in procedural law. Seiner provides a framework that practitioners can use to navigate these murky waters, allowing workers a better chance of prevailing with their claims. The book clearly illustrates how to use this framework effectively, applying the proposed model to one emerging sector – the on-demand industry. This book will serve as a roadmap for successful workplace litigation and a valuable resource for civil-rights research. It will also spark a debate among scholars, lawyers and others in the legal community over the use of procedure to alter substantive worker rights. The court on privacy and the press – Samantha Barbas, Newsworthy: Samantha Barbas explores the legal, cultural and political wars waged around a seminal privacy and First Amendment case. This is a story of how American law and culture struggled to define and reconcile the right of privacy and the rights of the press at a critical point in history – when the news media were at the peak of their authority and when cultural and political exigencies pushed free-expression rights to the forefront of social debate. The court on sex, religion and the law – Geoffrey Stone, Sex and the Constitution: Beginning his volume in the ancient and medieval worlds, Geoffrey Stone demonstrates how the Founding Fathers, deeply influenced by their philosophical forebears, saw traditional Christianity as an impediment to the pursuit of happiness and to the quest for human progress. Acutely aware of the need to separate politics from the divisive forces of religion, the Founding Fathers crafted a constitution that expressed the fundamental values of the Enlightenment. Public controversy and the court – David M. This is the first book to analyze the process by which the ideological stances of U. Supreme Court justices translate into the positions they take on the issues that the court addresses. Eminent Supreme Court scholar Lawrence Baum argues that the links between ideology and issues are not simply a matter of reasoning logically from general premises. Rather, they reflect the development of shared understandings among political elites, including Supreme Court justices. And broad values about matters such as equality are not the only source of these understandings.

Chapter 2 : Constitutional Law | W. W. Norton & Company | W. W. Norton & Company

About The Book. An inside look at the workings of the Supreme Court. In an engaging narrative, David M. O'Brien shows how the Supreme Court is a "storm center" of.

Suggested Reading Baum, Lawrence. Congressional Quarterly Press, Baum offers an in-depth exploration of how the Court functions and the role it plays in society. Oxford University Press, Supreme Court nominations are among the most public and controversial decisions a president can make, and they have a great impact on the law. Davis examines the role that the press and the public have in the nomination and confirmation process. Justice Rehnquist and the Constitution. Princeton University Press, The chief justice does not control the Supreme Court, but he can strongly influence the direction of the Court. Davis studies the impact of William Rehnquist on the Court. Understanding the Supreme Court: The author explores important cases and the judicial philosophies that shape American law. What sort of role do the courts play in shaping policy? Mezey explores that question with regard to disability policy. The Supreme Court in American Politics. Storm Center is a classic study of the way the court fits into the American political system.
