Examining a benign expansion of the Gospels; the canonicity and historicity of the mysteriously omitted, disappearing, and eventually prevailing "Pericope Adulterae" John 7: Until recently, it was not thought that any Greek Church Father had taken note of "P. In support of this, the 4th century Codex Vaticanus, written in Alexandria, marks the end of John ch. The ending of the Gospel of Mark is one such case; John 8: Didymus wrote in one, "We found in certain gospels" an episode in which a woman was accused of a sin, was about to be stoned but Jesus intervened "and said to those about to cast stones, "He who is without sin, let he take throw a stone and smite her," and no one dared," and so on. Such is far from being a quotation, but it may be a brief summary of the episode. Barring the possibility that Didymus was referring to some other Gospel than the four canonical Gospels, which were typically in use in the churches at his time, this statement appears to establish that the passage was present in its alleged place in some of the Greek manuscripts known in Alexandria and elsewhere from the early fourth century onwards. The specific problem with John 8: Over of the manuscripts that contain the gospel of John do not contain this story, including the very earliest ones we have, which are from the early 3rd century. Likewise many of the early church fathers do not comment on the story, and a number of the translations into other languages which existed did not include it. This evidence has caused many to say that the story is not genuine. However, the evidence is not that clear. While the earlier ones do not have the story, there is evidence that these earlier manuscripts were somewhat dependent on each other, and are not independent attestations to the actual story by John. Indeed, the earliest manuscripts we have which might have contained the story go back only to the early 3rd century. This may well have been what happened. The latter claimed that the passage may have been fallibly excluded from some manuscripts in order to avoid the impression that Christ had sanctioned adultery! It does not appear in any Greek manuscript until the fifth century, and no Greek church father comments on the passage prior to the twelfth century. Even then, the comments state that the accurate manuscripts do not contain this story. When it was inserted in later manuscripts, the story of the adulterous woman appeared in different places: The story is part of an oral tradition that was circulated in the Western church, eventually finding its way into the Latin Vulgate, and from there into later Greek manuscripts. Many scholars point out that the vocabulary used in this passage does not match the rest of John. Therefore, it seems this story was not originally part of this section of John. However, even if the passage was not written by John, it still may be regarded as a true story. The actions and words of Jesus are consistent with what we know of him from the rest of the Gospels. There is no new or unusual information in the passage that adds evidence against its inclusion. Nonnus Metabol, that missed P. Nonnus of Panopolis Akhmim most prominent work is Dionysiaca, the book epic, being the longest surviving poem from late antiquity. Its main subject is the life of Dionysus, his expedition to India, and his glorious return back home. Dionysiaca, composed in Homeric dialect with dactylic hexameters, certain rhythmic schemes, or meters. The poem of 20, lines may have been written in the early 5th century. Its timing is a debated point: Scholars have shown that Nonnus was as learned in Christian theology, he seems to have consulted the Commentary on the Gospel of John that Cyril of Alexandria had recently penned. Hodges theory that the text was purposely eliminated is pure conjecture. There is simply no evidence that the story was ever written down prior to the fifth century. Rather, the evidence demonstrates that the text suddenly appeared in the manuscript tradition centuries after John composed the Fourth Gospel. Finally, while the transmission history is doubtful, there is nothing in the actual story that would suggest it was fabricated. However, preachers should limit their sermons to the original biblical text only. At least, they should exercise caution and skepticism when referencing this story for illustrative purposes.
