month is Canadian author Opal Carew who writes erotic romance novels. Opal has written over novels with multiple book series such as the Dirty Talk series and the Abducted series.

As one reads A Choir Of Ill Children (peruses might be a better word, for like Thomas, the reader is always drawn back to the past) one comes to understand that horror, and the horrible, are two different things.

He is a four-time winner of the Bram Stoker Award. Tom has a genuinely diverse body of work. He intimately incorporates personal life experience encompassing the limitless depths of his imagination where reality meets fantasy and emerges transformed. He writes with courage and temerity weaving a thread of sensitivity that captures our deepest attentions. For it reminds us of the potentials that dwell within us: Some of these conflicts we know intimately. Some of them we fear with intensity. Many of them Tom has the honor of knowing that he introduced us to them first. And we were hit with the force of a tidal wave. Without further ado, let us commence with the interview! Tom thanks so much for this opportunity. What was your first professional debut as a writer? My first novel *Dark Father*, which sank like a rock. Tom, you are as amazing as a poet as you are in constructing prose within your novels and short stories. I sense an essence of connection threading everything into an invisible tapestry of unity. Everything you write seems to share an intimate relationship with one another. Do you have a preference when you write? Where were you born and raised? Traveled only the last couple of years. Who are your favorite authors? The blatantly candid aspects that thrive in your work are captivating. The words you choose to create the imagery can be poignant. How does it feel to just let it rip? Although vicarious, I experience a personal catharsis through your writing. *Hellboy* man I know you have to relate to this character as an archetype. I see that *Hellboy: Emerald Hell* was published in And yet, there was so much more waiting to fuel your writing. How did you get involved writing in the *Hellboy* universe? Would you do it again? I got the job from Chris Golden who was at that time running the *Hellboy* books. I wanted the book to be like the early stories, with just *Hellboy* and a supernatural force. I just finished reading *Forgiving Judas*. I no longer wonder if someone else has similar thoughts, feelings or walks with nightmares as I do. Your poetry should be required reading in Universities, High Schools and especially all ecclesiastical institutions. You create the most beautiful sometimes shocking always surprising and most sincere shards of life. Do you have a specific objective when you compile a collection of poetry? I am certain that reading *Forgiving Judas* was the best thing I could have read taking me into the inner sanctum of Tom Piccirilli. I just want to read everything. I have already loaded my Wish List in Amazon. Man you are awesome deep respect for you, Tom. Where did that come from? I just like the sound of it. When you think of poets, you usually think of dead ones. I have eaten there, hung out with friends there but I have never seen anything strange. What is the biggest influence on your writing today? Do you prefer a prefabricated universe or would you rather create from the abyss? A Lower Deep RD: Do you intricately plot when you write or do you take a more developmental organic approach? Which is why some of the novels are so weird. They lead up to an ending I never envisioned. What is the nicest thing anyone has ever done for you? My wife sticking by me the last two years. Plus she married me. Of all the places you have been in your life, where do you enjoy spending the most time? Montauk Point, on Long Island. What audience do you feel that most identifies with you? Is there an audience you would like to reach out to that you feel you may not have connected with yet? What do you have scheduled for ? The way I treated my mother. In a nutshell, what are your religious and philosophical beliefs? The Cold Spot RD: You were diagnosed with brain cancer. People respond or react differently in many situations. The discovery of a tumor growing in your brain the size of a tennis ball has to elicit a tidal wave of inner experience. Would you share the experience of the announcement of the diagnoses, the following treatment and surgery and what the aftermath has been like for you? How are you today? It appeared in the British magazine *Beware the Dark 2*. Readers can purchase an e-copy at Crossroad Press or Amazon. I have been in remission for over two years. What is your biggest vice? Who are your favorite musical performers or bands and what are some of your favorite songs? What song would you say you have listened to the most over the course of your life? What welcoming advice would you give to writers and to those who would love to become writers today? Learn from your mistakes. What advice would you give to us about life? Just live it and love as much as you can along the way. And forgive yourself time

and time again. Tom â€” Thank you so much, once again, for taking the time to share part of your busy, tumultuous and successful life with us and also for being so candid. Thank you for helping us to understand a little more of what you represent, the things which inspire you and for sharing your thoughts for the future. Thank you for being so generous and for taking us on this magnificent journey. During the four months that his son lay dying, ex-con Kasteel lost his job, his wife, and nearly his mind. He became a fixture at the Castle, a phantom prowling the halls in the deep night, a shadow of his former self until he faded from sight and was forgotten altogether. He lives off the grid hiding among the hundreds of miles of twisting passages, rooms, offices, and underground parking structures. Despair, confusion, and terror are the natural state and trade of any hospital: Not only must the patients endure disease and infirmity, but others are victims of physical and sexual abuse from the outside world or from cruel security guards. The Castle was originally a colonial Dutch settlement: Kasteel has lost his very identity to this place, taking for himself the original Dutch name for "Castle. Using his skills as a burglar he tracks down the attackers, the deceivers, and the killers. A place where family members go to pray for their loved ones, and the distraught often commit suicide. But a new name is now whispered in the Castle: Abaddon, the ancient name for the angel of death. A brain-damaged woman has visions and speaks only to Kasteel. Abaddon is a killer, a man lost to the Castle like Kasteel himself, wandering the corridors searching out victims. Even as Abaddon hunts the innocent, Kasteel hunts Abaddon, eager for a final showdown that may at last set him free. This is one of them: Blurbs "Tom Piccirilli straddles genres with the boldness of the best writers today, blending suspense and crime fiction into tight, brutal masterpieces.
