By CrowNoYami on Jul 22, So looking forward to the next one! Not a fan of these bland covers. Alternating first-person POV, clearly marked and easy to follow. Scott is a young, naive, home-schooled virgin, lured into an online relationship with an entity in the UK. After his eighteenth birthday, this entity known only as JeffUK sends him a passport, 2-year visa, and a one-way first class ticket to come to England, saying all the right things to lull Scott into a false sense of security - a security that is immediately shattered when no one is at the airport waiting for him and his mad dash to freedom left him only the clothes on his back and a few measly dollars. This is not a perfect pairing, there are so many missteps and flaws. Ben can be a colossal jerk at times, Scott can be whiny and juvenile. Both have a lot of growing and learning to do, together and apart. Secondary characters are primarily those that were introduced in the previous books, but a few fresh cast members were also present. Dialogue is strong and believable. The interplay between cast is natural. The plot on this one really sucked me in and held me, even though both lead men made me want to scream at them on occasion, the story - for being the first collaboration effort of Ms Wells and Mr Williams - was incredibly smooth. There were a few self-imposed conflicts, set by Ben, but also the abhorrent parents to contend with. Resolutions were not easily or neatly found; these two really mucked things up before finding their way, and not just once. There were a few surprises in the mix - not too much predictability. The conclusion is solid enough, but I hope to read more of their story as the series continues. But then, when I thought things would really get bad for Scott, he met Ben I must confess that I wanted to hit Ben upside the head a lot of times, to make him see what was right in front of him, and that Scott was perfect for him. Even wanting to strangle Ben a few times hehehe , I loved this story and how Scott and Ben found their way into a relationship. Ben was an interesting mix of confident and clueless. You have no idea how many times I felt the need to shake some sense into him. Yes, I understood where he was coming from and why he thought Scott could do better but it still some of his behavior annoyed me. The jury is still out on him--I can only forgive him so many times! Maybe if his motives were not about money and some of his other complexities would have made it to the page I could have come to overlook some of the stuff he did. I believe that it would have helped if I could have seen more of his Dom side. I think that facet of his life was not fully explored. Now Scott was another matter altogether. Whereas I admired Ben for his strength, Scott endeared himself to me because of his vulnerability and innocence. I loved his curiosity to learn about life, his uncomplicated way of seeing things and how openly he displayed his emotions. Try as I might I just could not see it. Maybe this had to do with the fact that most of the time they spent their time apart and I only got told and not shown about some of the times they shared. I found that there were things left unresolved, events that were unnecessary and a lack of emotional connection between the MCs. All in all, a good story with interesting characters. Ben Winters, drops his sister off at the airport and finds a lost Scott. Scott goes with Ben , they are living and helping each other. Scott makes a friendship with Peter and Alex and discovers he is a submissive and wants a Dom. Many decisions are made that will cost Ben precious things until he needs to decide what is more important. Because Scott only wants to have Someone to Keep him.

Chapter 2 : Teach Me (Audiobook) by K.C. Wells | www.nxgvision.com

'Teach Me' is the first book in K. C. Wells 'Lightening Tales' and at 2 hours & 26 minutes on audio and 73 pages for the e-book it's a fairly quick listen/read no matter how you do it.

Chapter 5 : Make Me Soar (Collars and Cuffs #6) by KC Wells #LGBT # | Rainbow Gold Reviews

Teach Me, the first in this series, was my favorite, although I liked the 3rd one a lot, too. While the tropes were standard, the character development sucked me in and made me root for Nick and Alex as a couple.
