Possibly to counter that expectation, the first trailers for *The Amazing Spider-Man 2* dropped some shocking names, uncovered when Harry Osborn scrolls through the many files and secret projects bequeathed to him by his father. Including Venom, Morbius, Doctor Octopus, and a possible reference to Kraven the Hunter, the vague allusions are likely not all seriously planned for future films. Especially when you consider that a scene between Felicia and Harry post-Goblin-transformation was teased in trailers, but is removed from the final cut. In the film, the chief medical officer - Dr. Ashley Kafka - has her gender swapped played instead by Martin Csokas, but much of the other purposes of the facility remain intact. We chose not to highlight the typos. The fact that the song is actually "The Itsy Bitsy Spider" may have been missed by some audience members, leading to Peter informing us all that he "hates that song. Generally, the death of a main character is something movie studios tend to keep under wraps. Initially, both Webb and Stone played off the inevitability of her death, claiming they may end up straying from the comics. But when Stone was seen on set in the exact mint coat and purple skirt in which her comic book counterpart perished, the writing was on the wall. Webb played with expectations somewhat, featuring not one, but three separate chances for Stacy to drop to her death, before proving that the third time was the charm, with her death mirroring that of the comics nearly identically. When the pressure becomes too much, the gears shatter, sending the hands of the clock spinning. When the hands finally do come to rest, they do so at the 1: With the appearance of a mystery man clinging to the shadows, it was clear more forces were at work than director Marc Webb would admit. At the time, we suspected the figure could help the films build to a Sinister Six blockbuster, and while that seems to be the case, the man himself was also revealed in the course of this film. It is Fiers who assembles the Six to help execute a citywide attack, but his motivations in the film remain a mystery. But another easter egg for Marvel fans was dropped in the news coverage leading up to his showdown with Spider-Man. The exact design and purpose of The Vault has varied in the comics, but expect to see more of it in future films. Far from a teaser image or open-ended reference, the unlocked video essentially revealed the roster of the upcoming Sinister Six film. So what really rests at the given street number? The Avenue of the Americas terminate at Central Park before ever reaching so high a number. Take a look around, and what will you see? A few things, actually. The fact that they appear directly opposite is either an incredibly overwrought Easter egg, or a complete coincidence.

I now not only have her respect, but more importantly, her love too. She now even accepts and welcomes my boyfriend which she had previously ignored". They showed me no respect and at times they reduced me to tears. I tried an egg ritual in desperation: The transformation was so rapid that my husband wondered if they were the same children! Take it from me - these egg rituals really work! These rituals are so simple that even a child can use them! And nor are special psychic powers required. Anyone of any race or religion can use them. They are simple, safe, and above all - effective.

Realizing that this is not the day to be goofing off, all the other Wattersons quickly run off to get properly dressed. Once everyone is formally dressed, Nicole takes another minute to stress to her family the importance of good manners. All of the micro-management from her mother prompts Anais to ask why she is so distressed. Nicole begins to rant to her family about how one needs the right connections to move ahead in life. Right when Nicole finishes her rant, the doorbell rings, revealing that the two Parhams have arrived for the appointed date. Quickly, Nicole introduces Felicity to the other four Wattersons, and Felicity is just as quickly horrified, for she has seen the crazy antics of the other four around town before. Nicole tries to make due with the current dilemma and allows Felicity to get a better feel for the others. Of course, this only fails miserably, and only causes Felicity to look at the Wattersons with even more disdain. With things not going so well for her family, Nicole decides to introduce Anais to her play date, Billy. Anais questions why she has a play date, and this prompts Nicole to recall the events of the day she met the Parhams at the supermarket, complete with a flashback. With the meet-and-greet portion still going terribly, Nicole just decides it would be best to skip to the meal. The two families head to the tables, with the two youngest, Anais and Billy, heading to their own "mock" table. Meanwhile, at the main table, awkwardness continues to ensue; things eventually get so bad that Felicity feels the need to give Nicole a reality check. Such words trigger Nicole into a violent rage that results in her literally "chewing" out Felicity. Back at the "kids" table, Anais and Billy decide to run away and do educated and pristine activities together. Of course, the two mothers blame each other for the disappearances of their children, but Gumball, playing the voice of reason, tells the two women to put aside their differences for the greater good. However, the tension between Nicole and Felicity quickly rises again, and in turn, causes the car not to move any where. As everyone is running, Nicole and Felicity get into an argument about whose kid influenced whom, and this leads to a "battle for dominance". Darwin eventually notices his sister and Billy "walking sensibly" into the museum. In the museum, the gang finds the children, and Gumball and Darwin bring up their prediction about Billy and Anais being in love. This "love" is temporary, however, as Anais, being a Daisy the Donkey fan, cannot associate herself with Billy, a Fireman Pete fan. The children end their friendship, and likewise, Nicole ends her bond with Felicity, complete with a punch, ending the episode.
