## Chapter 2 : Barney Stinson Quotes (Author of The Bro Code)

*The Bro Code previously existed only as an oral tradition (heh), so I have journeyed the globe to piece together and transcribe the scattered fragments of the Bro Code, pausing only to flesh it out myself (double heh).*

He assumed that he was invited solely because the two were friends and did not believe he had a chance of winning the role. CBS executives enjoyed his playing and soon offered Harris the part. He is a manipulative, oversexed businessman in his thirties who always wears a suit, likes women with "daddy issues" and is frequently willing to offer his sometimes hypocritical opinion. Barney has a plethora of strategies and rules designed to meet women, sleep with them, and discard them. This leaves Barney the only single character, and, according to Harris, Barney is "resentful" that the other characters have paired up. Later on, in season 5, he dates Robin. They end up breaking up not long after, once they both realize they are making one another miserable. Harris describes Barney as a man who "likes to create crazy situations and then sit back and watch it all go down. He is also highly competitive, and will take on "challenges" to complete outlandish tasks in order to prove his worth by often announcing "Challenge Accepted". He is proud and stubborn, and attempts to stand by his word no matter what. In "I Heart NJ", for example, he refuses to put down his fist unless someone offers him a fist bump. By the end of the episode, he has the same fist elevated in a sling after struggling to keep his fist up throughout the episode. In "Lucky Penny", when the others do not believe that he can run the New York City Marathon the next day without training, Barney immediately agrees to do so. Although he succeeds, he is unable to walk afterwards. Although he thinks of himself as worldly, Barney is sometimes extremely naive, believing many lies his mother told him well into adulthood, such as believing that Bob Barker is his father. Barney, like Harris himself, is an illusionist. His favorite types of magic tricks involve fire, as seen in the tenth episode of the second season, "Single Stamina" and in the fourth episode of the fourth season, "Intervention". Barney uses magic tricks mostly to pick up women. His most common method of picking up women is telling them elaborate lies about himself, often using an alias. Many of his schemes for picking up women are in a book he has written called "The Playbook", which is exposed in the episode "The Playbook". He has commitment issues, as evidenced in his reluctance to put a label on his relationship with Robin and the fact that she is one of the few women he has actually dated since the show started. Barney is very well-connected and is the most affluent member of the group. He frequently buys expensive items such as a last-minute plane ticket to San Francisco, thousands of dollars in postage stamps, or two televisions specifically for smashing in frustration in the spur of the moment. He is also something of a metrosexual; he waxes his chest, enjoys manicures and has an extensive knowledge of designer labels and gourmet food. However, he is also seen to have a gambling problem that he occasionally gets under control, only to relapse as seen in several episodes such as "Atlantic City", where he has gambling buddies in the Chinese Triad, and "Monday Night Football". He just wants people to like him, to be important to people, and to have disciples who follow his word. Throughout the series, one major character development is apparent in Barney: At the beginning of the show, his character is a womanizer who completely objectifies sex and women and wants nothing to do with dating and relationships. Although he does date Robin in Season 5, he resumes his promiscuous lifestyle immediately after they break up. In Seasons 6 and 7, however, he begins to confront his personal issues, like his relationship with his estranged father and his fear of commitment. By the time late Season 7 rolls around, Barney has finally "grown up," and has now warmed to the idea of a commitment and marriage, culminating in his proposal to his girlfriend, Quinn. Robin accepts and they plan their wedding in the second half of the season. After some apprehension on both their parts, they get married in "The End of the Aisle" after he vows to always be honest with her. Barney returns to a lifestyle of meaningless sex with multiple women for several years afterward, until he gets one of his one-night stands pregnant. He hates the idea of being a father until the day his child, a girl named Ellie, is born. He falls in love with her at first sight and becomes a devoted father, turning away from his player lifestyle for good. In "Natural History", Barney claims he was six years old on July 23. This puts his birthday somewhere between July 24, and July 23; in "Zoo or False", Ted says Barney was born seven years after the moon landing.

which occurred in July , In " Columns " set in , Barney gives his age as 31 further confirming his birth year is He was raised in Port Richmond, Staten Island by his mother Loretta younger version voiced by Megan Mullally , played by Frances Conroy , who was apparently very promiscuous. Years later, as portrayed in the season 2 episode " Showdown " , he appears on The Price Is Right with the intention of naming Barker as his father on national television, until he panics at the last minute and cannot go through with it. As a child, Barney was terrible at sports, and from various episodes it is shown he had few friends one scene shows that no one attended his birthday party. In the episode " The Leap , " Lily reveals that Barney planned on being a violinist when he was young. Barney finally meets Jerome John Lithgow again in the episode " Legendaddy " and learns that he is in fact his father. Upon meeting, Jerome feels pressured to act like the hard-partying womanizer he once was in order to impress Barney, and also because Barney refuses to see him any other way. Barney eventually breaks down and accuses Jerome of walking out on him. Jerome, who can offer no excuse, apologizes and pleads with Barney to allow him to be a part of his life. Later in the sixth season, in " Hopeless " , Jerome tries to impress Barney by acting like his old self, but later reveals he was just pretending. Barney, nevertheless, willingly listens to advice from Jerome about settling down. Barney has three half-siblings: He also has a female cousin named Leslie, with whom he accidentally grinds in a nightclub, as seen in the episode " Okay Awesome " . He has worn a Cornell Big Red T-shirt, [8] indicating that he may have gone there, instead. As evidenced in Season 2 " Atlantic City " , Barney learned at least conversational Korean , Chinese at some point, as well as some French. His musical skills include playing the drums, dancing the tango and singing. He is also skilled at juggling and laser tag. Adult life prior to "Pilot" [ edit ] " Game Night " reveals that Barney had once been an innocent, idealistic young man who wanted to join the Peace Corps with his first serious girlfriend, Shannon. He lives by a strict code known as the Bro Code. However, he assures the group that it is not a problem because he is so good at it. He revealed in " Atlantic City " that he lost his entire life savings playing a Chinese game. He has also apparently lost every one of his many bets on the Super Bowl. When Marshall and Lily break their engagement in season one, Barney lures women away from Marshall so that he can remain faithful to the woman he truly loves. He is also known to write a blog. Career[ edit ] Throughout the series, Barney frequently refuses to say what he does for a living, brushing off any questions about his job with a dismissive "Please. Barney states in " Cupcake " that, as a lawyer for Altrucell, Marshall would make more money in three months than he and Lily make in a year because his company has so many lawsuits against it. As of Season 4, his company is involved in a hostile takeover of Goliath National Bank GNB and consequently shifts him to the management team of the bank, but he remains a powerful executive and continues to use the same office he has had since it was first shown in Season 1. Despite this, he has suggested there is the possibility he will one day wash up on shore with no teeth or fingerprints and supposedly has come under attack by ninjas in the past during work. His video resume was published in Season 4 episode " The Possimpible " . Unknown to his company, he has been conspiring with the federal government as part of a long-term plan to get revenge on his boss, who stole his girlfriend prior to the start of the series. Their friendship has been tested, however; in " The Goat " , Ted finds out that Barney and Robin slept together and ends their friendship, and refuses to speak to him for several episodes. In the third-season finale, "Miracles", however, Ted forgives Barney after Barney severely injures himself while trying to help him. In the episode " Slap Bet " , Barney loses a bet with Marshall and agrees to let Marshall slap him five times at random occasions "throughout eternity". This is later extended to eight slaps in the episode " Disaster Averted " . Marshall administers these slaps in the episodes "Slap Bet", " Stuff " , " Slapsgiving " , " Slapsgiving 2: Revenge of the Slap " , " Slapsgiving 3: Slapointment in Slapmarra " , and " The End of the Aisle " . Lily Aldrin[ edit ] Barney makes many unwelcome sexual advances toward Lily throughout the series, and frequently implies that Lily is secretly attracted to him, despite all evidence to the contrary. Nevertheless, he considers Lily a confidante, seeking her advice on winning Robin over and telling her deeply personal secrets, such as his failed ambition to be a concert violinist. He also admires her skill at lying and manipulating people, considering it to be on par with his own. Throughout Season 4, he struggles with his feelings for her, until they finally get together in the season finale " The Leap " . They become a full-fledged couple in season 5, but they break up in " The Rough Patch " when they find that they are making each other

miserable. They never truly get over each other, however, even while they are dating other people. She accepts, and they get engaged. The final season revolves around their wedding weekend. After much doubt and soul-searching, they get married in "The End of the Aisle". The phrase "Suit up! According to creator Thomas, this is a sign that Barney "thought of his suit as some kind of superhero outfit that separated him from the pack. He also uses the word "awesome" to describe anything that he finds remotely pleasing, and invents different kinds of "high-fives" for every occasion. And also he often uses the word "Nice" to express when he enjoys something or someone. In the show Barney frequently approaches attractive women with Ted in tow and asks "Haaaaave you met Ted? Thomas says that this phrase is based in real life, as a one-time friend of his often used a similar line to meet women. Barney often uses the phrase "Challenge accepted" when someone mentions an outlandish task that supposedly cannot be done; he takes this as a personal challenge and attempts, usually successfully, to perform the task. Reception[ edit ] According to The Early Show , Barney is one of the main reasons that the show has been a success.
