The rise of bonus rounds, the introduction of ticket printers for payoffs, the disappearance of handles on the machines there are new wrinkles all the time. I had, after all, been writing about slots all this time since the book was published in . But as I started going through the original book, I realized this was going to take a little more work. I estimate I rewrote about 60 percent of the book. The largest slot jackpot ever hit in the United States is: How rapidly things change. The new record is nearly three times that amount. And the Desert Inn, where the record was set, is no longer open. An individual is more likely to hit a jackpot if the casino is crowded. Because slot machines are played more often at peak times. How does that affect my chances of winning? In two hours the reels spin a collective 1 million times, and, if the machines hit right on the average, 50 jackpots are paid. One in every 20 players has a big payday. Only slot players are in the casino, playing the same pulls per hour as those on the busier night. In two hours, the reels spin only , times, only 10 percent as much as on the busy night. If the machines hit right on the average, only five jackpots are paid. Fifty jackpots on the busy night. Five on the slow day. But with only players in the casino, those five jackpots mean one in every 20 players has a big payday the same as on the busy night. My chances of being one of those to hit the jackpot are the same on the calm day as on the busy night. A reel-spinning game that adds an element of skill is: A reel-spinning game that adds an element of skill is Yahtzee. There are both reel-spinning and video versions of Yahtzee with a roll-the-deice bonus round. On the video version, the round is played out on the screen. Reel-spinning games come with oversized dice in the top box, along with a lighted display showing bonus payoffs for Yahtzee rolls such as straights, three of a kind and four of a kind, wit the big payoff being for a Yahtzee five of a kind. First, all five dice roll. Then the player selects dice to hold and re-rolls the others, then does it once more three rolls, just as in the regular Yahtzee. Players who know which dice to hold and which to roll will get larger bonuses in the long run.

*The Craps Answer Book: How to Make One of the Best Bets in the Casino Even Better by John Grochowski If you're looking for fast-paced excitement, just follow the cheers and jeers of players winning or losing together.*

The subject of gambling is not addressed directly in the scriptures. Some consider going to casinos, betting on sporting events, or buying lottery tickets to be an innocent form of entertainment. Others think that gambling of any sort is wrong and should be avoided. I think the best we can do is point out a few scriptural principles to help you determine if you should be going to casinos. The Bible warns us against gaining wealth by any other means than working for it. He would have us work for our wages. To chase a fantasy of striking it rich in a casino or by winning the lottery often just brings poverty. I remember years ago walking into a convenience store that had an electronic poker machine that would pay out cash prizes. A man and a woman were perched on two stools putting quarters into these machines. Between them, their little girl was asleep on the dirty floor. That was a heartbreaking scene. While some people enjoy a form of gambling as a harmless past time, so many others are spending their rent and grocery money hoping to strike it rich. They are truly chasing a fantasy that just brings poverty. Another warning we have in the scriptures is the love of money. Instead of gambling to gain more money, we learn in Proverbs Of course, when we, as believers on the Lord Jesus Christ are willing to work to have enough money to give to others that are in need, as we read in Ephesians 4: The Apostle Paul exhorted young Timothy in 1 Timothy 6: Make sure that you can do it to the glory of the Lord.
