The book is a genuine testament to the immense variety of skills, knowledge and understanding that go into creating and maintaining an orchestra. I would hope that people other than those already involved in this musical vocation would pick it up - certainly it gives a wonderful impression of the world of orchestral music. I should be surprised if even those who live and breathe orchestras do not find thought-provoking material here, as well as anecdotes to delight in. Clarinet Concerto , Brahms:

Chapter 3 : Stephen Cottrell | Revolvvy

Professor Stephen Cottrell, Professor of Music, is an academic at the School of Arts and Social Sciences of City, University of London.

The Cambridge companion to the orchestra edited by Colin Lawson This guide to the orchestra and orchestral life is unique in the breadth of its coverage. It combines orchestral history and orchestral repertory with a practical bias offering critical thought about the past, present and future of the orchestra as a sociological and as an artistic phenomenon. Other topics discussed include the art of orchestration, scorereading, conductors and conducting, international orchestras, recording, as well as consideration of what it means to be an orchestral musician, an educator, or an informed listener. Written by experts in the field, the book will be of academic and practical interest to a wide-ranging readership of music historians and professional or amateur musicians as well as an invaluable resource for all those contemplating a career in the performing arts.
