The text is twice as long as the Bible and is fully searchable using the free Adobe Reader found on most computers. The Encyclopedia was available as a CD from to and is now supplied as a pdf file. It introduces the subject and serves as a guide to the other resources in the Encyclopedia approx 2, pages, 1. The greatest erotic love song in Western literature, making the association of gardens and love. It has been a profound influence on western thinking about gardens. The Garden of Eden was thought to have been in West Asia. Excerpts from The Koran relating to gardens. Because gardens were so often used as a symbol of paradise, there are more references to gardens in The Koran than in The Bible. It is written by the founder of modern anthropology and helps to explain the Adonis Cult, which provides evidence of plants being grown in Greek courtyard gardens, and of the spirit in which sacred groves were made in Ancient Greece. Vitruvius was a Roman and wrote the oldest western book on design to have survived. Book 1, Chapters , are in the Encyclopedia. These letters are the best surviving descriptions of Roman gardens and of how their owners used them. Pliny owned many gardens and slaves. His account of how he destroyed the sacred groves of the pagan religion does much to explain why Europe has such scanty remains of this type of outdoor space. They are key texts for the study of medieval gardens, c AD. The tales are famed for their sexual intrigue and this aspect is more prominent than garden scenery in the illustrations in the Encyclopedia. This is the literary classic of medieval garden literature, celebrating the delight of plants in monastic life and giving detailed information on the culture and uses of plants. The Life of St Anthony, relating to the origin of monastic gardening The Life of St Philbert, relating to the origin of the European monastic cloister. A set of quotations from The Bible which make reference to gardens. This gives a particular importance to past travellers descriptions of their use and form. He was a friend of Sir Walter Scott and has the same interest in welding history with imagination. This provides a glimpse of the Alhambra and Generalife when they were, beyond question, the finest gardens in Europe. Augustine is regarded as the greatest Christian thinker of antiquity, the transmitter of Plato and Aristotle to medieval and renaissance Christianity. Drawing from Pliny and Vitruvius, the humanist scholar set forth the principles for the design of renaissance villas. They were taken up by Donato Bramante and guided the course of garden design for two centuries. The quotations in the Encyclopedia relate to the placing of buildings and Neoplatonism. Despite his dates these gardens are medieval, with only the slightest renaissance accent. The Encyclopedia contains the text and a comment on his Discourse on the method of rightly conducting the reason, and seeking truth in the sciences. It became the standard book on laying out a French baroque garden and provides a fascinating insight into how this was done. The former summarises contemporary attitudes to gardens and the latter summarises contemporary rationalist-Neoclassical aesthetic theory: The Encyclopedia contains relevant quotations. Essay 37 describes a perfect garden in which reason and nature go hand in hand. Essay sees the works of nature as more delightful than artificial arrangements. William Shenstone A description of The Leasowes. Edmund Burke An essay on the sublime and beautiful Taking an empiricist approach, Burke attacks Vitruvian and rationalist aesthetics. The most brilliant and influential essay ever written on the development English park and garden design. It is a romantic treatment of an ancient theme, making the association between women, sex and gardens see above references the Song of Solomon, the Romance of the Rose and Boccaccio. Also the reference below to Goethe. Price was a widely respected authority on picturesque taste in gardens. He also drew gardens and designed gardens. The section reproduced in the Encyclopedia deals with the design of a romantic garden. Jane was a novelist and her memoir is as touching as it is important as the key source of information on her husband - who was the most influential garden writer of the nineteenth century. Edward Kemp How to lay out a garden edn. Excerpts giving his views on styles of garden design and describing two gardens which he designed. They introduced a romantic-historical dimension to garden design and appreciation. Flaubert

satirizes the bourgeois taste in garden design displayed by the characters whose names form the title of his last novel. Famous Parks and Gardens of the World - the book was published anonymously and provides a good illustration of European gardening opinion in The Preface and Chapter 10 are in the Encyclopedia. Ludwig II of Bavaria: Only copies of his book were printed and its contents are not well known. This is the first time the book has been re-published. It is accompanied with an analysis of the text by Tom Turner. A clear appreciation of how landscape architecture began is regarded as central to comprehension of the modern profession. Notes on the Top twenty theorists and designers in the history of landscape architecture and on the question What is landscape architecture? These comments transmitted the term to Andrew Jackson Downing and, later, to Frederick Law Olmsted - setting the course of American landscape architecture. Section 1, Section 2 and Section 9. He urged the use of hardy plants, instead of subtropical plants and carpet bedding, in garden design. He had a sharp dispute with Blomfield below. There are 2 chapters in the Encyclopedia. Blomfield was the son of a bishop and had a hatred of modernism. Jekyll was the most influential writer on planting design in the twentieth century. This chapter is the clearest statement of her views on the history and theory of garden design. After looking at the design revolutions which have taken place in the s, s, and s this essay finds the seeds of a fourth design revolution in the work of Sir Geoffrey Jellicoe, Charles Jencks, and Ian Hamilton Finlay. Developing the method outlined in the Garden Design Journal, this article recommends a design method for landscape design and planning. Design history and theory from a lecture delivered at the University of Uppsala in April this article relates the PAKILDA method to the set of design objectives outlined by Vitruvius in the first century: Geoffrey Jellicoe, the subconscious and landscape design Garden Revolutions: It is a layered approach to garden making.
