Plot Hill House is an eighty-year-old mansion in a location that is never specified, built by long-deceased Hugh Crain. The story concerns four main characters: John Montague, an investigator of the supernatural; Eleanor Vance, a shy young woman who resents having lived as a recluse caring for her demanding invalid mother; Theodora, a flamboyant, bohemian, possibly queer artist; and Luke Sanderson, the young heir to Hill House, who is host to the others. Montague hopes to find scientific evidence of the existence of the supernatural. He rents Hill House for a summer and invites as his guests several people whom he has chosen because of their past experience with paranormal events. Of these, only Eleanor and Theodora accept. Eleanor travels to the house, where she and Theodora will live in isolation with Montague and Luke. Hill House has two caretakers, Mr. Dudley, who refuse to stay near the house at night. The blunt and single-minded Mrs. Dudley is a source of some comic relief. The four overnight visitors begin to form friendships as Dr. All four of the inhabitants begin to experience strange events while in the house, including unseen noises and ghosts roaming the halls at night, strange writing on the walls and other unexplained events. Eleanor tends to experience phenomena to which the others are oblivious. At the same time, Eleanor may be losing touch with reality, and the narrative implies that at least some of what Eleanor witnesses may be products of her imagination. Another implied possibility is that Eleanor possesses a subconscious telekinetic ability that is itself the cause of many of the disturbances experienced by her and other members of the investigative team which might indicate there is no ghost in the house at all. Later in the novel, the bossy and arrogant Mrs. Ironically, and unlike the other four characters, they do not experience anything supernatural, although some of Mrs. Much of the supernatural phenomena that occur are described only vaguely, or else are partly hidden from the characters themselves. In one episode, as Theodora and Eleanor walk outside Hill House at night, they see a ghostly family picnic that seems to be taking place in daylight. Theodora screams in fear for Eleanor to run, warning her not to look back, though the book never explains what Theodora sees. By this point in the book, it is becoming clear to the characters that the house is beginning to possess Eleanor. Fearing for her safety, Dr. Montague and Luke declare that she must leave. Eleanor, however, regards the house as her home and resists. Dr Montague and Luke force her into her car; she bids them farewell and drives off, but before leaving the property grounds she propels the car into a large oak tree, and it is assumed that she is killed. In the short, final paragraph that follows, the reader is left uncertain whether Eleanor was simply an emotionally disturbed woman who committed suicide, or whether her death at Hill House has a supernatural significance.

*The Haunting of Hill House is a novel by author Shirley Jackson for the National Book Award and considered one of the best literary ghost stories published during the 20th century, [1] it has been made into two feature films and a play.*

Development[ edit ] The author decided to write "a ghost story" after reading about a group of nineteenth century "psychic researchers" who studied a house and somberly reported their supposedly scientific findings to the Society for Psychic Research. What Jackson discovered in their "dry reports was not the story of a haunted house, it was the story of several earnest, I believe misguided, certainly determined people, with their differing motivations and background. She asked her mother, who lived in California, to help find information about the dwelling. Jackson also read volume upon volume of traditional ghost stories while preparing to write her own, "No one can get into a novel about a haunted house without hitting the subject of reality head-on; either I have to believe in ghosts, which I do, or I have to write another kind of novel altogether. The story concerns four main characters: John Montague, an investigator of the supernatural; Eleanor Vance, a shy young woman who resents having lived as a recluse caring for her demanding disabled mother; [4] Theodora, a flamboyant, bohemian artist and Luke Sanderson, the young heir to Hill House, who is host to the others. Montague hopes to find scientific evidence of the existence of the supernatural. He rents Hill House for a summer and invites as his guests several people whom he has chosen because of their past experience with paranormal events. Of these, only Eleanor and Theodora accept. Eleanor travels to the house, where she and Theodora will live in isolation with Montague and Luke. Hill House has two caretakers, Mr. Dudley, who refuse to stay near the house at night. The blunt and single-minded Mrs. Dudley is a source of some comic relief. The four overnight visitors begin to form friendships as Dr. All four of the inhabitants begin to experience strange events while in the house, including unseen noises and ghosts roaming the halls at night, strange writing on the walls and other unexplained events. Eleanor tends to experience phenomena to which the others are oblivious. At the same time, Eleanor may be losing touch with reality, and the narrative implies that at least some of what Eleanor witnesses may be products of her imagination. Another implied possibility is that Eleanor possesses a subconscious telekinetic ability that is itself the cause of many of the disturbances experienced by her and other members of the investigative team which might indicate there is no ghost in the house at all. Later in the novel, the bossy and arrogant Mrs. Unlike the other four characters, they do not experience anything supernatural, although some of Mrs. Much of the supernatural phenomena that occur are described only vaguely, or else are partly hidden from the characters themselves. In one episode, as Theodora and Eleanor walk outside Hill House at night, they see a ghostly family picnic that seems to be taking place in daylight. Theodora screams in fear for Eleanor to run, warning her not to look back, though the book never explains what Theodora sees. Fearing for her safety, Dr. Montague and Luke declare that she must leave. Eleanor, however, regards the house as her home and resists. Montague and Luke force her into her car; she bids them farewell and drives off, but before leaving the property grounds she propels the car into a large oak tree, and it is assumed that she is killed. In the short, final paragraph that follows, the reader is left uncertain whether Eleanor was simply an emotionally disturbed woman who committed suicide, or whether her death at Hill House has a supernatural significance. This is perhaps why it remains the definitive haunted house story". The version is a relatively faithful adaptation and received critical praise. The version, considerably different from the novel and widely panned by critics, is an overt fantasy horror in which all the main characters are terrorized and two are killed by explicitly supernatural deaths. It was also parodied in Scary Movie 2 The book was first adapted for stage in by F.

A few words about book author Shirley Jackson " , a celebrated writer of horror, wrote many stories as well as six novels and two works of nonfiction. Laura Miller, previously an editor at Salon. At first, their stay seems destined to be merely a spooky encounter with inexplicable phenomena. But Hill House is gathering its powers"and soon it will choose one of them to make its own. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1, titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. For me, a lifelong passion for classic horror began partly with reading Penguin Books in English, and one of my earliest loves, Frankenstein by Mary Shelley, the purest of parables, brought a sense of familiarity and comfort to an awkward adolescent boy growing up in Mexico, who felt, in some sense, a bond with the Creature himself. The discovery of the horror tale as a young child was fortuitous and, in many ways, it served the same purpose as fairy tales did in my childhood. Internal conflicts are externalized and played out as we enter the worlds written by Mary Shelley or Edgar Allan Poe or H. These tales allow us to articulate our anxieties and fears in absolute safety. And, just as the fairy tale, the horror tale can serve as both a liberating or repressive social tool, and remains always an accurate mirror to the social climate of its time. These works of literature collected here in Penguin Horror by masters of the genre including perennial favorites like Mary Shelley, Shirley Jackson, H. Lovecraft, Edgar Allan Poe, and an author that I trust will be a revelation to new generations of horror lovers: These titles go hand-in-hand with a collection of classic supernatural short stories from Ray Bradbury, Stephen King, Joyce Carol Oates and many others, selected by a true scholar of the Genre: This collection provides new readers with an opportunity to inhabit the haunted castles of our minds, and to look deeply into those dark mirrors that reflect all that we fear. For to learn what we fear is to learn who we are.
